Agricultural Marketing Service

[Doc. No. AMS-TM-20-0047]

USDA Farmers Market Application; Notice of Request for Extension and Revision of a Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of renewal and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Agricultural Marketing Service's (AMS) intention to request approval, from the Office of Management and Budget, for an extension of and revision to the currently approved information collection for USDA Farmers Market Application. Copies of this one-time yearly application form to participate in the U.S. Department of Agriculture (USDA) Farmers Market may be obtained by calling the AMS Transportation and Marketing Program contact listed or visiting the website at www.usda.gov/farmersmarket.

DATES: Comments on this notice must be received by July 27, 2020 to be assured of consideration.

FOR FURTHER INFORMATION CONTACT: ToiAyna Thompson, Market Manager, Transportation and Marketing Programs, Agricultural Marketing Service, U.S. Department of Agriculture, 1400 Independence Avenue SW, Room 1097 South Building, Washington, DC 20250. Telephone 202-7450-7691. Comments should reference docket number AMS-TM-20-0047.

Internet: www.regulations.gov. All written comments should be identified with the docket number AMS-TM-20-0047. All comments received will be available for public inspection during regular business hours at the same

address. It is our intention to have all comments whether submitted by mail or internet available for viewing on the *Regulations.gov* (www.regulations.gov) internet site. Comments submitted will also be available for public inspection in person at USDA-AMS, Transportation and Marketing Programs, Marketing Services Division, Room 4523-South Building, 1400 Independence Ave. SW, Washington, DC, from 9 a.m. to 12 noon and from 1 p.m. to 4 p.m., Monday through Friday, (except official Federal holidays). Persons wanting to visit the USDA South Building to view comments received are requested to make an appointment in advance by calling (202) 690-1300.

The information collected is used only by authorized employees of the USDA, AMS. All responses to this notice will be summarized and included in the request for OMB approval.

SUPPLEMENTARY INFORMATION:

Title: USDA Farmers Market Application.

OMB Number: 0581-0229.

Expiration Date of Approval: August 31, 2020.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: The Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627) directs and authorizes the Secretary of Agriculture to conduct, assist, and foster research, investigation, and experimentation to determine the best methods of processing, preparation for market packaging, handling, transporting, distributing, and marketing agricultural products, 7 U.S.C. 1622(a). Moreover, 7 U.S.C. 1622(f) directs and authorizes the Secretary to conduct and cooperate in consumer education for more effective utilization and greater consumption of agricultural products. In addition, 7 U.S.C. 1622(n) authorizes the Secretary to conduct services and to perform activities that will facilitate the marketing and utilization of agricultural products through commercial channels.

On December 23, 2005, the AMS published a final rule in the **Federal Register** (70 FR 76129) to implement established regulations and procedures under 7 CFR part 170 for AMS to operate the USDA Farmers Market, specify vendor criteria and selection procedures, and define guidelines to be used for governing the USDA Farmers

Market. In conjunction, the USDA Farmers Market Application was developed to receive information from farmers and small business owners who are interested in participating in the market. Prospective vendors fill out the Application online once per year.

The information collected on the Application allows AMS the means to review and select participants for the annual market season. The type of information requested on the Application includes: (1) Certification the applicant is the owner or representative of the farm or business; (2) applicant contact information including name(s), address, phone number, and email address; (3) farm or business location; (4) types of products grown or to be sold; (5) business practices and direct sourcing relationships with local farmers, ranchers and growers; (6) weekly sales data; (7) insurance coverage; and (8) all applicable food safety documents. Vendors selected to the market provide a signed copy of the Participant Agreement, which states that the vendor has read, understands and agrees to adhere to all applicable rules and guidelines as outlined in the USDA Farmers Market Rules, Procedures, and Operating Guidelines. Sales Data is collected from vendors weekly. This information is useful in letting AMS know how well the market and vendors are doing overall.

We collect sales data at the beginning of every market day from the previous week. This is collected on an Excel spreadsheet that is stored by market manager. It then gets documented in a shared office file, that tracks the sales all season. Collecting sales gives us feedback as to how each vendor did each week and the success of the market each year. We use these numbers to determine the success of the market, the marketing strategies of each vendor, and uniqueness of each product. It is also noted with a quick snapshot of the weather for each corresponding day, to determine if the sales were affected by extreme rain, heat, or any other natural disaster that would deter marketgoers from visiting and purchasing from the vendors.

