

the affected area could also take advantage of the air traffic services previously listed.

Prior to this NPRM, the FAA published a rule for Docket No. FAA–2020–0008 in the **Federal Register** (85 FR 26601; May 5, 2020), amending VOR Federal airway V–178 by removing the airway segment between the Cunningham, KY, VOR/DME and the New Hope, KY, VOR/DME. The airway amendment, effective July 16, 2020, is included in this NPRM. Additionally, the FAA published a second rule prior to this NPRM for Docket No. FAA–2020–0002 in the **Federal Register** (85 FR 28852, May 14, 2020), further amending V–178 by removing the airway segment between the Farmington, MO, VOR/Tactical Air Navigation (VORTAC) and the Cunningham, KY, VOR/DME. This airway amendment, effective July 16, 2020, is also included in this NPRM.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 to amend VOR Federal airways V–5 and V–178, and remove V–513. This proposal would also correct the state location for the Choo Choo VORTAC to read Tennessee (TN). The planned decommissioning of the VOR portion of the New Hope, KY, VOR/DME has made this action necessary. The proposed VOR Federal airway actions are described below.

V–5: V–5 currently extends between the Pecan, GA, VOR/DME and the Appleton, OH, VORTAC. The FAA proposes to remove the airway segment between the Bowling Green, KY, VORTAC and the Louisville, KY, VORTAC. Additional changes to other portions of the airway have been proposed in a separate NPRM for Docket No. FAA–2020–0188 that published in the **Federal Register** (85 FR16585, March 24, 2020). The unaffected portions of the existing airway would remain as charted.

V–178: V–178 currently extends between the Hallsville, MO, VORTAC and the Farmington, MO, VORTAC; and between the New Hope, KY, VOR/DME and the Bluefield, WV, VOR/DME. The FAA proposes to remove the airway segment between the New Hope, KY, VOR/DME and the Lexington, KY, VOR/DME. The unaffected portions of the existing airway remain as charted.

V–513: V–513 currently extends between the Livingston, TN, VOR/DME and the Louisville, KY, VORTAC. The FAA proposes to remove the airway in its entirety.

All radials contained in the VOR Federal airway descriptions below are unchanged and stated in True degrees.

VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.11D dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airways listed in this document would be subsequently published in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

RIN 2120–AA66

Proposed Amendment of Class E Airspace; Guntersville, AL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class E airspace extending upward from 700 feet above the surface at Guntersville Municipal Airport-Joe Starnes Field (formerly Guntersville Municipal Airport), Guntersville, AL, to accommodate new Area Navigation (RNAV) Global Positioning System (GPS) standard instrument approach procedures serving this airport. This action would also update the geographic coordinates of the airport. Controlled airspace is necessary for the safety and

management of instrument flight rules (IFR) operations in the area.

DATES: Comments must be received on or before July 20, 2020.

ADDRESSES: Send comments on this proposal to: The U.S. Department of Transportation, Docket Operations, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12-140, Washington, DC 20590-0001; Telephone: (800) 647-5527, or (202) 366-9826. SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class E airspace at Guntersville Municipal Airport-Joe Starnes Field, Guntersville, AL, to support IFR operations in the area.

Comments Invited

Interested persons are invited to comment on this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (Docket No. FAA-2020-0491 and Airspace Docket No. 20-ASO-16) and be submitted in triplicate to DOT Docket Operations (see **ADDRESSES** section for the address and phone number). You may also submit comments through the internet at <https://www.regulations.gov>.

Persons wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed stamped postcard on which the following statement is made: "Comments to FAA Docket No. FAA-2020-0491; Airspace Docket No. 20-ASO-16." The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this document may be changed in light of the comments received. All comments submitted will be available for examination in the public docket both before and after the comment closing date. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at https://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined between 8:00 a.m. and 4:30 p.m., Monday through Friday, except federal holidays,

at the office of the Eastern Service Center, Federal Aviation Administration, Room 350, 1701 Columbia Avenue, College Park, GA 30337.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019. FAA Order 7400.11D is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11D lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA proposes an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 to amend Class E airspace extending upward from 700 feet above the surface at Guntersville Municipal Airport-Joe Starnes Field, Guntersville, AL, from a 6.3-mile radius to a 7-mile radius. In addition, the FAA proposes to update the airport's name and geographic coordinates to coincide with the FAA's aeronautical database.

Class E airspace designations are published in Paragraph 6005, of FAA Order 7400.11D, dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

Modernizing Recordation of Notices of Termination

AGENCY: U.S. Copyright Office, Library of Congress.

ACTION: Notice of Proposed Rulemaking; Notification of Inquiry.

SUMMARY: The United States Copyright Office is proposing to amend certain regulations governing the recordation of notices of termination. Along with a parallel rulemaking focused on modernizing document recordation in conjunction with development of the Office’s online recordation system, the proposed amendments are intended to improve efficiency in the processing of such notices and to provide additional guidance to the public in this area. In addition, the Office is providing notice of changes to its examination practices for certain notices of termination that pertain to multiple grants, and soliciting public comment on two additional subjects of inquiry relating to notices of termination.

DATES: Written comments must be received no later than 11:59 p.m. Eastern Time on July 6, 2020.

ADDRESSES: For reasons of government efficiency, the Copyright Office is using the *regulations.gov* system for the submission and posting of public comments in this proceeding. All comments are therefore to be submitted electronically through *regulations.gov*. Specific instructions for submitting comments are available on the Copyright Office website at <https://www.copyright.gov/rulemaking/recordation-modernization>. If electronic submission of comments is not feasible due to lack of access to a computer and/or the internet, please contact the Office using the contact information below for special instructions.

SUPPLEMENTARY INFORMATION:

I. Background

In 2017, the Office initiated a rulemaking to modernize its overall

recordation process by updating regulations governing the submission of documents to the Office for recordation.¹ This regulatory update was initiated in anticipation of launching a fully electronic, online recordation system in the future. That system is currently under development, and a limited public pilot was launched in April 2020.

The Office is issuing this separate notice of proposed rulemaking (“NPRM”) to seek public comment on proposed updates to its regulations governing recordation of notices of termination.² Implementing these proposed amendments will update the regulatory framework for notices of termination before features permitting electronic submission of notices are developed for the online recordation system. In addition, this NPRM clarifies Office examination practices relating to notices of termination that contain multiple grants. Finally, the Office invites public comment on two subjects of inquiry: (1) Whether the Office should develop an optional form or template to assist remitters in creating and serving notices of termination; and (2) whether the Office should consider regulatory updates to address concerns about third-party agents failing to properly serve and file notices on behalf of authors.³

A. Current Rules and Practices for Recording Notices of Termination

In enacting the Copyright Act of 1976, Congress created a process for authors to reclaim previously-granted rights in their works by terminating grants after a period of years has elapsed. To do so, authors, or their heirs or duly authorized agents, must serve a notice of
