If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 1894 is issued to Dominion Energy South Carolina, Inc. for a period effective July 1, 2020 through June 30, 2021, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If the project is not subject to section 15 of the FPA, notice is hereby given that Dominion Energy South Carolina, Inc., is authorized to continue operation of the Parr Hydroelectric Project, until such time as the Commission acts on its application for a subsequent license.

¹ “Burden” is the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation

of what is included in the information collection burden, refer to 5 CFR 1320.3.

² The Commission staff believes that industry is similarly situated in terms of cost for wages and

benefits. Therefore, we are using \$83.00 per hour in this calculation. That is the current average hourly cost, for wages plus benefits, for one FERC full-time equivalent.
