

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

**FOR FURTHER INFORMATION CONTACT:** Crystal Rennie by telephone at (202) 693-0456 (this is not a toll-free number) or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

**SUPPLEMENTARY INFORMATION:** The OWCP, Division of Coal Mine Workers’ Compensation (DCMWC) administers the Black Lung Benefits Act (30 U.S.C. 901), which provides benefits to coal miners totally disabled due to pneumoconiosis and their surviving dependents. When the DCMWC makes a preliminary analysis of a claimant’s eligibility for benefits, and if a coal mine operator has been identified as potentially liable for payment of those benefits, the responsible operator is notified of the preliminary analysis. Regulations codified at 20 CFR part 725 require that a coal mine operator be identified and notified of potential liability as early in the adjudication process as possible. Coal Mine Operator Response to Schedule for Submission of Additional Evidence (Form CM-2970) and Operator Response to Notice of Claim (Form CM-2970a) are used for claims filed after January 19, 2001, and indicate that the coal mine operator will submit additional evidence or respond to the notice of claim. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on March 12, 2020 (85 FR 14507).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection

of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

*Agency:* DOL-OWCP.

*Title of Collection:* Coal Mine Operator Response to Schedule for Submission of Additional Evidence and Operator Response to Notice of Claim.

*OMB Control Number:* 1240-0033.

*Affected Public:* Private Sector—businesses or other for-profits.

*Total Estimated Number of Respondents:* 4,900.

*Total Estimated Number of Responses:* 9,800.

*Total Estimated Annual Time Burden:* 2,042 hours.

*Total Estimated Annual Other Costs Burden:* \$2,842.

*Authority:* 44 U.S.C. 3507(a)(1)(D).

## DEPARTMENT OF LABOR

### Office of the Secretary

#### Agency Information Collection Activities; Submission for OMB Review; Comment Request; Job Corps Placement and Assistant Record

**ACTION:** Notice of availability; request for comments.

**SUMMARY:** The Department of Labor (DOL) is submitting this Employment and Training Administration (ETA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

**DATES:** The OMB will consider all written comments that agency receives on or before July 16, 2020.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

**FOR FURTHER INFORMATION CONTACT:** Crystal Rennie by telephone at (202) 693-0456 (this is not a toll-free number) or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

**SUPPLEMENTARY INFORMATION:** Form ETA 678 is used to obtain information about student training for placement of students in jobs, further education or military service. It is used to evaluate overall program effectiveness and is the only form which documents a student’s post-center status. The form is prepared by Job Corps centers and placement specialists for each student separating from Job Corps centers. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on January 2, 2020 (85 FR 132).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that

information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL-ETA.

Title of Collection: Job Corps

Placement and Assistance Record.

OMB Control Number: 1205-0035.

Affected Public: Individuals or Households.

Total Estimated Number of Respondents: 34,000.

Total Estimated Number of Responses: 34,000.

Total Estimated Annual Time Burden: 4,210 hours.

Total Estimated Annual Other Costs Burden: \$0.

Authority: 44 U.S.C. 3507(a)(1)(D).

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

#### Petition for Modification of Application of Existing Mandatory Safety Standards

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice.

SUMMARY: This notice is a summary of a petition for modification submitted to the Mine Safety and Health Administration (MSHA) by the party listed below.

DATES: All comments on the petition must be received by MSHA's Office of Standards, Regulations, and Variances on or before July 16, 2020.

ADDRESSES: You may submit your comments, identified by "docket number" on the subject line, by any of the following methods:

1. *Electronic Mail:* [zzMSHA-comments@dol.gov](mailto:zzMSHA-comments@dol.gov). Include the docket number of the petition in the subject line of the message.

2. *Facsimile:* 202-693-9441.

