

Methodology

Approved panel physicians will be granted access to an eMedical system by the Department to conduct medical examinations for visa eligibility determinations. The pilot program for the eMedical system launched in September 2018. The eMedical system was rolled out in six waves, the first wave of the rollout was in July 2019, and the final wave was in May 2020. Immigrant visa applicants with a completed and submitted DS-260, Application for Immigrant Visa and Alien Registration will have their medical exam results submitted to the Department via the eMedical system. The panel physician will input the exam information into the eMedical portal and it will be transmitted to the Department for visa adjudication and retained in the Department's systems. The information will also be transmitted to the Centers for Disease Control and Prevention's ("CDC") systems.

Forms for this collection are completed by panel physicians for refugees, aliens seeking immigrant visas, and for some aliens seeking nonimmigrant visas to the United States. The collection records medical information necessary to determine whether refugees or visa applicants have medical conditions affecting the applicant's eligibility for a visa, or affecting the public health and requiring treatment.

Methodology

A panel physician, contracted by the consular post, in accordance with instructions issued by the Centers for Disease Control and Prevention ("CDC"), performs the medical examination of the applicant and completes the forms. Upon completing the applicant's medical examination, the examining panel physician submits a report to the consular officer on the DS-2054, Medical Examination for Immigrant or Refugee Applicant, and associated worksheets.
