Fisheries of the Exclusive Economic Zone Off Alaska; Bering Sea and Aleutian Islands Crab Rationalization Cost Recovery Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of fee percentage.

SUMMARY: NMFS publishes notification of a 1.31 percent fee for cost recovery under the Bering Sea and Aleutian Islands Crab Rationalization Program. This action is intended to provide holders of crab allocations with the 2020/2021 crab fishing year fee percentage so they can calculate the required cost recovery fee payment that must be submitted by July 31, 2021.

DATES: The Crab Rationalization Program Registered Crab Receiver permit holder is responsible for submitting the fee liability payment to NMFS by July 31, 2021.

FOR FURTHER INFORMATION CONTACT: Doug Duncan, (907) 586-7228.

SUPPLEMENTARY INFORMATION:

Background

NMFS Alaska Region administers the Bering Sea and Aleutian Islands Crab Rationalization Program (Program) in the North Pacific. Fishing under the Program began on August 15, 2005. Regulations implementing the Program can be found at 50 CFR part 680.

The Program is a limited access privilege program authorized by section 313(j) of the Magnuson-Stevens Fishery Conservation and Management Act

(Magnuson-Stevens Act). The Program includes a cost recovery provision to collect fees to recover the actual costs directly related to the management, data collection, and enforcement of the Program. The Program is consistent with the cost recovery provisions included under section 304(d)(2)(A) of the Magnuson-Stevens Act. NMFS developed the cost recovery regulations to conform to statutory requirements and to reimburse the agency for the actual costs directly related to the management, data collection, and enforcement of the Program. The cost recovery provision allows collection of 133 percent of the actual management, data collection, and enforcement costs up to 3 percent of the ex-vessel value of crab harvested under the Program. The Program provides that a proportional share of fees charged be forwarded to the State of Alaska for reimbursement of its share of management and data collection costs for the Program.

A crab allocation holder generally incurs a cost recovery fee liability for every pound of crab landed. Catcher vessel and processor quota shareholders split the cost recovery fees equally with each paying half, while catcher/processor quota shareholders pay the full fee percentage for crab processed at sea. The crab allocations subject to cost recovery include Individual Fishing Quota, Crew Individual Fishing Quota, Individual Processing Quota, Community Development Quota, and the Adak community allocation. The Registered Crab Receiver (RCR) permit holder must collect the fee liability from the crab allocation holder who is landing crab. Additionally, the RCR permit holder must collect their own fee liability for all crab delivered to the RCR. The RCR permit holder is responsible for submitting this payment to NMFS on or before July 31, in the year following the crab fishing year in which landings of crab were made.

The dollar amount of the fee due is determined by multiplying the fee percentage (not to exceed 3 percent) by the ex-vessel value of crab debited from the allocation. Program details may be found in the implementing regulations at 50 CFR 680.44.

Fee Percentage

Each year, NMFS calculates and publishes in the **Federal Register** the fee percentage according to the factors and methodology described at § 680.44(c)(2). The formula for determining the fee percentage is the “direct program costs” divided by “value of the fishery,” where “direct program costs” are the direct program costs for the Program for the previous fiscal year, and “value of the

fishery” is the ex-vessel value of the catch subject to the crab cost recovery fee liability for the current year. Fee collections for any given year may be less than, or greater than, the actual costs and fishery value for that year, because, by regulation, the fee percentage is established in the first quarter of a crab fishery year based on the fishery’s value and costs in the prior year.

According to the fee percentage formula described above, the estimated percentage of costs to value for the 2019/2020 fishery was 1.31 percent. Therefore, the fee percentage will be 1.31 percent for the 2020/2021 crab fishing year. This is a decrease of 0.39 percent from the 2019/2020 crab fishing year fee percentage of 1.70 percent (84 FR 43792, August 22, 2019). Direct program costs for managing the fishery decreased by approximately 13 percent from 2018/2019 to 2019/2020, while fishery value increased 12 percent, resulting in the decreased fee percentage. Similar to previous years, the largest direct program costs were incurred by the Alaska Department of Fish and Game and the NOAA Office of Law Enforcement.

Recommendations for a Comprehensive Interagency Seafood Trade Strategy

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for information.

SUMMARY: On May 7, 2020, the White House issued an Executive Order on Promoting American Seafood Competitiveness and Economic Growth. As part of this effort, the Department of Commerce and the United States Trade Representative (USTR) are co-chairing the Interagency Seafood Trade Task Force (Seafood Trade Task Force), which will develop recommendations to provide to USTR for the development of

a comprehensive interagency seafood trade strategy. On behalf of the Seafood Trade Task Force co-chairs, NOAA requests written input from interested parties on how best to achieve the objectives of the Seafood Trade Task Force as described in the Executive Order, including improving access to foreign markets for U.S. seafood exports through trade policy and negotiations; resolving technical barriers to U.S. seafood exports; and otherwise supporting fair market access for U.S. seafood products. In addition, interested parties are requested to respond to the questions listed below in the **SUPPLEMENTARY INFORMATION** section as appropriate. The public input provided in response to this request for information (RFI) will inform the Seafood Trade Task Force as it works with Federal agencies and other stakeholders to develop recommendations to USTR in the preparation of a comprehensive interagency seafood trade strategy.

