SUPPLEMENTARY INFORMATION:

I. Background

OSHA recognition of a NRTL signifies that the organization meets the requirements in § 1910.7 of title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of

recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification. OSHA maintains an informational web page for each NRTL that details its scope of recognition. These pages are available on our website at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

The agency processes applications by a NRTL for renewal of recognition following requirements in appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, appendix A, paragraph II.C. In accordance with these procedures, NRTLs submit a renewal request to OSHA, not less than nine months or no more than one year, before the expiration date of its current recognition. The submission includes a request for renewal and any additional information the NRTL wishes to submit to demonstrate its continued compliance with the terms of its recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL's headquarters and key sites within the past 18 to 24 months, it will schedule the necessary on-site assessments prior to the expiration date of the NRTL's recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces its preliminary decision to grant or deny renewal in the **Federal Register** and solicit comments from the public. OSHA then publishes a final **Federal Register** notice responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

NNA initially received OSHA recognition as a NRTL on June 21, 1991 (56 FR 28579). NNA's most recent renewal was granted on July 14, 2014 for a five-year period expiring on July 14, 2019. NNA submitted a timely request for renewal, dated October 10, 2018 (OSHA–2013–0016–0016), and retains its recognition pending OSHA's final decision in this renewal process. Additionally, Nemko sent a request on January 14, 2020 (OSHA–2013–0016–0017) to remove its Salt Lake City, Utah site from their NRTL scope of recognition. The current addresses of the NNA facilities recognized by OSHA and included as part of the renewal request are:

(1) Nemko USA, Inc., 2210 Faraday Avenue, Suite 150, Carlsbad, California 92008; and

(2) Nemko Canada, Inc., 303 River Road, Ottawa, Canada K1V 1H2.
