

independently validated analytical method is used to measure and evaluate the chemical broflanilide and its metabolites S(PFP-OH)-8007 and DM-8007. An independently validated analytical method has been submitted for analyzing residues of parent Broflanilide plus metabolites DM-8007 and DC-DM-8007 in animal matrices by LC-MS/MS. Food handling matrices samples were analyzed for broflanilide residues using a combination of the plant and animal methods with minor modifications. *Contact:* RD.

2. *PP 9F8759*. (EPA-HQ-OPP-2019-0346). Syngenta Crop Protection, LLC. P.O. Box 18300 Greensboro, NC 27419, requests to establish an import tolerance in 40 CFR part 180 for residues of the fungicide mefenoxam metal *N*-(2,6-dimethylphenyl)-*N*-(methoxyacetyl)-*DL*-alaninate in or on the raw agricultural commodities Tree Nut Group 14-12, at 0.3 ppm. The analytical method used was Syngenta Crop Protection Analytical Method "Link K (2016) Metalaxyl—Analytical Method GRM075.01A for the Determination of Residues of Metalaxyl and Structurally Related Metabolites as Common Moiety 2,6-Dimethylaniline (CGA72649) in Crops". Final sample analysis was performed using LC-MS/MS with EAG method modifications dated August 14, 2017 to measure and evaluate the chemical mefenoxam. *Contact:* RD.

3. *PP 9E8773*. (EPA-HQ-OPP-2019-0531). Mitsui Chemicals Agro, Inc. c/o Landis International, Inc., 3185 Madison Highway, P.O. Box 5126, Valdosta, GA 31603, requests to establish a tolerance in 40 CFR part 180 for residues of the fungicide Penthiopyrad, (RS)-*N*-[2-(1,3-dimethylbutyl)-3-thienyl]-1-methyl-3-(trifluoromethyl)-pyrazole-4-carboxamide in or on Persimmon at 3.0 ppm. High Performance Liquid Chromatography-Mass Spectrometer (LC-MS) is used to measure and evaluate the chemical Penthiopyrad. *Contact:* RD.

4. *PP 0E8821*. (EPA-HQ-OPP-2020-0113). Interregional Research Project #4 (IR-4), Rutgers, The State University of New Jersey, 500 College Road East, Suite 201 W, Princeton, NJ 08540, requests to establish tolerances with regional registrations in 40 CFR part 180.633(c) for residues of the herbicide, florasulam, *N*-(2, 6-difluorophenyl)-8-fluoro-5-methoxy (1, 2, 4) triazole (1, 5-c)pyrimidine-2-sulfonamide, including its metabolites and degradates, in or on grass, forage at 0.01 ppm and grass, hay at 0.02 ppm. Compliance with the tolerance levels is to be determined by measuring only florasulam in or on the commodities. The High-Performance Liquid Chromatography with Tandem

Mass Spectrometry is used to measure and evaluate the chemical. *Contact:* RD.

5. *PP 0E8828*. (EPA-HQ-OPP-2020-0235). The Interregional Research Project Number 4 (IR-4), Rutgers, The State University of New Jersey, 500 College Road East, Suite 201 W, Princeton, NJ 08540, requests to establish a tolerance in 40 CFR part 180.511 for residues of buprofezin, 2-[(1,1-dimethylethyl)imino]tetrahydro-3(1-methylethyl)-5-phenyl-4H-1,3,5-thiadiazin-4-one in or on the raw agricultural commodities: Asparagus bean, edible podded at 0.02 ppm; bushberry subgroup 13-07B at 0.08 ppm, catjang bean, edible podded at 0.02 ppm; Chinese longbean, edible podded at 0.02 ppm; cowpea, edible podded at 0.02 ppm; french bean, edible podded at 0.02 ppm; garden bean, edible podded at 0.02 ppm; green bean, edible podded at 0.02 ppm; goa bean, edible podded at 0.02 ppm; guar bean, edible podded at 0.02 ppm; jackbean, edible podded at 0.02 ppm; kidney bean, edible podded at 0.02 ppm; lablab bean, edible podded at 0.02 ppm; navy bean, edible podded at 0.02 ppm; moth bean, edible podded at 0.02 ppm; mung bean, edible podded at 0.02 ppm; rice bean, edible podded at 0.02 ppm; scarlet runner bean, edible podded at 0.02 ppm; snap bean, edible podded at 0.02 ppm; sword bean, edible podded at 0.02 ppm; urd bean, edible podded at 0.02 ppm; vegetable soybean, edible podded at 0.02 ppm; velvet bean, edible podded at 0.02 ppm; wax bean, edible podded; winged pea, edible podded at 0.02 ppm; and yardlong bean, edible podded at 0.02 ppm.

In addition to the proposed tolerances, the IR-4 Project requests that EPA permit the buprofezin label instructions currently stated as "For greenhouse tomatoes and peppers", be revised to "For Fruiting Vegetables (Crop Group 8-10)", thus allowing buprofezin applications to all greenhouse-grown fruiting vegetables.

