

non-NRDA funding to construct the breakwater system that was originally proposed as a component of the Cypremort Improvements project. The Louisiana TIG prepared a Draft Supplemental Restoration Plan and Environmental Assessment for the Cypremort Point State Park Improvements Project Modification (Draft Supplemental RP/EA) to inform the public about potential modifications to the Cypremort Improvements project and to seek public comment. A Notice of Availability of the Draft Supplemental RP/EA was published in the **Federal Register** at 85 FR 21852 on April 20, 2020. The Louisiana TIG hosted a public webinar on April 28, 2020, and the public comment period for the Draft Supplemental RP/EA closed on May 20, 2020. The Louisiana TIG considered the public comments received on the Draft Supplemental RP/EA, which informed the Louisiana TIG's analyses and selection of the modified Cypremort Improvements project in the Final Supplemental RP/EA. A summary of the public comments received and the Trustees' responses to those comments are included in Section 6 of the Final Supplemental RP/EA.

#### Overview of the Final Supplemental RP/EA

The Final Supplemental RP/EA evaluates modifications to the Cypremort Improvements project and considers three action alternatives, consistent with the purpose and need of the original project. Alternative A includes the components of the original Cypremort Improvements project that were approved for funding but are not currently completed: Improvements to an existing rock jetty, beach reclamation, construction of a marsh boardwalk and trail, and road and parking lot repairs. Alternative B includes the same components as in Alternative A as well as additional improvements at Cypremort Point State Park: A recreational vehicle campground with approximately 30 new paved pull-through campsites with sewer, water, and electrical tie-ins, two mobile bathhouses with sewer, water, and electrical tie-ins, and a boat dock/fishing pier. Alternative C includes the same components as Alternative B but eliminates the mobile bathhouses. In the Final Supplemental RP/EA, the Louisiana TIG selects project Alternative B: Expanded Restoration and Recreation Improvements with Mobile Bathhouses. The estimated total cost of the selected project, as modified, is \$4.48 million. In the Final Supplemental RP/EA, the Louisiana TIG presents to the public its plan to

continue the process of restoring recreational use services lost in the Louisiana Restoration Area as a result of the *Deepwater Horizon* oil spill. Additional restoration planning for the Louisiana Restoration Area will continue.

#### Administrative Record

The documents comprising the Administrative Record for the Final Supplemental RP/EA and FONSI can be viewed electronically at <https://www.doi.gov/deepwaterhorizon/adminrecord>.

#### Authority

The authority for this action is the Oil Pollution Act of 1990 (33 U.S.C. 2701 *et seq.*), its implementing NRDA regulations found at 15 CFR part 990, and the NEPA (42 U.S.C. 4321 *et seq.*).