The USDA Farmers Market Customer Satisfaction Questionnaire and the VegUcation Questionnaire will be combined into one survey and renamed as The USDA Farmers Market Survey

submitted under OMB 0581–0269 Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery. The purpose of this survey is to learn who our customers are and what their preferences are in order to improve the USDA Farmers Market. The VegUcation classes take place weekly at the USDA Farmers Market and are free for anyone to attend and are taught by USDA subject matter experts. The purpose is to learn how familiar attendees are with the featured fruit or vegetable, if they found the class valuable, and if their attendance affected their market purchases.

The Vendor Satisfaction Survey also under OMB 0581–0269 will only be used by the current vendors to give anonymous feedback on the market. This information will be used to gauge the market experience from the vendor's perspective. Tracking the overall communication, logistics, support of the market team can provide feedback on how successful the operational procedures are executed. In addition to receiving feedback on the market operations, it is imperative that USDA's Farmers Market offers support and best marketing practices to the vendors. The success rate is not only tracked for the internal office use but also to better represent the vendors.

Estimate of Burden: The public reporting burden for this collection is estimated to be 7 minutes per response.

Respondents: Farmers and/or small business owners.

Estimated Number of Respondents: 68.

Estimated Total Annual Responses: 1,764.

Estimated Number of Responses per Respondent: 25.94.

Estimated Total Annual Burden on Respondents: 201.12 hours.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. All comments will become a matter of

public record and may be sent to the following address:

Bruce Summers,
Administrator.

Animal and Plant Health Inspection Service

[Docket No. APHIS–2020–0023]

BASF Corporation; Petition for a Determination of Nonregulated Status for Plant-Parasitic Nematode-Protected and Herbicide Resistant Soybean

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service (APHIS) has received a petition from BASF Corporation seeking a determination of nonregulated status of soybean event GMB151 genetically engineered for resistance to the plant-parasitic nematode, soybean cyst nematode (*Heterodera glycines*), and for resistance to 4-hydroxyphenylpyruvate dioxygenase (HPPD–4) inhibitor herbicides. The petition has been submitted in accordance with our regulations concerning the introduction of certain genetically engineered organisms and products. We are making the petition available for review and comment to help us identify potential environmental and interrelated economic issues and impacts that APHIS may determine should be considered in our evaluation of the petition.

DATES: We will consider all comments that we receive on or before July 27, 2020.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2020-0023>.
- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2020–0023, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road Unit 118, Riverdale, MD 20737–1238.

The petition and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2020-0023> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading

room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 7997039 before coming.

The petition is also available on the APHIS website at: <https://www.aphis.usda.gov/aphis/ourfocus/biotechnology/permits-notifications-petitions/petitions/petition-status> under APHIS petition 19–317–01p.

FOR FURTHER INFORMATION CONTACT: Ms. Cindy Eck, Biotechnology Regulatory Services, APHIS, 4700 River Road Unit 147, Riverdale, MD 20737–1236; (301) 851–3892, email: cynthia.a.eck@usda.gov.

SUPPLEMENTARY INFORMATION: Under the authority of the plant pest provisions of the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the regulations in 7 CFR part 340, “Introduction of Organisms and Products Altered or Produced Through Genetic Engineering Which Are Plant Pests or Which There Is Reason to Believe Are Plant Pests,” regulate, among other things, the introduction (importation, interstate movement, or release into the environment) of organisms and products altered or produced through genetic engineering that are plant pests or that there is reason to believe are plant pests. Such genetically engineered (GE) organisms and products are considered “regulated articles.”

The regulations in § 340.6(a) provide that any person may submit a petition to the Animal and Plant Health Inspection Service (APHIS) seeking a determination that an article should not be regulated under 7 CFR part 340. Paragraphs (b) and (c) of § 340.6 describe the form that a petition for a determination of nonregulated status must take and the information that must be included in the petition.

APHIS has received a petition (APHIS Petition Number 19–317–01p) from BASF Corporation (BASF) seeking a determination of nonregulated status of soybean event GMB151 genetically engineered for resistance to the plant-parasitic nematode, soybean cyst nematode (*Heterodera glycines*), and for resistance to 4-hydroxyphenylpyruvate dioxygenase (HPPD–4) inhibitor herbicides. The BASF petition states that information collected during field trials and laboratory analyses indicates that GMB151 soybean is not likely to be a plant pest and therefore should not be a regulated article under APHIS' regulations in 7 CFR part 340.

As described in the petition, GMB151 soybean was developed through disarmed *Agrobacterium*-mediated transformation using the vector