3. *Regular Mail or Hand Delivery:* MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, Virginia 22202-5452, Attention: Roslyn B. Fontaine, Acting Director, Office of Standards, Regulations, and Variances. Persons delivering documents are required to check in at the receptionist's desk in Suite 4E401. Individuals may inspect copies of the petition and comments during normal business hours at the address listed above.

MSHA will consider only comments postmarked by the U.S. Postal Service or proof of delivery from another delivery service such as UPS or Federal Express on or before the deadline for comments.

#### FOR FURTHER INFORMATION CONTACT:

Aromie Noe, Office of Standards, Regulations, and Variances at 202-693-9557 (voice), [Noe.Song-Ae.A@dol.gov](mailto:Noe.Song-Ae.A@dol.gov) (email), or 202-693-9441 (facsimile). [These are not toll-free numbers.]

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations Part 44 govern the application, processing, and disposition of petitions for modification.

#### I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements for filing petitions for modification.

#### II. Petition for Modification

Docket Number: M-2020-007-C.

Petitioner: Rockwell Mining, LLC, 300 Kanawha Boulevard, East (ZIP 25301), P.O. Box 273, Charleston, West Virginia 25321-0273.

Mine: Matewan Tunnel, MSHA I.D. No. 46-08610, located in Boone County, West Virginia.

Regulation Affected: 30 CFR 75.1108(c) (Approved conveyor belts).

Modification Request: The petitioner requests a modification of the Part 14 belt standard for Matewan Tunnel because of the unique layout of the mine as well as additional safety measures that will be put in place for its overland coal belt. These measures will make the conveyor belt in the Matewan Tunnel at least as safe as compliance with Part 14.

The petitioner states that:

(1) The Matewan Tunnel is a straight, three-entry tunnel mine developed in 1998. The mine has been non-producing since 1998. At the time of development, the sole purpose of the project was to provide an excavation to install a

conveyor system to transport raw coal. The seam is 33 inches thick, requiring 48 inches of outseam excavation to facilitate the conveyor system. The Matewan Tunnel does not liberate any methane.

(2) The Matewan Tunnel consists of three entries developed on a straight course 10,500 feet from outcrop to outcrop. The roof in the belt entry (center entry) is supported by 6-foot fully grouted bolts with T5 steel channels in every row. Steel straps and four-foot conventional bolts support the ribs. The final conveyor structure is offset in the entry to provide complete access along its entire length. Thus, the ventilation system will not likely be compromised by roof or rib integrity measures.

(3) The 42-inch conveyor is 12,445 feet long and is powered by two separate drive installations located on the surface at each end of the underground excavation (500 HP at Rocklick and 1,000 HP at Harris). The conveyor is uniquely designed to turn over on each end to maintain the material handling surface in an upward facing position. Both the top and bottom structure are troughed 35 degrees to provide simultaneous transportation capacity on the top and return portions of the belt. The conveyor uses special belt with steel cable carcass related at 1,900 pounds per inch of belt width. Traveling 680 feet per minute (FPM), the belt system has a carrying capacity of 1,000 tons per hour (TPH) on each belt (top and bottom totaling 2,000 TPH).

(4) The Matewan Tunnel currently only transports a fraction of its design capacity. The Matewan Tunnel transports only raw coal from two continuous miner sections in the Black Oak Mine with an estimated daily volume of 4,000 raw tons to Rocklick. The return belt capacity is not utilized at the mine.

—The portal at the Preparation Plant side of the Matewan Tunnel is known as the Rocklick Portal. The portal at the other end is known as the Harris Portal. The Matewan Tunnel is ventilated from the Rocklick Portal with a 5.5 foot blowing fan with a 1,200 revolutions per minute speed, set to Blade Setting No. 5, producing 95,000 cubic feet per minute of airflow.

—At the Rocklick Portal, fresh air enters in the No. 1 entry and travels to the No. 11 crosscut and splits. A small portion of the air goes to entry Nos. 2 and 3 from crosscut No. 11 back to the surface at the Rocklick Portal. The remaining air flows to the Harris
