**Receipt of Application for an Incidental
Take Permit and Draft Habitat
Conservation Plan for Five Species;
Texas Parks and Wildlife Department,
Balmorhea State Park, Texas; Low-
Effect Screening Form for a
Categorical Exclusion**

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of availability; request
for public comments.

SUMMARY: We, the U.S. Fish and
Wildlife Service, have received an
application from the Texas Parks and
Wildlife Department (TPWD) for an
incidental take permit (ITP),
accompanied by TPWD's habitat
conservation plan (HCP) for the
Balmorhea State Park Management Plan.
The ITP, which would be granted under
the Endangered Species Act, would
authorize incidental take of five
federally endangered species. A low-
effect screening form supporting a
categorical exclusion is also available
for public review. We request public
comment on the ITP application, HCP,
and low-effect screening form.

DATES: To ensure consideration, written
comments must be received or
postmarked on or before August 12,
2020.

SUPPLEMENTARY INFORMATION: Under the
Endangered Species Act (ESA; 16 U.S.C
1531 *et seq.*), we, the U.S. Fish and
Wildlife Service (Service), have received
an application from the Texas Parks and
Wildlife Department (TPWD) for an
incidental take permit (ITP), along with
an accompanying habitat conservation
plan (HCP) for the Balmorhea State Park
Management Plan. If granted, the ITP
would authorize incidental take of five
federally endangered species resulting
from the ongoing management of
Balmorhea State Park.

The HCP included with the ITP
application is for five endangered
species that occur at San Solomon
Springs, located at Balmorhea State
Park, Balmorhea, Texas. The HCP
describes TPWD's plans to minimize
and mitigate the effects of the operation
and maintenance of the pool at
Balmorhea State Park. We have made a
preliminary determination that the HCP
is eligible for categorical exclusion
under the National Environmental
Policy Act. The basis for this
determination is contained in a low-
effect screening form for a categorical
exclusion (low-effect screening form),
which evaluates the impacts of
implementation of the proposed HCP.

We request public comment on the
ITP application, HCP, and low-effect
screening form.

Background

Section 9 of the ESA and its
implementing regulations prohibit the
"take" of animal species listed as
endangered or threatened. Take is
defined under the ESA as to "harass,
harm, pursue, hunt, shoot, wound, kill,
trap, capture, or collect listed animal
species, or to attempt to engage in such
conduct" (16 U.S.C. 1538). However,
under section 10(a) of the ESA, we may
issue permits to authorize the incidental
take of threatened and endangered
species. "Incidental take" is defined by
the ESA as take that is incidental to, and
not the purpose of, carrying out an
otherwise lawful activity. Regulations
governing such take of endangered and
threatened species, respectively, are
found in the Code of Federal

Regulations at 50 CFR 17.22 and 50 CFR
17.32.

Application

The TPWD has applied to the Service
for an ITP under section 10(a)(1)(B) of
the ESA. The requested ITP, which
would be in effect for a period of 10
years, if granted, would authorize
incidental take of the Comanche Springs
pupfish (*Cyprinodon elegans*), Pecos
gambusia (*Gambusia nobilis*), Phantom
tryonia (*Tryonia cheatumi*), diminutive
amphipod (*Gammarus hyalleloides*),
and Phantom springsnail (*Pyrgulopsis
texana*). The proposed incidental take
would result from activities associated
with otherwise lawful activities,
including the ongoing operation and
maintenance of the swimming pool at
Balmorhea State Park. The HCP and
associated permit would implement a
voluntary conservation plan to protect
and conserve five aquatic endangered
species occurring at Balmorhea State
Park. The conservation strategy includes
conservation measures to minimize and
mitigate direct and indirect impacts to
the five species and their aquatic habitat
and an adaptive management program.
If approved, the ITP would be for a 10-
year period following permit issuance
and would authorize incidental take of
the five species, all of which are listed
as endangered under the ESA.

Proposed Action

The proposed action involves the
issuance of an ITP by the Service for the
covered activities in the permit area,
under section 10(a)(1)(B) of the ESA.
The ITP would cover "take" of the
covered species associated with
operation and maintenance of the
Balmorhea State Park including the
swimming pool, pupfish refugium, and
Hubbs Ciénega. The applicant will fully
implement the HCP if approved by the
Service. The terms of the HCP and ITP
will also ensure that incidental take will
not appreciably reduce the likelihood of
the survival and recovery of the species
in the wild.

Next Steps

We will evaluate the HCP and
comments we receive on the low-effect
screening form to determine whether
the ITP application meets the
requirements of section 10(a) of the
ESA. We will also evaluate whether
issuance of a section 10(a)(1)(B) permit
would comply with section 7 of the ESA
by conducting an intra-Service section 7
consultation. We will use the results of
this consultation, in combination with
the above findings, in our final analysis
to determine whether to issue an ITP. If

all necessary requirements are met, we will issue the ITP to the applicant.

Public Availability of Comments

Written comments we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request in your comment that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will not consider anonymous comments. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

We provide this notice under section 10(c) of the ESA and its implementing regulations (50 CFR 17.22 and 17.32) and the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6).
