

Administration, as well as programmatic actions to carry out such goals and priorities over the next 20 years, and evaluate and update such plan every 5 years.”

NOAA is revising its Education Strategic Plan as specified in the America COMPETES Act and subsequent legislation. Based on NOAA’s mission, strengths, and the future needs of our society, the draft plan includes five education goals:

*Goal 1—Science-Informed Society:* An informed society has access to, interest in, and understanding of NOAA-related sciences and their implications for current and future events.

*Goal 2—Conservation & Stewardship:* Individuals and communities are actively involved in stewardship behaviors and decisions that conserve, restore, and protect natural and cultural resources related to NOAA’s mission.

*Goal 3—Ready, Responsive, Resilient:* Individuals and communities are ready, responsive, and resilient to the increasing challenges and impacts of hazardous weather, changes in climate, and other environmental threats monitored by NOAA.

*Goal 4—Future Workforce:* A diverse and highly skilled future workforce pursues careers in disciplines that support NOAA’s mission.

*Goal 5—Organizational Excellence:* NOAA functions in a unified manner to support, plan, and deliver effective educational programs and partnerships that advance NOAA’s mission.

NOAA welcomes comments on all aspects of the draft Plan, including any inconsistencies perceived within the Plan and any omissions of important topics or issues. This draft Plan is being issued for comment only and is not intended for interim use. For any shortcomings noted within the draft Plan, please propose specific remedies. Suggested changes will be incorporated where appropriate, and a final Plan will be posted on the NOAA Education Council website.

Please follow this format guidance for preparing and submitting comments. Using the format guidance will facilitate the processing of comments and assure that all comments are appropriately considered. Overview comments should be provided first and should be numbered. Comments that are specific to particular pages, paragraphs, or lines of the section should identify the page and line numbers to which they apply. Please number each page of your comments.

Dated: May 27, 2020.

[RTID 0648–XA217]

#### Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; public meeting.

**SUMMARY:** The Mid-Atlantic Fishery Management Council’s (Council) Mackerel, Squid, and Butterfish (MSB) Monitoring Committee will meet via webinar to develop recommendations for MSB specifications, focusing on the *Illex* squid fishery.

**DATES:** The meeting will be held on Monday, June 15, 2020 from 10 a.m.–noon.

**ADDRESSES:** The meeting will be held via webinar. Details on the proposed agenda, connection information, and briefing materials will be posted at the MAFMC website: [www.mafmc.org](http://www.mafmc.org).

*Council address:* Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674–2331; [www.mafmc.org](http://www.mafmc.org).

**FOR FURTHER INFORMATION CONTACT:** Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526–5255.

**SUPPLEMENTARY INFORMATION:** The MSB Monitoring Committee will develop recommendations for MSB specifications, focusing on the *Illex* squid fishery.

#### Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526–5251, at least 5 days prior to any meeting date.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: May 28, 2020.

**Tracey L. Thompson,**

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

RTID 0648–XY102

#### Fisheries of the Exclusive Economic Zone Off Alaska; Prohibited Species Donation Program

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; selection of an authorized distributor.

**SUMMARY:** NMFS announces the renewal of two prohibited species donation (PSD) permits to SeaShare, authorizing this organization to distribute Pacific salmon and Pacific halibut to economically disadvantaged individuals under the PSD program. Salmon and halibut are caught incidentally during directed fishing for groundfish with trawl gear off Alaska. This action is necessary to comply with provisions of the PSD program and is intended to promote the goals and objectives of the North Pacific Fishery Management Council.

**DATES:** The permits are effective from June 2, 2020 through May 28, 2023.

**ADDRESSES:** Electronic copies of the PSD permits for salmon and halibut prepared for this action may be obtained from the Alaska Region website at <https://www.fisheries.noaa.gov/region/alaska>.

**FOR FURTHER INFORMATION CONTACT:** Megan Mackey, 907–586–7228.

**SUPPLEMENTARY INFORMATION:**

#### Background

Fishing for groundfish by United States (U.S.) vessels in the exclusive economic zone of the Bering Sea and Aleutian Islands management area (BSAI) and Gulf of Alaska (GOA) is managed by NMFS in accordance with the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (BSAI FMP) and the Fishery Management Plan for Groundfish of the Gulf of Alaska (GOA FMP). These fishery management plans (FMPs) were prepared by the North Pacific Fishery Management Council under the Magnuson-Stevens Fishery

Conservation and Management Act, 16 U.S.C. 1801 *et seq.* Regulations governing the Alaska groundfish fisheries and implementing the FMPs appear at 50 CFR parts 600 and 679. Fishing for halibut in waters in and off Alaska is governed by the Convention between the U.S. and Canada for the Preservation of the Halibut Fishery of the North Pacific Ocean and Bering Sea (Convention). The International Pacific Halibut Commission (IPHC) promulgates regulations pursuant to the Convention. The IPHC's regulations are subject to approval by the Secretary of State with concurrence from the Secretary of Commerce. After approval by the Secretary of State and the Secretary of Commerce, the IPHC regulations are published in the **Federal Register** as annual management measures pursuant to 50 CFR 300.62.

