NUCLEAR WASTE TECHNICAL REVIEW BOARD

Meetings: U.S. Nuclear Waste Technical Review Board

The U.S. Nuclear Waste Technical Review Board will hold an online virtual public meeting to review information on DOE research and development activities related to disposal in a geologic repository of commercial spent nuclear fuel in dual-purpose canisters.

Pursuant to its authority under section 5051 of Public Law 100–203, Nuclear Waste Policy Amendments Act (NWPAA) of 1987, the U.S. Nuclear Waste Technical Review Board will hold an online virtual public meeting on Monday, July 27, 2020, and Tuesday, July 28, 2020, to review information on U.S. Department of Energy (DOE) research and development (R&D) activities related to disposal in a geologic repository of commercial spent nuclear fuel (SNF) in dual-purpose canisters (DPCs), which are designed for storage and transportation but not for disposal.

The Board meeting replaces the April 29, 2020, Spring Meeting, which the Board postponed due to the Covid-19 pandemic. Details for viewing and participating in the virtual meeting will be available on the Board's website (www.nwtrb.gov) not later than one week before the meeting.

The meeting will begin on both days at 12:30 p.m. Eastern Daylight Time (EDT) and is scheduled to adjourn at 5:00 p.m. EDT on July 27 and at 4:30 p.m. EDT on July 28. Speakers representing the DOE Office of Nuclear Energy and the national laboratories will report on R&D projects related to the feasibility of disposing in a geologic repository the SNF stored in DPCs without repackaging the SNF into other canisters. Speakers will review past studies on the technical feasibility of disposal of SNF in DPCs, including the technical bases for the engineering feasibility and thermal management of DPC disposal. The Board will hear presentations on DOE's ongoing R&D activities. Speakers will address analysis of DPC reactivity, which is used in criticality calculations, criticality consequence analyses for the period after the repository closes, and the testing and analysis of using filler materials to fill the void spaces inside a DPC prior to disposal. A detailed meeting agenda will be available on the Board's website approximately one week before the meeting.

The meeting will be open to the public, and opportunities for public comment will be provided. Details on how to comment publicly during the meeting will be provided on the Board's website along with the details for viewing the meeting. A limit may be set on the time allowed for the presentation of individual remarks. However, written comments of any length may be submitted to the Board staff by mail or electronic mail. All comments received in writing will be included in the meeting record, which will be posted on the Board's website after the meeting. An archived recording of the meeting

will be available on the Board's website following the meeting. The transcript of the meeting will be available on the Board's website by September 28, 2020.

The Board was established in the Nuclear Waste Policy Amendments Act of 1987 as an independent federal agency in the Executive Branch to evaluate the technical and scientific validity of DOE activities related to the management and disposal of SNF and high-level radioactive waste, and to provide objective expert advice to Congress and the Secretary of Energy on these issues. Board members are experts in their fields and are appointed to the Board by the President from a list of candidates submitted by the National Academy of Sciences. The Board reports its findings, conclusions, and recommendations to Congress and the Secretary of Energy. All Board reports, correspondence, congressional testimony, and meeting transcripts and related materials are posted on the Board's website.

For information on the meeting agenda, contact Roberto Pabalan: pabalan@nwtrb.gov or Bret Leslie: leslie@nwtrb.gov. For information on logistics, or to request copies of the workshop agenda or transcript, contact Davonya Barnes: barnes@nwtrb.gov. All three may be reached by mail at 2300 Clarendon Boulevard, Suite 1300, Arlington, VA 22201–3367; by telephone at 703–235–4473; or by fax at 703–235–4495.

Dated: July 15, 2020.

Nigel Mote,

Executive Director, U.S. Nuclear Waste Technical Review Board.

PEACE CORPS

Information Collection Request; Submission for OMB Review

AGENCY: Peace Corps.

ACTION: 30-Day notice and request for comments.

SUMMARY: The Peace Corps will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval. The purpose of this notice is to allow 30 days for public comment in the **Federal Register** preceding submission to OMB.

DATES: Submit comments on or before August 19, 2020.

ADDRESSES: Comments should be addressed to Virginia Burke, FOIA/Privacy Act Officer. Virginia Burke can

be contacted by email at pcf@peacecorps.gov. Email comments must be made in text and not in attachments.

FOR FURTHER INFORMATION CONTACT: Virginia Burke, FOIA/Privacy Act Officer. Virginia Burke can be contacted by email at pcf@peacecorps.gov.

SUPPLEMENTARY INFORMATION:

Title: The Paul D. Coverdell Fellow program.

OMB Control Number: 0420–* * * *

Type of Request: New.

Affected Public: Individuals.

Respondents Obligation to Reply: Voluntary.

Burden to the Public:

Estimated burden (hours) of the collection of information:

a. *Number of respondents:* 223.

b. *Frequency of response:* 1 time.

c. *Completion time:* 15 minutes.

d. *Annual burden hours:* 55.75.

General Description of Collection: The Paul D. Coverdell Fellows program is a graduate school benefit for returned Peace Corps Volunteers (RPCVs). The program, managed by the Peace Corps' Office of University Programs, is made in formal partnership with graduate degree granting educational institutions across the United States. The partnering institutions are required to offer financial support to RPCVs who, in turn, complete substantive internships related to their program of study in underserved communities in the United States. The Office of University Programs requires each Coverdell Fellow partner university to submit an annual Census Report to ensure it is meeting the requirements agreed upon in its signed standard Memorandum of Agreement between the Peace Corps and the institution. Collection of this information allows the Peace Corps Office of University Programs to ensure the university is providing all the necessary benefits and support to the Fellows (returned Peace Corps Volunteer graduate school students) enrolled in the program. Although this collection is called a "Census Report" no statistical methods are employed.

Request for Comment: Peace Corps invites comments on whether the proposed collections of information are necessary for proper performance of the functions of the Peace Corps, including whether the information will have practical use; the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the information to be collected; and, ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques, when
