Title: RUS Electric Loan Application and Related Reporting Burdens.

OMB Number: 0572-0032.

Expiration Date of Approval: April 30, 2021.

Type of Request: Extension of a currently approved information collection.

Abstract: The Rural Utilities Service (RUS) was established in 1994 by the Federal Crop Insurance Reform and Department of Agriculture Reorganization Act of 1994 (Pub. L. 103-354, 108 Stat. 3178, 7 U.S.C. 6941 *et seq.*) as successor to the Rural Electrification Administration (REA) with respect to certain programs, including the electric loan and loan guarantee program authorized under the Rural Electrification Act of 1936 (7 U.S.C. 901 *et seq.*, as amended) (RE Act).

The RE Act authorizes and empowers the Administrator of RUS to make and guarantee loans to furnish and improve electric service in rural areas. These loans are amortized over a period of up to 35 years and secured by the borrower's electric assets and/or revenue. In the interest of protecting loan security, monitoring compliance with debt covenants, and ensuring that RUS loan funds are used for purposes authorized by law, RUS requires that borrowers prepare and submit for RUS evaluation certain studies and reports. Some of these studies and reports are required only once for each loan application; others must be submitted periodically until the loan is completely repaid. These forms and documents serve as support for electric loan applications and summarizes the types and estimated costs of facilities and

equipment for which RUS financing is being requested.

The RE Act also authorizes and empowers the Administrator of RUS to make or cause to be made, studies, investigations, and reports concerning the condition and progress of the electrification of the several States and Territories; and to publish and disseminate information with respect thereto. Information supplied by borrowers forms the basis of many of these reports.

In the past two years, RUS has implemented an application intake system called RDApply that allows applicants to create an online application for RUS loans and grants as well as upload attachments, sign certifications, and draw service areas, to name a few features. RDApply streamlines the application process, as well as provides identity security, reduces paper consumption and is expected to reduce the burden associated with this information collection package over time.

The Access Board invites comment on its "Online Architectural Barriers Act (ABA) Complaint Form." (OMB Control No. 3014-0012). The information collection is scheduled to expire on August 31, 2020, and we propose to continue using the instrument for an additional three years.

DATES: OMB has up to 60 days to approve or disapprove the information collection request, but may respond after 30 days. Therefore, public comments should be submitted to OMB by not later than August 10, 2020 in order to be assured of consideration.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501 *et seq.*) and its implementing regulations (5 CFR part 1320), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information," within the meaning of the PRA, includes agency requests that pose identical questions to, or impose reporting or recording keeping obligations on, ten or more persons, regardless of whether response to such request is mandatory or voluntary. See 5 CFR 1320.3(c); see also 44 U.S.C. 3502(3). Before seeking clearance from OMB, agencies are generally required, among other things, to publish both 60-day and 30-day Notices in the **Federal Register** concerning any proposed information collection—including extension of a

previously-approved collection—and provide an opportunity for comment. See 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1).

To comply with this requirement, the Access Board published its 60-day Notice in April 2020. See 85 FR 18913 (April 3, 2020). The Access Board is now publishing this 30-day Notice for the proposed renewal of this information collection. OMB's approval of the current version of the Access Board's Online ABA Complaint Form is set to expire in August 2020.

OMB Control Number: 3014–0012.

Title: Online Architectural Barriers Act (ABA) Complaint Form.

Type of Review: Extension of a currently approved information collection.

Abstract: The Access Board is statutorily charged with enforcing the ABA through, among other things, investigation of complaints from members of the public concerning the accessibility of covered buildings or facilities, namely—those owned or leased by the Federal government, as well as those constructed or altered using Federal funds from grants or loans. See 29 U.S.C. 792(b)(1), (e). At present, over 90% of individuals elect to submit their ABA complaints using the Online ABA Complaint Form; the remainder are submitted in writing, without the need to use a hard-copy complaint form, by email, regular mail, or fax.

By this notice, the Access Board is proposing to continue using essentially the same Online ABA Complaint Form for another three years. We propose to make formatting-type changes only that will make update the “look and feel” of the online form; we are not making any material, substantive revisions.

In sum, the Online ABA Complaint Form seeks information needed by the Access Board to investigate complaints and, if desired, contact the complainant. Mandatory fields are: Name and location (by city and state) of the building/facility at issue and description of accessibility barrier(s). Optional fields include the building/facility address and the complainant's name and contact information. (Where provided, a complainant's identity and other personal information may not be disclosed outside the agency without his or her written permission.) Individuals may also upload electronic attachments (e.g., pictures, drawings) relevant to their complaint, if desired. Once a complaint is submitted, the system automatically provides confirmation of successful submission, a complaint number, and the option to print a copy of the submitted complaint.

Complainants who elect to provide an email address as part of their contact information also receive an automatically generated confirmation email.

Description of Respondents: Individual members of the public.

Estimated Total Annual Number of Responses: Approximately 185 individuals submit complaints using the Online ABA Complaint Form each year.

Estimated Frequency of Response: Occasional. Complainants submit one complaint for each building or facility at which they noted accessibility barriers, regardless of the number of barriers encountered.

Estimated Time Burden per Response: On average, about 30 minutes per online complaint; the time burden may vary depending on the number of accessibility barriers identified in a complaint. There is no financial burden to complainants.

Estimated Total Annual Burden Hours: Approximately 93 hours.

Request for Comment: Comments are again invited on: (a) Whether the proposed collection of information is necessary for performance of the Access Board's work; (b) the accuracy of the estimated burden; (c) ways for the Access Board to enhance the quality, utility, and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. If you wish to comment in response to this Notice, you may send your comments as specified under the **ADDRESSES** section of this Notice by August 10, 2020.

Acting Executive Director.
