NUCLEAR REGULATORY COMMISSION

[Docket No. 52–049; NRC–2020–0088]

Oklo Power LLC

AGENCY: Nuclear Regulatory Commission.

ACTION: Combined license application; acceptance for docketing.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) staff accepts and docketed an application for a combined license (COL) submitted by Oklo Power LLC (Oklo), a subsidiary of Oklo, Inc. dated March 11, 2020. The reactor is to be identified as the Aurora. The Docket Number established for this application is 52–049.

DATES: This action became effective on June 5, 2020.

ADDRESSES: Please refer to Docket ID NRC–2020–0088 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2020–0088. SUPPLEMENTARY INFORMATION:

I. Discussion

On March 11, 2020, Oklo filed with the NRC pursuant to Section 103 of the Atomic Energy Act and part 52 of title 10 of the *Code of Federal Regulations* (10 CFR), “Licenses, Certifications, and Approvals for Nuclear Power Plants,” an application for a combined license for one micro-reactor at the Idaho National Laboratory located in Idaho. The reactor is to be identified as the Aurora.

A notice of receipt and availability of this application was previously published in the **Federal Register** on April 3, 2020 (85 FR 19032).

The NRC staff has determined that Oklo has submitted information in accordance with 10 CFR part 2, “Agency Rules of Practice and Procedure,” and 10 CFR part 52 that is acceptable for docketing. The Docket Number established for this application is 52–049.

The NRC staff will perform a detailed technical review of the application. Docketing of the application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny the application. The Commission will conduct a hearing in accordance with subpart L, “Informal Hearing Procedures for NRC Adjudications,” of 10 CFR part 2 and will receive a report on the COL application from the Advisory Committee on Reactors Safeguards in accordance with 10 CFR 52.87, “Referral to the Advisory Committee on Reactors Safeguards (ACRS).” If the Commission finds that the COL application meets the applicable standards of the Atomic Energy Act and the Commission’s regulations, and that required notifications to other agencies and bodies have been made, the Commission will issue a COL, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

Finally, the Commission will announce in a future **Federal Register** notice of hearing and opportunity to petition for leave to intervene as required by 10 CFR 52.85.

Dated: June 10, 2020.

For the Nuclear Regulatory Commission.

Jan M. Mazza,

Project Manager, Advanced Reactors Licensing Branch, Division of Advanced Reactors and Non-Power Production and Utilization Facilities, Office of Nuclear Reactor Regulation.

B. Submitting Comments

Please include Docket ID NRC-2020-0139 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit

comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

I. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request renewal of OMB's existing approval for the information collection summarized below. This renewal occurs every three years, as specified under the Paperwork Reduction Act.

1. *The title of the information collection:* 10 CFR part 63, "Radioactive Wastes in a Geologic Repository at Yucca Mountain, Nevada."

2. *OMB approval number:* 3150-0199.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* One time.

6. *Who will be required or asked to respond:* The State of Nevada, local governments, or affected Indian Tribes, or their representatives, requesting consultation with the NRC staff regarding review of the potential high-level waste geologic repository site, or wishing to participate in a license application review for the potential geologic repository.

7. *The estimated number of annual responses:* 12.

8. *The estimated number of annual respondents:* 12.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 1,452.

10. *Abstract:* Part 63 of title 10 of the *Code of Federal Regulations* (10 CFR), requires the State of Nevada, local governments, or affected Indian Tribes to submit information to the NRC that describes their request for any consultation with the NRC staff concerning review of the potential repository site, or NRC's facilitation for their participation in a license application review for the potential repository. Representatives of the State of Nevada, local governments, or affected Indian Tribes must submit a statement of their authority to act in

such a representative capacity. The information submitted by the State of Nevada, local governments, or affected Indian Tribes is used by the Director of the Office of Nuclear Material Safety and Safeguards as a basis for decisions about the commitment of the NRC staff resources to the consultation and participation efforts.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: June 11, 2020.

For the Nuclear Regulatory Commission.

David C. Cullison,
NRC Clearance Officer, Office of the Chief Information Officer.
