**USDA Forest Service Issuance of Special Use Authorizations**

The issuance of any special use authorization(s) for this project would likely occur after FERC issues its final EIS. The issuance of a special use authorization is not subject to any additional administrative review process such as the Forest Service’s post-decisional appeal process explained in 36 CFR part 214. This is because applicants do not hold any right to use National Forest System lands prior to being issued an authorization. The Forest Service retains the authority to deny authorizations based on violations of law or inconsistency with the Cleveland National Forest LMP (see generally 36 CFR part 219 Subpart B). The Forest Service cannot authorize a project that is inconsistent with the LMP as this would be a violation of the National Forest Management Act. Issuance of a special use authorization would be subject to the project complying with all applicable legal requirements and ensuring consistency with the Cleveland National Forest LMP.
