SUPPLEMENTARY INFORMATION:

In response to Executive Order 13777, Sec. 3(d), which directs agencies to repeal existing regulations that are "outdated, unnecessary or ineffective" from the CFR, HHS proposes to remove the regulations appearing at 42 CFR part 136a. These regulations were promulgated as a final rule in 1987 and were intended to replace the regulations appearing in the CFR at 42 CFR part 136. The new regulations, however, were never implemented and have since been referred to as "suspended" in the **Federal Register**. In the intervening years, the IHS has continued to follow the regulations appearing at 42 CFR part 136, and the IHS does not propose to alter this practice. Instead, the IHS proposes to remove the duplicative regulations at 42 CFR part 136a from the CFR. Given how much time has passed since these regulations were initially promulgated; the concern on the part of Congress regarding implementation of the regulations; and the confusion caused by having two sets of regulations addressing the same issue published in the CFR, the Agency proposes that the suspended regulations at 42 CFR part 136a be deleted in their entirety.