DATES: Interested persons are invited to submit comments on or before August 1, 2020.

ADDRESSES: Responses should be submitted via email to SeafoodTrade.Strategy@noaa.gov. Include "RFI Response: Interagency Seafood Trade Task Force" in the subject line of the message.

Instructions: Response to this RFI is voluntary. Respondents need not comment on all listed objectives. For all submissions, clearly indicate which objective is being addressed. Email attachments will be accepted in plain text, Microsoft Word, or Adobe PDF formats only. Each individual or institution is requested to submit only one response. The Department of Commerce may post responses to this RFI, without change, on a Federal website. NOAA, therefore, requests that no business proprietary information, copyrighted information, or personally identifiable information be submitted in response to this RFI. Please note that the U.S. Government will not pay for response preparation, or for the use of any information contained in the response.

FOR FURTHER INFORMATION CONTACT: Andrew Lawler, Andrew.Lawler@noaa.gov, 202-689-4590.

SUPPLEMENTARY INFORMATION: On May 7, 2020, the President signed a new Executive Order promoting American seafood competitiveness and economic growth. Specifically, the Executive Order calls for the expansion of sustainable U.S. seafood production through: More efficient and predictable aquaculture permitting; cutting-edge

research and development; regulatory reform to maximize commercial fishing; and enforcement of common-sense restrictions on seafood imports that do not meet American standards.

As outlined in Section 11 of the Executive Order, the Secretary of Commerce is establishing a Seafood Trade Task Force to be co-chaired by the Secretary of Commerce and the U.S. Trade Representative (Co-Chairs), or their designees. In addition to the Co-Chairs, the Seafood Trade Task Force will include the following members, or their designees: The Secretary of State; the Secretary of the Interior; the Secretary of Agriculture; the Secretary of Homeland Security; the Director of the Office of Management and Budget; the Assistant to the President for Economic Policy; the Assistant to the President for Domestic Policy; the Chairman of the Council of Economic Advisers; the Under Secretary of Commerce for International Trade; the Commissioner of Food and Drugs; the Administrator of NOAA; and the heads of such other agencies and offices as the Co-Chairs may designate.

The Seafood Trade Task Force will provide recommendations to USTR in the preparation of a comprehensive interagency seafood trade strategy by identifying opportunities to improve access to foreign markets for U.S. seafood products through trade policy and negotiations, resolve technical barriers to U.S. seafood exports, and otherwise support fair market access for U.S. seafood products. USTR will then submit a comprehensive interagency seafood trade strategy to the President, through the Assistant to the President for Economic Policy and the Assistant to the President for Domestic Policy, within 90 days of the receiving the recommendations from the Seafood Trade Task Force.

Questions To Inform Recommendations for the Development of the Comprehensive Interagency Seafood Trade Strategy

Through this RFI, NOAA seeks written public input on how the Administration can best achieve the Seafood Trade Task Force objectives, including but not limited to, responses to the following questions to inform the Task Force recommendations on the development of a comprehensive interagency seafood trade strategy:

1. Which seafood products (to include fish, shellfish, and processed fish and seafood products) are you currently exporting? Please provide the Harmonized Tariff System (HTS) codes for these products.

2. To which countries or other trading partners are you currently exporting?

3. Are there countries or other trading partners to which you are planning to export, or to which you would like to export? Please specify.

4. Are there issues in the markets you currently export to that limit your exports or unnecessarily increase the costs for your exports? Please specify.

5. Are there issues in other markets that have prevented you from exporting? Please specify.

6. Are there other issues that affect the competitiveness of your product in foreign markets? Please specify.

7. Are there barriers that prevent the export of your product to certain markets? Please specify.

Dated: July 7, 2020.

Chris Oliver,

Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration.

Request for Comment on the Draft Prospectus of the Fifth National Climate Assessment

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Office of Oceanic and Atmospheric Research (OAR), Department of Commerce (DOC).

ACTION: Notice of request for public comment on the Fifth National Climate Assessment.

SUMMARY: With this notice, the U.S. Global Change Research Program (USGCRP) seeks public comment on the proposed themes and framework of the Fifth National Climate Assessment (NCA5) as indicated by the draft prospectus presented here. Based on input received from this notice, USGCRP will develop an annotated outline, which will be released for public comment at a later date. A call for author nominations and technical inputs will also be posted in one or more subsequent **Federal Register** Notices. In addition to the proposed themes and framework, this **Federal Register** Notice requests public comment on ways to make the assessment information accessible and useful to multiple audiences; specific types of detailed information on regional scales that would be most useful to stakeholders; how to best
