A notice requesting that OMB provide emergency clearance of collections of information was published in the **Federal Register** at 84 FR 69362, on December 18, 2019. OMB authorized emergency processing of an information collection involved in this rule under OMB Control Number 0750-0002. This notice was published in conjunction with publication of an interim rule under DFARS Case 2018-D022, Covered Defense Telecommunications Equipment or Services, published on December 31, 2019, at 84 FR 72231.

Needs and Uses: The collection of information is necessary to protect against foreign interference with DoD telecommunications, which could jeopardize our military communications, the lives of our warfighters, and our national security. The collection of information is essential to the mission of the agencies to ensure DoD does not purchase prohibited equipment, systems, and services, and can respond appropriately if any such purchases are not identified until after delivery or use.

This requirement supports implementation of section 1656(b) of the National Defense Authorization Act for Fiscal Year 2018. Section 1656 prohibits DoD from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service to carry out the nuclear deterrence mission and homeland defense mission that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as a part of any system.

This requirement is implemented in the Defense Federal Acquisition Regulation Supplement (DFARS) through the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services—Representation,

the provision at 252.204-7017, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services—Representation, and the clause at 252.204-2018, Prohibition on Acquisition of Covered Defense Telecommunications Equipment or Services.

This clearance covers the following requirements:

- DFARS 252.204-7016 requires the offeror to represent whether it does or does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument.

- DFARS 252.204-7017 requires that if an offeror provides an affirmative representation under the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services—Representation, that offeror is required to represent whether it will or will not provide under the contract, covered defense telecommunications equipment or services.

- DFARS 252.204-7018 requires contractors to report covered telecommunications equipment, systems and services identified during performance of a contract.

OMB Desk Officer: Comments and recommendations on the proposed information collection should be sent to Ms. Susan Minson, DoD Desk Officer, at Oira_submission@omb.eop.gov. Please identify the proposed information collection by DoD Desk Officer and the Docket ID number and title of the information collection.

You may also submit comments, identified by docket number and title, by the following method:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

DoD Clearance Officer: Requests for copies of the information collection proposal should be sent to Ms. Angela James at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Full Text of Announcement

I. Funding Opportunity Description
Purpose of Programs: The purpose of the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities program is to promote academic achievement and to improve results for children with disabilities by providing TA, supporting model demonstration projects, disseminating useful information, and implementing activities that are supported by scientifically based research.

The purpose of the Demonstration and Training program is to provide competitive grants, including cooperative agreements, to, or enter into contracts with, eligible entities to expand and improve the provision of vocational rehabilitation (VR) and other services authorized under the Rehabilitation Act of 1973, as amended by title IV of the Workforce Innovation and Opportunity Act (WIOA) (Rehabilitation Act), or to further the purposes and policies in sections 2(b) and (c) of the Rehabilitation Act by supporting activities that increase the provision, extent, availability, scope, and quality of rehabilitation services under the Rehabilitation Act, including related research and evaluation activities.

Priority: This notice includes one absolute priority. For the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities program, in accordance with 34 CFR 75.105(b)(2)(v), the absolute priority is from allowable activities specified in sections 663 and 681(d) of the Individuals with Disabilities Education Act (IDEA) (20 U.S.C. 1463 and 1481(d)). For the Demonstration and Training program, we are also establishing this priority for the FY 2020 grant competition and any subsequent year in which we make awards from the list of unfunded applications from this competition, in

accordance with section 437(d)(1) of the General Education Provisions Act (GEPA), 20 U.S.C. 1232(d)(1).

Absolute Priority: For FY 2020 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

National Technical Assistance Center on Transition for Students and Youth with Disabilities (Center).

Background:

Students and youth with disabilities must be held to high expectations and have the resources and supports needed to expand their learning opportunities and prepare them for success in postsecondary education or careers. This priority is aligned with the Secretary's Final Supplemental Priorities and Definitions for Discretionary Grant Programs (Supplemental Priorities) published in the **Federal Register** on March 2, 2018 (83 FR 9096) and is designed to foster flexible and affordable paths to obtaining knowledge and skills; foster knowledge and promote the development of skills that prepare students to be informed, thoughtful, and productive individuals and citizens; and meet the unique needs of students and children with disabilities and those with unique gifts and talents. This priority also is designed to prepare students for successful transitions to college and careers by improving access to career, technical, and adult education (CTE) and exploring options, such as dual enrollment, that facilitate transition from secondary school to postsecondary education and workforce job skills development; to prepare students for high-quality science, technology, engineering, and mathematics (STEM) education with a particular focus on computer science;¹ and provide students with equal access to high-quality educational opportunities.

The IDEA and the Elementary and Secondary Education Act of 1965, as amended (ESEA), provide States flexibility with the design of their educational systems and other provisions to support and promote college and career readiness for students, including those with disabilities (English et al., 2016). Under ESEA, States need to ensure students

¹ STEM is also a national priority. For more details, see "Charting A Course For Success: America's Strategy For STEM Education," www.whitehouse.gov/wp-content/uploads/2018/12/STEM-Education-Strategic-Plan-2018.pdf (December 2018).
