The information collection requirements contained in 47 CFR 76.54(c) are used to notify interested parties, including licensees or permittees of television broadcast stations, about audience surveys that are being conducted by an organization to demonstrate that a particular broadcast station is eligible for significantly viewed status under the Commission's rules. The notifications provide interested parties with an opportunity to review survey methodologies and file objections.

Lastly, 47 CFR 76.54(e) and (f), are used to notify television broadcast

stations about the retransmission of significantly viewed signals by a satellite carrier into these stations' local market.

The FCC received approval from OMB for a non-substantive and non-material change to the information collection under OMB Control No. 3060–0311 as a result of the rulemaking discussed below.

On January 30, 2020, the Commission adopted a Report and Order, FCC 20–8, in MB Docket Nos. 19–165 and 17–105 (*Report and Order*). The *Report and Order* updated the Commission's notification rules for cable operators and direct broadcast satellite providers by transitioning certain written notices from paper to electronic delivery via email. To help effectuate this transition to email delivery of notices, the *Report and Order* revised 47 CFR 76.54(e) to require that after July 31, 2020, the notices mandated by the rule must be delivered to television broadcast stations electronically in accordance with 47 CFR 76.66(d)(2)(ii). The revised requirements are effective as stated in the summary of the *Report and Order*, published at 85 FR 15999, on March 20, 2020.

Needs and Uses: The Commission requires that the various disclosure and notifications contained in this collection as a means of consumer protection to ensure that subscribers and franchising authorities are aware of cable operators' business practices, current rates, rate changes for programming, service and equipment, and channel line-up changes. Permitting the use of email modernizes the Commission's rules regarding notices required to be provided by MVPDs. The FCC received approval from OMB for a non-substantive and non-material change to the information collection under OMB Control No. 3060–0652 as a result of the rulemaking discussed below.

On January 30, 2020, the Commission adopted a Report and Order, FCC 20–8, in MB Docket Nos. 19–165 and 17–105 (*Report and Order*). The *Report and Order* updated the Commission's notification rules for cable operators and direct broadcast satellite providers by transitioning certain written notices from paper to electronic delivery via email. To help effectuate this transition to email delivery of notices, the *Report and Order* added to 47 CFR 76.1600 a new subsection (e) requiring that after July 31, 2020, cable operators must use

email to deliver the notices required by §§ 76.64(k), 76.1601, 76.1607, 76.1608, 76.1609, and 76.1617 to broadcast television stations.

Specifically, after July 31, 2020, covered notices to full-power and Class A television stations must be emailed to the “carriage issues” inbox that the station publicizes in its online public inspection file (OPIF) in accordance with 47 CFR 73.3526 and 73.3527. Similarly, after July 31, 2020, covered notices to low-power television (LPTV) stations will be emailed to the inbox already provided by the station licensee in the Commission's Licensing and Management System (LMS) under existing procedures. After July 31, 2020, covered notices to qualified noncommercial educational (NCE) translator stations must be delivered to the email address listed for the licensee of the NCE translator station in LMS, or alternatively to the “carriage issues” email address listed in the primary station's OPIF, if the NCE translator station does not have its own email address listed in LMS. The revised requirements are effective as stated in the summary of the *Report and Order*, published at 85 FR 15999, on March 20, 2020.

OMB Control Number: 3060–0844.

OMB Approval Date: March 31, 2020.

OMB Expiration Date: February 28, 2023.

Title: Cable Carriage of Television Broadcast Stations: Section 76.56(a) Carriage of qualified noncommercial educational stations; Section 76.57, Channel positioning; Section 76.61(a)(1)–(2) Section 76.64, Retransmission consent.

Form Number: N/A.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 4,902 respondents; 7,082 responses.

Estimated Time per Response: 0.5 to 5.0 hours.

Frequency of Response: On-occasion reporting requirement; Third-party disclosure requirement.

Statutory authority for this collection of information is contained in Sections 1, 4(i) and (j), 325, 338, 614, 615, 631, 632, and 653 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i) and (j), 325, 338, 534, 535, 551, 552, and 573.

Total Annual Burden: 4,486 hours.

Total Annual Cost: No cost.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Act: No impact(s).

Needs and Uses: Under Section 614 of the Communications Act and the implementing rules adopted by the Commission, commercial TV broadcast stations are entitled to assert mandatory carriage rights on cable systems located within the station's television market. Under Section 325(b) of the Communications Act, commercial TV broadcast stations are entitled to negotiate with local cable systems for carriage of their signal pursuant to retransmission consent agreements in lieu of asserting must carry rights. This system is therefore referred to as “Must-Carry and Retransmission Consent.” Under Section 615 of the Communications Act, noncommercial educational (NCE) stations are also entitled to assert mandatory carriage rights on cable systems located within the station's market; however, noncommercial TV broadcast stations are not entitled to retransmission consent. The Commission's rules implementing sections 614 and 615 of the Communications Act require, among other things, that a cable system commencing new operation must notify all local commercial and noncommercial broadcast stations of its intent to commence service. The cable operator must send such notification at least 60 days prior to commencing cable service (New Cable System Notices). The new cable system must notify each station if its signal quality does not meet the standards for carriage and if any copyright liability would be incurred for the carriage of such signal. The FCC received approval from OMB for a non-substantive and non-material change to the information collection under OMB Control No. 3060–0844 as a result of the rulemaking discussed below.

On January 30, 2020, the Commission adopted a Report and Order, FCC 20–8, in MB Docket Nos. 19–165 and 17–105 (*Report and Order*). The *Report and Order* updated the Commission's notification rules for cable operators and direct broadcast satellite providers by transitioning certain written notices from paper to electronic delivery via email. To help effectuate this transition to email delivery of notices, the Report and Order revised 47 CFR 76.64(k) to require that after July 31, 2020, the New Cable System Notices mandated by the rule must be delivered to broadcast stations electronically in accordance with 47 CFR 76.1600. The revised requirements are effective as stated in the summary of the *Report and Order*, published at 85 FR 15999, on March 20, 2020.

The *Report and Order* updated the Commission's notification rules for cable operators and direct broadcast satellite (DBS) providers by transitioning certain written notices from paper to electronic delivery via email. To help effectuate this transition to email delivery of notices, the *Report and Order* revised 47 CFR 76.66(d)(1)(vi), (d)(2)(i), (d)(2)(v), (d)(2)(vi), (d)(3)(iv), (d)(5)(i), (f)(3)–(4),