Retention of incidentally caught prohibited species is prohibited in the groundfish fisheries except for salmon and halibut for the purposes of the PSD program. Amendments 26 and 29 to the BSAI and GOA FMPs, respectively, authorize a salmon donation program and were approved by NMFS on July 10, 1996; a final rule implementing this program was published in the **Federal Register** on July 24, 1996 (61 FR 38358). The salmon donation program was expanded to include halibut as part of the PSD program under Amendments 50 and 50 to the FMPs that were approved by NMFS on May 6, 1998. A final rule implementing Amendments 50 and 50 was published in the **Federal Register** on June 12, 1998 (63 FR 32144). Although that final rule contained a sunset provision for the halibut PSD program of December 31, 2000, the halibut PSD program was permanently extended under a final rule published in the **Federal Register** on December 14, 2000 (65 FR 78119). A full description of the PSD program may be found in the

preambles to the proposed rules for Amendments 26 and 29, and Amendments 50 and 50 (61 FR 24750, May 16, 1996, and 63 FR 10583, March 4, 1998).

Section 679.26 authorizes the voluntary distribution of salmon and halibut taken incidentally in the groundfish trawl fisheries off Alaska to economically disadvantaged individuals by tax-exempt organizations through an authorized distributor. The Administrator, Alaska Region, NMFS (Regional Administrator), may select one or more tax-exempt organizations to be authorized distributors, as defined by § 679.2, based on the information submitted by applicants under § 679.26. After review of qualified applicants, NMFS must announce the selection of each authorized distributor in the **Federal Register** and issue one or more PSD permits to each selected distributor.

**Renewal of Permits to SeaShare**

Currently, SeaShare, a tax-exempt organization founded to help the seafood industry donate to U.S. hunger relief efforts, is the sole authorized distributor of salmon and halibut taken incidentally in the groundfish trawl fisheries off Alaska. SeaShare's current salmon and halibut PSD permits became effective June 14, 2017, and authorize SeaShare to participate in the PSD program through June 15, 2020 (82 FR 27238, June 14, 2017).

On April 23, 2020, the Regional Administrator received an application from SeaShare to renew its salmon and halibut PSD permits. The Regional Administrator reviewed the application and determined that it is complete and that SeaShare continues to meet the requirements for an authorized distributor under the PSD program. As required by § 679.26(b)(2), the Regional

Administrator based his selection on the following criteria:

1. *The number and qualifications of applicants for PSD permits.* SeaShare is the only applicant for PSD permits at this time. NMFS has previously approved applications submitted by SeaShare. As of the date of this notice, no other applications have been approved by NMFS. SeaShare has been coordinating the distribution of salmon taken incidentally in trawl fisheries since 1993, and of halibut taken incidentally in trawl fisheries since 1998, under exempted fishing permits from 1993 to 1998 and under the PSD program since 1998. SeaShare employs independent seafood quality control experts to ensure product quality is maintained by cold storage facilities and common carriers servicing the areas where salmon and halibut donations would take place.

2. *The number of harvesters and the quantity of fish that applicants can effectively administer.* Current participants in the PSD program administered by SeaShare include 12 shoreside processors and 136 catcher vessels delivering to shoreside processors, 34 catcher/processors, and 3 motherships. Two reprocessing plants that generate steaked salmon and halibut participate in the PSD program. SeaShare has the capacity to receive and distribute salmon and halibut from up to 60 processors and the associated catcher vessels. Therefore, it is anticipated that SeaShare has more than adequate capacity for any foreseeable expansion of donations.

Table 1 shows the total pounds of headed-and-gutted and steaked salmon and halibut donated to food bank organizations from 2017 through 2019. NMFS does not have information to convert accurately the net weights of salmon and halibut to numbers of salmon and numbers of halibut.

TABLE 1—HEADED-AND-GUTTED (H&G) AND STEAKED SALMON AND HALIBUT DONATED TO FOOD BANK ORGANIZATIONS [Pounds]

	2017	2018	2019	Total
Salmon H&G .....	759	3,465	3,293	7,517
Salmon steaked .....	323,700	351,620	368,850	1,044,170
Halibut H&G .....	15,676	17,750	35,895	69,321
Halibut steaked .....	23,361	24,200	15,213	62,774
Total Inventory .....	363,496	397,035	423,251	1,183,782

3. *The anticipated level of salmon and halibut incidental catch based on salmon and halibut incidental catch*

*from previous years.* The incidental catch of salmon and incidental catch mortality of halibut in the GOA and

BSAI trawl fisheries are shown in Table 2.

