EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Sustainable Management of Food (SMF) is a systematic approach that seeks to reduce wasted food and its associated impacts over the entire lifecycle of food. The lifecycle of food includes use of natural resources, manufacturing, sales, and consumption and ends with decisions on recovery or final disposal. Diversion of food waste from landfills is a critical component of this effort. To effectively divert food waste from landfills, sufficient capacity to process the diverted materials is required, much of which is provided by anaerobic digestion facilities. Knowledge of organics recycling

capacity is needed to facilitate food waste diversion.

EPA's food recovery hierarchy prioritizes potential actions to prevent and divert wasted food. According to the hierarchy, processing wasted food via anaerobic digestion is a more desirable option than landfilling or incineration because it creates more benefits for the environment, society, and the economy. Anaerobic digestion of food waste and other organic materials generates renewable energy, reduces methane emissions to the atmosphere, and provides opportunities to improve soil health through the production of soil amendments. The SMF work supports these efforts by educating state and local governments and communities about the benefits of wasted food diversion. The SMF work also builds partnerships with state agencies and other strategic partners interested in developing organics recycling capacity and provides tools to assist organizations in developing anaerobic digestion (AD) projects.

The nationwide collection of data about AD facilities processing food waste began in 2017 with a survey of all known AD facilities under the currently approved ICR. EPA published the first annual report of findings based on these data in July 2018, and second in September 2019. EPA is renewing this ICR in order to continue to monitor growth and evaluate trends in the capacity for processing of food waste and the amount of food waste being processed via AD in the United States.

Data will be collected using electronic surveys that will be distributed to respondents by email and will be available on EPA's AD website. Participation in this data collection effort is voluntary. Respondents are not required to reveal confidential business information.

Form Numbers: EPA Form 6700-03, EPA Form 6700-04, EPA Form 6700-05.

Respondents/affected entities: Project Developers, Project Owners or Plant Operators, and Livestock Farmers.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 254 (total).

Frequency of response: Annually.

Total estimated burden: 127 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$7,615 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: The overall burden has slightly decreased from the original ICR. For this renewal, some questions have been revised for clarity and some have been streamlined. There

is no change in hours from the total estimated respondent burden compared with the ICR currently approved by OMB.

Dated: May 29, 2020.

FEDERAL COMMUNICATIONS COMMISSION

[FRS 16805]

Privacy Act of 1974; Matching Program

AGENCY: Federal Communications Commission.

ACTION: Notice of establishment of a Matching Program.

SUMMARY: In accordance with the Privacy Act of 1974, as amended (“Privacy Act”), this document announces the establishment of a computer matching program the Federal Communications Commission (“FCC” or “Commission” or “Agency”) and the Universal Service Administrative Company (USAC) will conduct with the State of Wisconsin’s Department of Health Services (DHS) and Department of Revenue (DOR) (“Agencies”). The purpose of this matching program is to verify the eligibility of applicants to and subscribers of the Universal Service Fund (USF) Lifeline program, which is administered by USAC under the direction of the FCC. More information about this program is provided in the **SUPPLEMENTARY INFORMATION** section below.

DATES: Written comments are due on or before July 6, 2020. This computer matching program will commence on July 6, 2020, unless written comments are received that require a contrary determination, and will conclude on January 5, 2022.

ADDRESSES: Send comments to Mr. Leslie F. Smith, Privacy Manager, Information Technology (IT), FCC, Washington, DC 20554, or to Leslie.Smith@fcc.gov or Privacy@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Leslie F. Smith, (202) 418–0217, or Leslie.Smith@fcc.gov or Privacy@fcc.gov.

¹ Session Closed-Exempt pursuant to 5 U.S.C. Section 552b(c)(8) and (9).

SUPPLEMENTARY INFORMATION: The Lifeline program provides support for discounted broadband and voice services to low-income consumers. Lifeline is administered by the Universal Service Administrative Company (USAC) under FCC direction. Consumers qualify for Lifeline through proof of income or participation in a qualifying program, such as Medicaid, the Supplemental Nutritional Assistance Program (SNAP), Federal Public Housing Assistance, Supplemental Security Income (SSI), Veterans and Survivors Pension Benefit, and/or various Tribal-specific federal assistance programs. In a Report and Order adopted on March 31, 2016, the Commission ordered USAC to create a National Lifeline Eligibility Verifier (“National Verifier”), including the National Lifeline Eligibility Database (LED), that would match data about Lifeline applicants and subscribers with other data sources to verify the eligibility of an applicant or subscriber. The Commission found that the National Verifier would reduce compliance costs for Lifeline service providers, improve service for Lifeline subscribers, and reduce waste, fraud, and abuse in the program. The purpose of this particular program is to verify Lifeline eligibility by establishing that applicants or subscribers in Wisconsin are enrolled in the SNAP, SSI, or Medicaid programs, and/or through Income Verification data.

Participating Non-Federal Agencies

Wisconsin Department of Health Services (DHS) and Wisconsin Department of Revenue (DOR).

Purpose(s)

In the 2016 Lifeline Modernization Order, the FCC required USAC to develop and operate a National Lifeline Eligibility Verifier (National Verifier) to improve efficiency and reduce waste, fraud, and abuse in the Lifeline program.
