

because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a determination that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule simply promulgates the operating regulations or procedures for drawbridges. This action is categorically excluded from further review, under figure 2–1, paragraph (32)(e), of the Instruction.

A Record of Environmental Consideration and a Memorandum for the Record are not required for this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

■ 1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 33 CFR 1.05–1; and Department of Homeland Security Delegation No. 0170.1.

■ 2. Revise § 117.118 to read as follows:

§ 117.118 Tombigbee River.

(a) The draw of the Meridian and Bigbee Railroad (MNBR) vertical lift span bridge across the Tombigbee River, mile 128.6 (Black Warrior Tombigbee (BWT) Waterway mile 173.6), at Naheola, shall operate as follows:

(1) The draw shall be maintained in the fully open-to-navigation position for vessels at all times, except during periods when it is closed for the passage of rail traffic.

(2) When a train approaches the bridge, it will stop and a crewmember from the train will observe the waterway for approaching vessels. If vessels are observed approaching the bridge, they will be allowed to pass prior to lowering the bridge. The crewmember will then announce via radiotelephone on VHF–FM channel 16 that the bridge is preparing to be lowered. If, after two minutes, no response has been received, the crewmember will initiate the lowering sequence.

(3) After the train has completely passed over the bridge, the crewmember will initiate the raising sequence. When the bridge is in the fully open-to-navigation position, the crewmember will announce via radiotelephone on VHF–FM channel 16 that the bridge is in the fully open-to-navigation position.

(4) To request openings of the bridge when the lift span is in the closed-to-navigation position, mariners may contact the MNBR via VHF–FM channel 16 or by telephone at 205–654–4364.

(b) The draw of the Norfolk Southern Railroad (NSRR) Vertical Lift Bridge across the Tombigbee River, mile 89.9, near Jackson, Washington and Clarke Counties, Alabama shall be operated as follows:

(1) The draw shall be kept in the open-to-vessel position, except during periods when it will close for the passage of rail traffic or to perform periodic maintenance authorized in accordance with subpart A of this part.

(2) When a train approaches the bridge, the draw tender will initiate the bridge closing warning signal, consisting of radio calls via VHF–FM channels 13 and 16 and activation of flashing red warning lights at each end of the span. The radio calls will be broadcast at five (5) minutes prior to bridge closing and at two (2) minutes prior to bridge closing. At the end of the two-minute warning period, if there are no vessels passing beneath the bridge or there have been no requests to pass beneath the bridge then the draw will

automatically close. Upon passage of the train, the draw will return to the open-to-vessel position. The warning lights will continue to flash red until the draw is completely opened.

(3) The draw shall be remotely operated by the draw tender at Norfolk Southern Railroad's bridge control center in Decatur, Alabama. Closed Circuit TVs, infrared detectors and an Automatic Identification System have been installed at the bridge. Vessels can contact the NSRR draw tender via VHF–FM channel 13 or by telephone at the number displayed on the signs posted at the bridge to request an opening of the draw when the vertical lift span is in the closed-to-vessel position.

(4) NSRR will immediately provide an on-site bridge tender if:

(i) Any component of the remote operations system fails and prevents the remote operator from being able to visually identify vessels, communicate with vessels, detect vessels immediately underneath the bridge or visually identify trains approaching the bridge.

(ii) Anytime NSRR cannot meet Federal Railway Administration (FRA) or any other government agency safety requirements.

(iii) Anytime that the NSRR procedures or equipment to close or open the bridge listed in paragraph (b)(2) of this section fail.

(iv) When weather reaches a point where the remote draw tender cannot visually identify a vessel from the remote location.

(v) At the direction of the District Commander.

RIN 1625–AA00

Safety Zones; Annual Events Requiring Safety Zones in the Captain of the Port Lake Michigan Zone

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is updating the rules that regulate vessel traffic and control navigation on portions of

waterways in the Captain of the Port Lake Michigan zone during events that will introduce safety concerns to life and property on the navigable waters of the United States. This rule reorganizes the table listing existing safety zones into four separate tables organized by the State in which the safety zone occurs, makes minor formatting changes for consistency, updates the dates listed for some events, consolidates one safety zone, and removes six safety zones that are no longer necessary.

DATES: This rule is effective July 2, 2020.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <https://www.regulations.gov>, type USCG-2020-0125 in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this rule.

 NPRM Notice of proposed rulemaking
 § Section
 U.S.C. United States Code

II. Background Information and Regulatory History

On March 19, 2020, the Coast Guard published a notice of proposed rulemaking (NPRM) titled "Safety Zones; Annual Events Requiring Safety Zones in the Captain of the Port Zone Lake Michigan Zone" (85 FR 15749). There we stated why we issued the NPRM, and invited comments on our proposed regulatory action to revise existing safety zones within the Captain of the Port Lake Michigan (COTP) zone. During the comment period that ended April 20, 2020, we received no comments.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231). The COTP has determined that potential hazards associated with the events exist and these safety zones have been established to protect safety of life and property for the maritime public and event participants from the hazards associated with these events. This rule

consolidates and makes minor formatting updates to existing regulations.

IV. Discussion of Comments, Changes, and the Rule

As noted above, we received no comments on our NPRM published March 19, 2020. There are no changes in the regulatory text of this rule from the proposed rule in the NPRM.

