[Docket Number FRA-2020-0055]

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

Under part 235 of title 49 of the Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that on June 18, 2020, Union Pacific Railroad Company (UPRR) petitioned the Federal Railroad Administration (FRA) seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA-2020-0055.

Applicant: Union Pacific Railroad Company, Mr. Neal Hathaway, AVP Signal Maintenance & Construction, 1400 Douglas Street MS/RM 0910, Omaha, NE 68179.

Specifically, UPRR requests permission to return a portion of a traffic control system to yard track on the Moffat Tunnel Subdivision, between milepost (MP) 3.64 and MP 4.68, in or near Denver, Colorado.

Returning Moffat Runner (Track 101) to yard track will allow a remote control locomotive pullback on Track 102 to be extended to DS005, at Federal Boulevard, stopping the pullback control 290 feet short of the insulated joints for signal 2W(S) CD.

In its petition, UPRR states the reason for the change is to allow its Operating Practices team to pull longer car cuts out of the yard, which will in turn help with congestion and conflict in the North Yard.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov Error! Hyperlink reference not valid. and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE, W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m.

to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- **Website:** <http://www.regulations.gov>. Follow the online instructions for submitting comments.

BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2019–0081]

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

Under part 235 of title 49 of the Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that by a document dated July 3, 2020, Grenada Railroad, LLC (GRYR) petitioned the Federal Railroad Administration (FRA) seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA–2019–0081.

Applicant: Grenada Railroad, LLC, Barbara W. Wilson, President & CFO, 1515 S. Federal Highway, Suite 404, Boca Raton, FL 33432.

Specifically, GRYR seeks reconsideration of FRA's May 7, 2020, decision to deny GRYR's September 18, 2019, proposed discontinuance and removal of the automatic block signal (ABS) system located from milepost (MP) 403.0 near Southaven, MS, to MP 617.4 near Grenada, MS.

In its July 3, 2020, petition, GRYR states that reactivation of the ABS system, which has been out of service since 2014, is not justified by current rail operations, and the prohibitive costs of reactivation will require the use of capital which could be better spent on other projects to yield stronger safety benefits.

GRYR further states that under the ownership of RailUSA, GRYR has worked diligently and invested significantly to revitalize this long-neglected rail line, re-establish operations on the southern half of its system, and improve the safety and operations of the northern half of its system. The committed focus on rail safety and continued investment in infrastructure is expected to continue to improve the safety and operations of GRYR's main line and adjacent rail facilities.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE, W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate

scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.
