

Department of Agriculture (USDA) the responsibility of establishing and overseeing agricultural commodity research and promotion orders, which may include a combination of promotion, research, industry information, and consumer information activities funded by mandatory assessments.

The program includes projects relating to research, information, advertising, sales promotion, market development and production research to assist, improve, or promote the marketing, distribution, competitive position and stimulate sales of Christmas trees.

Need and Use of the Information: The Christmas tree program will be administered by the Christmas Tree Promotion Board appointed by the Secretary of Agriculture and financed by a mandatory assessment on producers and importers of fresh cut Christmas trees. The program will provide for an exemption for producers and importers that cut and sell or import fewer than 500 Christmas trees annually. The forms covered under this collection require the minimum information necessary to effectively carry out the requirements of the program, and their use is essential to carry out the intent of the Order. If the information collection herein were not collected, the Board could not carry out the coordinated research, promotion, consumer education, and industry information program on Christmas trees, ensure compliance with the mandatory program or ensure proper assessment collection. Collecting data less frequently also would limit the Secretary's ability to oversee the Order.

Description of Respondents: Producers and Importers.

Number of Respondents: 7,500.

Frequency of Responses: Reporting: Annually; Recordkeeping.

Agricultural Marketing Service

Title: Information Collection for the Domestic Hemp Production Program.
OMB Control Number: 0581-0318.

Summary of Collection: The Agricultural Improvement Act of 2018 (2018 Farm Bill) amended the Agricultural Marketing Agreement of 1946 and was signed into law December 20, 2018, as Public Law 115-334. Sec. 10113 of the 2018 Farm Bill amended the Agricultural Marketing Act of 1946 (7 U.S.C. 1621 *et seq.*) by adding Subtitle G—Hemp Production. The law required U.S. Department of Agriculture (USDA) to promulgate regulations and guidelines to develop and oversee a program for the production of hemp in the United States. The 2018 Farm Bill

directs that this will include state and tribal plans, and a USDA plan for those States, including territories of Indian tribes, that choose not to submit their own plan. The proposed information collection and reporting requirements will facilitate the effective administration and oversight of the Domestic Hemp Production Program.

Need and Use of the Information: This Program requires licensed producers and approved State and Tribal governments to maintain information on the land where hemp is produced, hemp testing results for delta-9 tetrahydrocannabinol, and disposal of plants not meeting necessary requirements. Additionally, all licensed producers must report hemp crop acreage to the USDA Farm Service Agency (FSA). The information on all reports must be kept for a minimum of three years. This new information collection created seven new reporting forms and one already existing form. The information reported for data collected under State and Tribal plans incorporates the burden to producers licensed under State and Tribal plans associated with providing the required information.

The State and Tribal Hemp Producer Report, State and Tribal Hemp Disposal Report and the State and Tribal Hemp Annual Report forms will require States and Tribes to provide USDA with contact information, a legal description of land, the disposal information for any non-compliant hemp and harvest information for each producer.

Producers under the USDA program complete the USDA Hemp Plan Producer License Application, the USDA Hemp Plan Producer Disposal Form, and the USDA Hemp Plan Producer Annual Report. Every producer under a State, Tribal or the USDA program completes the Report of Acreage. Laboratory personnel complete the Laboratory Test Results Report.

The Agricultural Marketing Service will use the information from these forms to ensure that each producer and approved State and Tribe is properly complying with the regulations. If the information collection herein was not collected, the Secretary could not adequately administrate the Domestic Hemp Production Program.

Description of Respondents: Hemp producers, States and Tribal governments with approved hemp production plans; Laboratory personnel.

Number of Respondents: 9,100.

Frequency of Responses: Reporting: On occasion; Monthly; Annually.

Total Burden Hours: 17,363.

SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade; promotes coordination of all food standards work undertaken by international governmental and nongovernmental organizations; determines priorities, initiates, and guides the preparation of draft standards; finalizes the standards elaborated and publishes them in a Codex Alimentarius (food code) either as regional or worldwide standards, wherever this is practicable; and amends published standards, as appropriate, in the light of new developments.

Issues To Be Discussed at the Public Meeting

Currently, there is no agenda available for the 43rd Session of the CAC. However, the Codex Secretariat has made available the following documents to be considered, including:

- Amendments to the Procedural Manual
- Final Adoption of Codex Texts
- Adoption of Codex Texts at Step 5
- Revocation of Codex Texts
- Proposals for New Work
- Discontinuation of Work
- Amendments to the Codex Standards and Related Texts

These documents are currently available at: <http://www.fao.org/fao-who-codexalimentarius/meetings/detail/en/?meeting=CAC&session=43>.

Each issue listed will be fully described in documents distributed, or to be distributed, by the Codex Secretariat before the CAC session.

Members of the public may access or request copies of these documents (see **ADDRESSES**).

Public Meeting

At the June 25, 2020, public meeting, draft U.S. positions on the anticipated agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to the U.S. Delegate for the 43rd Session of the CAC (see **ADDRESSES**). Written comments should state that they relate to activities of the 43rd Session of the CAC.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, the U.S. Codex Office will announce this **Federal Register** publication on-line through the USDA web page located at: <http://www.usda.gov/codex/>, a link that also offers an email subscription service providing access to information related to Codex. Customers can add or delete their subscription themselves and have the option to password protect their accounts.
