Agency Information Collection Activities; Proposed Collection Comments Requested; Reinstatement, With Change, of a Previously Approved Collection for Which Approval Has Expired: 2020 Law Enforcement Administrative and Management Statistics (LEMAS) Survey

AGENCY: Bureau of Justice Statistics, Department of Justice.

ACTION: 30-Day notice.

SUMMARY: The Department of Justice (DOJ), Office of Justice Programs, Bureau of Justice Statistics, will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection was previously published in the **Federal Register**, allowing a 60-day comment period. Following publication of the 60-day notice, BJS received two requests for the survey instruments and one set of comments. The comments suggested new items to add to the instruments but no changes were made. New items require cognitive testing which at this point would result in a significant delay to launching the survey.

DATES: Comments are encouraged and will be accepted for 30 days until June 26, 2020.

FOR FURTHER INFORMATION CONTACT: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Since 1987, BJS has collected information about the personnel, policies, and practices of law enforcement agencies via the Law Enforcement Management and Administrative Statistics (LEMAS) survey. This core survey, which has been administered every 4 to 6 years, has been used to produce nationally representative estimates on the demographic characteristics of sworn personnel, hiring practices, operations, equipment, technology, and agency policies and procedures. BJS plans to publish this information in reports and reference it when responding to queries

from the U.S. Congress, Executive Office of the President, the U.S. Supreme Court, state officials, international organizations, researchers, students, the media, and others interested in criminal justice statistics.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An agency-level survey will be sent to approximately 3,500 LEA respondents. At the time of the 60-day notice, the expected burden was about 2.33 hours per respondent. Based on additional analysis of cognitive interviewing results, the expected burden placed on these respondents is about 2.5 hours.

SUPPLEMENTARY INFORMATION:

I. Background

The Office of Management and Budget (OMB) is responsible for the development and oversight of Government-wide policies, principles, standards, and guidelines concerning statistical information presentation and dissemination, as well as the timely release of statistical data. OMB has issued a series of Statistical Policy Directives (SPDs) to guide agencies in their dissemination of statistical products to ensure timely and equitable distribution of data to the public. Each of these SPDs describes the fundamental statistical-system principle of equitable and timely dissemination of statistical information to the public. See, e.g., SPD No. 1, Fundamental Responsibilities of Federal Statistical Agencies and Recognized Statistical Units (Dec. 2, 2014) (“The objectivity of the information released to the public is maximized by making information available on an equitable, policy-neutral, transparent, timely, and punctual basis”); SPD No. 3, Compilation, Release, and Evaluation of Principal Federal Economic Indicators (Sept. 25, 1985) (emphasizing the importance of releasing Principal Federal Economic Indicators (PFEIs) to the public in a fair and orderly manner); SPD No. 4, Release and Dissemination of Statistical Products Produced by Federal Statistical Agencies (Mar. 7, 2008) (“Statistical agencies must ensure that all users have equitable and timely access to data that are disseminated to the public.”). In short, equitable and timely dissemination of statistical information is a core principle of Federal statistical policy.

Since the mid-1980s, consistent with these SPDs, DOL agencies have provided pre-release data access to news