The enforcement analytical methods are available in PAM I and PAM II for the enforcement of buprofezin tolerances, which include gas chromatography methods with nitrogen phosphorus detection (GC/NPD), and a gas chromatography/mass spectrometry (GC/MS) method for confirmation of buprofezin residues in plant commodities to measure and evaluate buprofezin. *Contact:* RD.

Authority: 21 U.S.C. 346a.

Dated: June 15, 2020.

Delores Barber,

Director, Information Technology and Resources Management Division, Office of Pesticide Programs.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[EPA-HQ-SFUND-1983-0002; FRL-10010-66-Region 5]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Partial Deletion of the Allied Chemical & Ironton Coke Superfund Site

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; notification of intent.

SUMMARY: The Environmental Protection Agency (EPA) Region 5 is issuing a Notice of Intent to Delete soil (land), lagoon, and sediment portions of the Allied Chemical & Ironton Coke Superfund Site (Site) in Ironton, Ohio, from the National Priorities List (NPL) and requests public comments on this proposed action. The NPL, promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Ohio, through the Ohio Environmental Protection Agency (OEPA), have determined that all appropriate response actions identified for these Site media, other than operation and maintenance, monitoring, and five-year reviews, have been completed. However, this deletion does not preclude future actions under Superfund.

DATES: Comments must be received by July 24, 2020.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-SFUND-1983-0002, by one of the following methods:

<https://www.regulations.gov>. Follow the on-line instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is

restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

Email: Deletions@usepa.onmicrosoft.com.

Written comments submitted by mail are temporarily suspended and no hand deliveries will be accepted. We encourage the public to submit comments via email or at <https://www.regulations.gov>.

Instructions: Direct your comments to Docket ID No. EPA-HQ-SFUND-1983-0002. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <https://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <https://www.regulations.gov> or email. The <https://www.regulations.gov> website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through <https://www.regulations.gov>, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the <https://www.regulations.gov>

www.regulations.gov index. Although listed in the index, some information is not publicly available, *e.g.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available electronically at <https://www.regulations.gov> and at <https://www.epa.gov/superfund/allied-chemical-ironton> or you may contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.

The EPA is temporarily suspending its Docket Center and Regional Records Centers for public visitors to reduce the risk of transmitting COVID-19. In addition, many site information repositories are closed and information in these repositories, including the deletion docket, has not been updated with hardcopy or electronic media. For further information and updates on EPA Docket Center services, please visit us online at <https://www.epa.gov/dockets>.

The EPA continues to carefully and continuously monitor information from the Centers for Disease Control and Prevention (CDC), local area health departments, and our Federal partners so that we can respond rapidly as conditions change regarding COVID-19.

FOR FURTHER INFORMATION CONTACT:

Karen Cibulskis, NPL Deletions Coordinator, U.S. Environmental Protection Agency Region 5, at (312) 886-1843 or via email at cibulskis.karen@epa.gov.

SUPPLEMENTARY INFORMATION: This partial deletion pertains to the soil (land) portion of the Goldcamp Disposal Area (Operable Unit 1, or OU1); the soil (land) and lagoon portion of the Coke Plant/Lagoon Area (OU2), except for the OU2 ROD Soils Area 2 located within the bermed area of the East Tank Farm (see Figure 3 in the Docket); and all of the Tar Plant area (OU3), which addresses contaminated soil and sediment at the Tar Plant and in the adjacent Ohio River.

The OU2 ROD Soils Area 2 located within the bermed area of the East Tank Farm contains components of the groundwater treatment system and will not be remediated until after the groundwater cleanup is complete.

Therefore, the OU2 ROD Soils Area 2 is not being considered for deletion as part of this action. The contaminated groundwater at the Site, which is present below all three OUs but is being addressed as part of the OU1 and OU2 cleanup remedies, is undergoing a long-term cleanup and is also not being considered for deletion as part of this

action. The OU2 ROD Soils Area 2 and the groundwater portions of the Allied Chemical Site (*i.e.*, the groundwater portion of OU1 and OU2, which includes the contaminated groundwater below OU3) will remain on the NPL.

In the "Rules and Regulations" section of today's **Federal Register**, we are publishing a direct final Notice of Partial Deletion of the Allied Chemical & Ironton Coke Superfund Site without prior Notice of Intent for Partial Deletion because EPA views this as a noncontroversial revision and anticipates no adverse comment. We have explained our reasons for this deletion in the preamble to the direct final Notice of Partial Deletion, and those reasons are incorporated herein. If we receive no adverse comment(s) on this partial deletion action, we will not take further action on this Notice of Intent for Partial Deletion. If we receive adverse comment(s), we will withdraw the direct final Notice of Partial Deletion, and it will not take effect. We will, as appropriate, address all public comments in a subsequent final Notice of Partial Deletion based on this Notice of Intent for Partial Deletion. We will not institute a second comment period on this Notice of Intent for Partial Deletion. Any parties interested in commenting must do so at this time.

For additional information, see the direct final Notice of Partial Deletion which is located in the "Rules and Regulations" section of this **Federal Register**.
