

MSHA Form 2000–7. Therefore, allowing mine operators to submit MSHA Form 7000–51 electronically facilitates this process.

Notification of Commencement of Operations and Closing of Mines. Under 30 CFR 56.1000 and 57.1000, operators of metal and nonmetal mines must notify MSHA when the operation of a mine will commence or when a mine is closed. Openings and closings of mines are dictated by the economic strength of the mined commodity, and by weather conditions prevailing at the mine site during various seasons.

MSHA must be made aware of mine openings and closings so that its resources can be used efficiently in achieving the requirements of the Mine Act. Section 103(a) of the Mine Act requires that each underground mine be inspected in its entirety at least four times a year, and each surface mine at least two times per year. Mines that operate only during warmer weather must be scheduled for inspection during the spring, summer, and autumn seasons. Mines are sometimes located a great distance from MSHA field offices and the notification required by this standard can prevent wasted time and trips.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to representative of miners, notification of mine operator's legal identity, and notification of commencement of operations and closing of mines. MSHA is particularly interested in comments that:

- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full

comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

Affected public: Business or other for-profit.

Estimated number of respondents: 5.

Estimated time per response: 3 hours.

Estimated total annual burden hours: 15 hours.

Abstract: The information collection is prescribed by 36 CFR 1254.86. Respondents are organizations that want to make paper-to-paper copies of archival holdings with their personal copiers. Collections 2 and 3

The following two information collections relate to requests for documents or information from former military personnel and medical records, military personnel and family medical records, or personnel and medical records of former Federal civilian employees. Both of these information collections are prescribed by 36 CFR 1228.164. In accordance with rules issued by the Office of Personnel Management, NARA's National Personnel Records Center (NPRC) administers Official Personnel Folders (OPF) and Employee Medical Folders (EMF) of former Federal civilian employees. In addition, in accordance with rules issued by the Department of Defense and the Department of Transportation (U.S. Coast Guard), NPRC also administers military personnel and medical records of veterans after discharge, retirement, and death, as well as the medical records of current members of the Armed Forces and dependents of Armed Forces personnel. When veterans, dependents, and other authorized individuals request information from or copies of documents in military personnel, military medical, and dependent medical records, they must provide on

forms or in letters certain information about the veteran and the nature of the request.

2. *Title:* Court Order Requirements.

OMB number: 3095–0038.

Agency form number: NA Form 13027.

Abstract: We use the NA Form 13027, Court Order Requirements, to advise requesters of (1) the correct procedures to follow when requesting certified copies of records for use in civil litigation or criminal actions in courts of law, and (2) the information they need to provide so we may identify the correct records.

3. *Title:* Authorization for Release of Military Medical Patient Records; Request for Information Needed to Locate Medical Records; Request for Information Needed to Reconstruct Medical Data; Questionnaire about Military Service; and Check the Status of a Clinical & Medical Treatment Records Request.

OMB number: 3095–0039.

Estimated total annual burden hours: 6,650 hours.

Abstract: A major fire at the NPRC on July 12, 1973, destroyed numerous military records. If individuals' requests involve records or information from records that may have been lost in the fire, we may ask requestors to complete NA Form 13075, Questionnaire about Military Service, or NA Form 13055, Request for Information Needed to Reconstruct Medical Data, so that NPRC staff can search alternative sources to reconstruct the requested information. Requesters who ask for medical records

of dependents of service personnel and hospitalization records of military personnel must complete NA Form 13042, Request for Information Needed to Locate Medical Records, so that NPRC staff can locate the desired records. Certain types of information contained in military personnel and medical records are restricted from disclosure unless the veteran provides a more specific release authorization than is normally required. Veterans must complete NA Form 13036, Authorization for Release of Military Medical Patient Records, to authorize release to a third party of a restricted type of information found in the desired record. For those who have already made a request, and want to check the status, they can use NA Form 13177, Check the Status of a Clinical & Medical Treatment Records Request.
