BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice of Filings

Take notice that the Commission has received the following Natural Gas Pipeline Rate and Refund Report filings:

Docket Number: PR20-68-000.

Applicants: Columbia Gas of Ohio, Inc.

Description: Tariff filing per 284.123(b),(e)/: COH Rates effective May 29 2020 to be effective 5/29/2020.

Filed Date: 6/26/2020.

Accession Number: 202006265134.

Comments/Protests Due: 5 p.m. ET 7/17/2020.

Docket Numbers: RP18-923-000.

Applicants: Enable Mississippi River Transmission, LLC.

Description: Report Filing: MRT Refund and Billing Adjustment Report—RP18-923 & RP20-131.

Filed Date: 6/26/20.

Accession Number: 20200626-5209.

Comments Due: 5 p.m. ET 7/8/20.

Docket Numbers: RP20-968-000.

Applicants: Big Sandy Pipeline, LLC.

Description: § 4(d) Rate Filing: Big Sandy EPC 2020 to be effective 8/1/2020.

Filed Date: 6/26/20.

Accession Number: 20200626-5239.

Comments Due: 5 p.m. ET 7/8/20.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified date(s). Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dates: June 29, 2020.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[Docket ID No. EPA-HQ-OAR-2020-0312;
FRL-10011-92-ORD]

Call for Information on the Integrated Science Assessment for Lead

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; call for information.

SUMMARY: The Environmental Protection Agency (EPA) is preparing an Integrated Science Assessment (ISA) as part of the review of the primary and secondary National Ambient Air Quality Standards (NAAQS) for Lead (Pb). The ISA will be completed by EPA's Office of Research and Development's Center for Public Health and Environmental Assessment (CPHEA). When final, the ISA is intended to update the previous Pb ISA (EPA/600/R-10/075F), published on June 26, 2013. Interested parties are invited to assist EPA in developing and refining the scientific information base for the review of the Pb NAAQS by submitting research studies and data that have been published, accepted for publication, or presented at a public scientific meeting since January 1, 2011.

DATES: All communications and information should be received by EPA by September 8, 2020.

ADDRESSES: Information may be submitted electronically, by mail, by facsimile, or by hand delivery/courier. Please follow the detailed instructions as provided in the section of this notice entitled **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: For information on the period of submission, contact the OAR Docket at the EPA Headquarters Docket Center; phone: 202-566-1742; fax: 202-566-9744; or email: a-and-r-Docket@epa.gov. For technical information, contact Evan Coffman; phone: 919-541-0567; fax: 919-541-1818; or email: Coffman.Evan@epa.gov; or Meredith Lassiter; phone: 919-541-3200; fax: 919-541-1818; or email: lassiter.meredith@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Information About the Document

Section 108(a) of the Clean Air Act directs the Administrator to identify certain air pollutants which, among other things, "cause or contribute to air

pollution which may reasonably be anticipated to endanger public health or welfare";¹ and to issue air quality criteria for them. The air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air. . . ." Under section 109 of the Act, EPA is then to establish NAAQS for each pollutant for which EPA has issued criteria. Section 109(d)(1) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. EPA is also required to review and, if appropriate, revise the NAAQS, based on the revised air quality criteria (for more information on the NAAQS review process, see <https://www.epa.gov/naaqs>).

EPA has established NAAQS for six criteria pollutants, including for lead (Pb). Periodically, EPA reviews the scientific basis for these standards by preparing an ISA (formerly called an Air Quality Criteria Document). The ISA provides the scientific basis for EPA's decisions, in conjunction with additional technical and policy assessments, on the adequacy of the current NAAQS and the appropriateness of possible alternative standards. Early steps in this process include announcing the beginning of this periodic NAAQS review and the development of the ISA, and EPA requesting that the public submit scientific literature that they want to bring to the attention of the Agency as it begins this process. The Clean Air Scientific Advisory Committee (CASAC), whose review and advisory functions are mandated by section 109(d)(2) of the Clean Air Act, is charged (among other things) with independent scientific review of the Agency's air quality criteria.

The ISA will build on the scientific assessment for the last review,² focusing on assessing the information newly available since that considered in the 2013 ISA. With regard to development of the ISA, the public is encouraged to assist in identifying relevant scientific

¹ Under Clean Air Act section 302(h), welfare effects include, but are not limited to, "effects on soils, water, crops, vegetation, manmade materials, animals, wildlife, weather, visibility, and climate, damage and deterioration of property, and hazards to transportation, as well as effects on economic values and on personal comfort and well-being."

² The scientific assessment for the last review is documented in the Integrated Science Assessment for Lead (Final Report, July 2013), EPA/600/R-10/075F; 78 FR 38318, June 26, 2013.