This rule reorganizes the table listing existing safety zones into four separate tables organized by the State in which the safety zone occurs, makes minor formatting changes for consistency, updates the dates listed for some events, consolidates one safety zone, and removes six safety zones that are no longer necessary.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This rule has not been designated a "significant regulatory action," under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB), and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

This regulatory action determination is based on the size, location, and duration of these safety zones. These regulations will be in effect only during the events listed in this regulations for which the COTP has determined pose risks to the safety of life and property for the maritime public and event participants. The size, location, and duration of these regulations will be limited to the extent necessary to minimize these risks. Moreover, the COTP will make advance notice of the enforcement of these regulations through the Local Notice to Mariners and/or Broadcast Notice to Mariners. This regulation also provides a means for anyone needing to transit through or within a published safety zone to seek permission from the COTP.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601-612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard received no comments from the Small Business Administration on this rulemaking. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the safety zone may be small entities, for the reasons stated in section V.A above, this rule will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct

effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969(42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves the consolidation and making formatting changes of existing safety zones. It is categorically excluded from further review under paragraph L60(a) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A Record of Environmental Consideration

supporting this determination is available in the docket. For instructions on locating the docket, see the ADDRESSES section of this preamble.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C. 70034, 70051; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

■ 2. Revise § 165.929 to read as follows:

§ 165.929 Safety Zones; annual events requiring safety zones in the Captain of the Port Lake Michigan Zone.

(a) *Regulations.* The following regulations apply to the safety zones listed in Tables 1 through 4 of this section.

(1) The general regulations in § 165.23.

(2) All vessels must obtain permission from the Captain of the Port (COTP) Lake Michigan or his or her designated representative to enter, move within, or exit a safety zone established in this section when the safety zone is enforced. Vessels and persons granted permission to enter one of the safety zones listed in this section must obey all lawful orders or directions of the COTP Lake Michigan or his or her designated representative. Upon being hailed by the U.S. Coast Guard by siren, radio, flashing light or other means, the

operator of a vessel must proceed as directed.

(3) The enforcement dates and times for each of the safety zones listed in Tables 1 through 4 of this section are subject to change, but the duration of enforcement would remain the same, or nearly the same, as stated in Tables 1 through 4 of this section. In the event of a change, the COTP Lake Michigan will provide notice to the public by publishing a Notice of Enforcement in the **Federal Register**, as well as, issuing a Broadcast Notice to Mariners.

(b) *Definitions.* The following definitions apply to this section:

(1) *Designated representative* means any Coast Guard commissioned, warrant, or petty officer designated by the COTP Lake Michigan to monitor a safety zone, permit entry into a safety zone, give legally enforceable orders to persons or vessels within a safety zone, and take other actions authorized by the COTP Lake Michigan.

(2) *Public Vessel* means a vessel that is owned, chartered, or operated by the United States, or by a State or political subdivision thereof.

(3) *Rain date* refers to an alternate date and/or time in which the safety zone would be enforced in the event of inclement weather.

(c) *Suspension of enforcement.* The COTP Lake Michigan may suspend enforcement of any of these zones earlier than listed in this section. Should the COTP Lake Michigan suspend any of these zones earlier than the listed duration in this section, he or she may make the public aware of this suspension by Broadcast Notice to Mariners and/or on-scene notice by his or her designated representative.

(d) *Exemption.* Public Vessels, as defined in paragraph (b) of this section, are exempt from the requirements in this section.

(e) *Waiver.* For any vessel, the COTP Lake Michigan or his or her designated representative may waive any of the requirements of this section upon finding that operational conditions or other circumstances are such that application of this section is unnecessary or impractical for the purposes of safety or security.

Safety Zones; Coast Guard Sector Ohio Valley Annual and Recurring Safety Zones Update

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is amending and updating its safety zones regulations for annual events that take place in the Coast Guard Sector Ohio Valley area. This action is necessary to update the current list of recurring safety zones with revisions, additional events, and removal of events that no longer take place in Sector Ohio Valley. This regulation restricts vessel traffic from the safety zones during the events unless authorized by the Captain of the Port Sector Ohio Valley or a designated representative.

DATES: This rule is effective June 2, 2020.

II. Background Information and Regulatory History

The Captain of the Port Sector Ohio Valley (COTP) is amending 33 CFR 165.801 to update the table of annual fireworks displays and other marine-related events in Coast Guard Sector Ohio Valley. These events include air shows, fireworks displays, and other marine related events requiring a limited access area restricting vessel traffic for safety purposes.

On February 14, 2020, the Coast Guard published a notice of proposed rulemaking (NPRM) titled “Safety Zones; Coast Guard Sector Ohio Valley Annual and Recurring Safety Zones Update” (85 FR 8509). There we stated

why we issued the NPRM, and invited comments on our proposed regulatory action related to those recurring safety zones. During the comment period that ended on March 16, 2020, no comments were received.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making it effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be impracticable and contrary to the public interest because immediate action is necessary to respond to the potential safety hazards associated with these marine events.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231). Based on the nature of these marine events, large numbers of participants and spectators, and event locations, the COTP has determined that the events listed in this rule could pose a risk to participants or waterways users if the normal vessel traffic were to interfere with the events. Possible hazards include risks of injury or death from near or actual contact among participant vessels and spectators or mariners traversing through the regulated area. This purpose of this rule is to ensure the safety of all waterway users, including event participants and spectators, during the scheduled events.

IV. Discussion of Comments, Changes, and the Rule

As noted above, we received no comments on our NPRM published February 14, 2020. There are no changes in the regulatory text of this rule from the proposed rule on the NPRM.
