Title: RUS Electric Loan Application and Related Reporting Burdens.

OMB Number: 0572-0032.

Expiration Date of Approval: April 30, 2021.

Type of Request: Extension of a currently approved information collection.

Abstract: The Rural Utilities Service (RUS) was established in 1994 by the Federal Crop Insurance Reform and Department of Agriculture Reorganization Act of 1994 (Pub. L. 103-354, 108 Stat. 3178, 7 U.S.C. 6941 *et seq.*) as successor to the Rural Electrification Administration (REA) with respect to certain programs, including the electric loan and loan guarantee program authorized under the Rural Electrification Act of 1936 (7 U.S.C. 901 *et seq.*, as amended) (RE Act).

The RE Act authorizes and empowers the Administrator of RUS to make and guarantee loans to furnish and improve electric service in rural areas. These loans are amortized over a period of up to 35 years and secured by the borrower's electric assets and/or revenue. In the interest of protecting loan security, monitoring compliance with debt covenants, and ensuring that RUS loan funds are used for purposes authorized by law, RUS requires that borrowers prepare and submit for RUS evaluation certain studies and reports. Some of these studies and reports are required only once for each loan application; others must be submitted periodically until the loan is completely repaid. These forms and documents serve as support for electric loan applications and summarizes the types and estimated costs of facilities and

equipment for which RUS financing is being requested.

The RE Act also authorizes and empowers the Administrator of RUS to make or cause to be made, studies, investigations, and reports concerning the condition and progress of the electrification of the several States and Territories; and to publish and disseminate information with respect thereto. Information supplied by borrowers forms the basis of many of these reports.

In the past two years, RUS has implemented an application intake system called RDApply that allows applicants to create an online application for RUS loans and grants as well as upload attachments, sign certifications, and draw service areas, to name a few features. RDApply streamlines the application process, as well as provides identity security, reduces paper consumption and is expected to reduce the burden associated with this information collection package over time.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 14.85 hours per response.

Respondents: Not for profit organizations, business or other for profit.

Estimated Number of Respondents: 625.

Estimated Number of Responses per Respondent: 4.72.

Estimated Annual Responses: 2,803.

Estimated Total Annual Burden on Respondents: 41,633 hours.

Copies of this information collection can be obtained from Robin M. Jones, Innovation Center—Regulations Management Division, at (202) 772-1172, email: robin.m.jones@usda.gov.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Chad Rupe,

Administrator, Rural Utilities Service.
