33 CFR Part 117

[Docket No. USCG-2020-0052]

RIN 1625-AA09

Drawbridge Operation Regulation; Long Creek, Nassau, NY

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is altering the operating schedule that governs the Loop Parkway Bridge across Long Creek, mile 0.7 at Nassau, New York. The bridge owner, New York State Department of Transportation (NYSDOT), submitted a request to modify bridge openings and expects that this change to the regulations will better serve the needs of the community while continuing to meet the reasonable needs of navigation.

DATES: This rule is effective August 10, 2020.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to http://www.regulations.gov. Type USCG-2020-0052 in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this rulemaking.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Ms. Stephanie E. Lopez, First Coast Guard District, Project Officer, telephone 212-514-4335, email Stephanie.E.Lopez@uscg.mil.

SUPPLEMENTARY INFORMATION:

I. Table of Abbreviations

Table with 2 columns: Abbreviation and Full Name. Includes CFR, DHS, FR, OMB, NPRM, §, and U.S.C.

II. Background Information and Regulatory History

On March 17, 2020, the Coast Guard published a temporary test deviation, with request for comments, entitled Drawbridge Operation Regulation; Long Creek, Nassau, NY, in the Federal Register (85 FR 15069) to seek comments on whether the Coast Guard should modify the current operating schedule for the Loop Parkway Bridge. The comment period for this test deviation closed on April 16, 2020, with no comments received.

On April 30, 2020, the Coast Guard published a Notice of proposed rulemaking, with a request for comments, entitled Drawbridge Operation Regulation; Long Creek, Nassau, NY in the Federal Register (85 FR 23933). We stated why we issued the NPRM, and invited comments on our proposed regulatory action related to this regulatory change. During the comment period that ended June 1, 2020, we received no comments.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority 33 U.S.C. 499. The Loop Parkway Bridge at mile 0.7, across Long Creek, Nassau, New York, has a vertical clearance of 21 feet at mean high water and 25 feet at mean low water. Horizontal clearance is approximately 75.5 feet. The waterway users include recreational and commercial vessels, including fishing vessels.

The existing drawbridge operating regulations are listed at 33 CFR 117.799(f).

Historical Data for the NPRM and Test Deviation can be found in docket USCG-2020-0052. Based on the data that was provided by the bridge owner, the number of requested bridge openings has decreased over the years, while the vehicular traffic has increased. The schedule restricts bridge openings during vehicular rush hours, allowing openings twice per hour. This schedule allows less congestion buildup of vehicular traffic while providing mariners with a reliable, consistent time they can request a bridge opening.

IV. Discussion of Comments, Changes and the Final Rule

The Coast Guard provided a comment period of 60 days, total, between both the test deviation and the NPRM. No comments were received.

The final rule provides for commercial vessels engaged in commerce, the draw shall open Monday thru Friday from 6:20 a.m. to 9:50 a.m. and 3:20 p.m. to 7:20 p.m. on signal at 20 and 50 minutes after the hour, and

on signal at all other times. For all other vessels, the draw shall open on Monday thru Friday from 6:20 a.m. to 7:20 p.m. on signal at 20 and 50 minutes after the hour, and the draw shall open on Saturday, Sunday and Federal Holidays from 0720 to 2020 on signal at 20 and 50 minutes after the hour, and on signal at all other times. The reason for these changes is to better serve the needs of the community while continuing to meet the reasonable needs of navigation.

V. Regulatory Analyses

The Coast Guard has developed this rule after considering numerous statutes and Executive Orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive Orders, and we discuss First Amendment rights of protesters.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This rule has not been designated a “significant regulatory action,” under Executive Order 12866. Accordingly, it has not been reviewed by the Office of Management and Budget (OMB) and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

This regulatory action determination is based on the ability that vessels can still transit the bridge given advanced notice.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard received zero comments from the Small Business Administration on this rule. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the bridge may be small entities, for the reasons stated in section V.A above, this rule

will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Government

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires

Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01, Rev.1, associated implementing instructions, and Environmental Planning Policy COMDTINST 5090.1 (series) which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f). The Coast Guard has determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule promulgates the operating regulations or procedures for drawbridges and is categorically excluded from further review, under paragraph L49, of Chapter 3, Table3–1 of the U.S. Coast Guard Environmental Planning Implementation Procedures.

Neither a Record of Environmental Consideration nor a Memorandum for the Record are required for this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.