TABLE 2—INCIDENTAL CATCH OF SALMON AND INCIDENTAL CATCH MORTALITY OF HALIBUT IN THE GOA AND BSAI TRAWL FISHERIES

[In number of fish or metric tons]

Area fishery	2017	2018	2019
BSAI Trawl Chinook Salmon Incidental Catch <sup>1</sup> .....	36,277 fish .....	17,394 fish .....	31,322 fish.
BSAI Trawl Other Salmon Incidental Catch <sup>2</sup> .....	471,447 fish ...	309,045 fish ...	358,804 fish.
GOA Trawl Chinook Salmon Incidental Catch <sup>3</sup> .....	24,801 fish .....	17,104 fish .....	23,893 fish.
GOA Trawl Other Salmon Incidental Catch <sup>4</sup> .....	5,634 fish .....	8,989 fish .....	6,407 fish.
BSAI Trawl Halibut Mortality <sup>5</sup> .....	1,635 mt .....	1,799 mt .....	2,079 mt.
GOA Trawl Halibut Mortality <sup>6</sup> .....	1,216 mt .....	1,163 mt .....	1,102 mt.

<sup>1</sup> [https://www.fisheries.noaa.gov/sites/default/files/akro/chinook\\_salmon\\_mortality2020.html](https://www.fisheries.noaa.gov/sites/default/files/akro/chinook_salmon_mortality2020.html) accessed on 04/26/20.<sup>2</sup> [https://www.fisheries.noaa.gov/sites/default/files/akro/chum\\_salmon\\_mortality2020.html](https://www.fisheries.noaa.gov/sites/default/files/akro/chum_salmon_mortality2020.html) accessed on 04/26/20.<sup>3</sup> [https://www.fisheries.noaa.gov/sites/default/files/akro/chum\\_salmon\\_mortality2020.html](https://www.fisheries.noaa.gov/sites/default/files/akro/chum_salmon_mortality2020.html) accessed on 4/27/20.<sup>4</sup> [https://www.fisheries.noaa.gov/sites/default/files/akro/chum\\_salmon\\_mortality2020.html](https://www.fisheries.noaa.gov/sites/default/files/akro/chum_salmon_mortality2020.html) accessed on 4/27/20.<sup>5</sup> <https://www.fisheries.noaa.gov/alaska/commercial-fishing/fisheries-catch-and-landings-reports#bsai-prohibited-species> accessed on 4/27/20.<sup>6</sup> <https://www.fisheries.noaa.gov/alaska/commercial-fishing/fisheries-catch-and-landings-reports#goa-prohibited-species> accessed on 4/27/20.

Halibut incidental catch amounts are constrained by an annual prohibited species catch (PSC) limits in the BSAI and GOA. Future halibut incidental catch levels likely will be similar to those experienced from 2017 through 2019.

Chinook salmon PSC limits are established for the Bering Sea and central and western GOA pollock fisheries that, when attained, result in the closure of pollock fishing. The Chinook salmon PSC limits for the Bering Sea pollock fisheries were originally established by Amendment 91 to the BSAI FMP (75 FR 53026, August 30, 2010) and established for the central and western GOA pollock fisheries by Amendment 93 to the GOA FMP (77 FR 42629, July 20, 2012). In 2016, Amendment 110 to the BSAI FMP was implemented to improve the management of Chinook and chum salmon bycatch in the Bering Sea pollock fishery by creating a comprehensive salmon bycatch avoidance program (81 FR 37534, June 10, 2016). In 2015, Amendment 97 to the GOA FMP established annual Chinook salmon PSC limits for the groundfish trawl fisheries, except for pollock trawl fisheries, in the Western and Central GOA (79 FR 71350, December 2, 2014). While salmon incidental catch amounts tend to vary between years, making it difficult to accurately predict future incidental take amounts, the total, or maximum, amount of annual Chinook salmon incidental catch in the Bering Sea and GOA pollock fisheries is constrained by the PSC limits.

4. *The number of vessels and processors participating in the PSD program.* For the 2020 permit renewal, there will be 12 shoreside processors, and vessels delivering to shoreside processors will decrease slightly from 137 to 136. Catcher/processors participating in the PSD program for

salmon will decrease slightly from 35 to 34 under the 2020 permit renewal.

Catcher vessels delivering to motherships will remain at 15 vessels.

NMFS issues PSD permits to SeaShare for a 3-year period unless the permits are suspended or revoked under § 679.26. The permits may not be transferred; however, they may be renewed following the application procedures in § 679.26.

If the authorized distributor modifies the list of participants in the PSD program or delivery locations, the authorized distributor must submit a modified list of participants or a modified list of delivery locations to the Regional Administrator.

These permits may be suspended, modified, or revoked under 15 CFR part 904 for violation of § 679.26 or other regulations in 50 CFR part 679.

#### Classification

This action is taken under § 679.26.
