

CMA authorizations for Block B in the 704–710/734–740 MHz bands (“Block B”), and EA authorizations for Block E in the 722–728 MHz band (“Block E”), where the results of the first auction in which licenses for such authorizations were offered satisfy the reserve price for the applicable block, to file construction notifications with the Commission within 15 days after:

(1) *June 12, 2013, or the fourth anniversary of initial license grant if the initial authorization in a market is granted after June 12, 2009.* In the construction notification, licensees must certify and demonstrate that they are providing signal coverage and offering service over at least 35 percent of the geographic area of each of their license authorizations.

(2) *The end of the applicable license term.* In the construction notification, licensees must certify and demonstrate that they are providing such service over at least 70 percent of the geographic area of each of these authorizations.

47 CFR 27.14(h). 700 MHz licensees holding REAG authorizations for Block C in the 746–757/776–787 MHz bands (“Block C”), as well as 700 MHz licensees holding REAG authorizations for Block C2 in the 752–757/782–787 MHz bands (C2), must file construction notifications with the Commission within 15 days after:

(1) *June 12, 2013, or the fourth anniversary of initial license grant if the initial authorization in a market is granted after June 12, 2009.* In the construction notification, licensees must certify and demonstrate that they are providing signal coverage and offering service over at least 40 percent of the population in each EA comprising the REAG license area.

(2) *The end of the applicable license term.* In the construction notification, licensees must certify and demonstrate that they are providing such service over at least 75 percent of the population of each of these EAs.

47 CFR 27.14(i). 700 MHz licensees holding EA authorizations for Block A, CMA authorizations for Block B, and EA authorizations for Block E where the results of the first auction in which licenses for such authorizations in Blocks A, B, and E were offered did not satisfy the reserve price for the applicable block, as well as EA authorizations for Block C1 in the 746–752/776–782 MHz bands (“Block C1”) must file construction notifications with the Commission within 15 days after:

(1) *June 12, 2013, or the fourth anniversary of initial license grant if the initial authorization in a market is granted after June 12, 2009.* In the construction notification, licensees must certify and demonstrate that they are providing signal coverage and offering service over at least 40 percent of the population in each license area.

(2) *The end of the applicable license term.* In the construction notification, licensees must certify and demonstrate that they are providing such service over at least 75 percent of the population of the areas.

47 CFR 27.14(j). 47 CFR 27.14(j) provides that, in the event that a licensee’s authority to operate in an area terminates automatically for failure to comply with the applicable construction requirements identified in 47 CFR 27.14(g), (h), or (i), the unserved area will become available for relicensing to third parties. A 700 MHz licensee holding an authorization granted pursuant to the unserved area licensing procedures set forth in 47 CFR 27.14(j) must file a construction notification with the Commission within 15 days after the *one-year anniversary of initial license grant*. In the construction notification, a licensee must certify and demonstrate that it is providing signal coverage and offering service over 100 percent of the geographic area of the new license area.

700 MHz Interoperability Order. Pursuant to the 700 MHz Interoperability Order, the interim construction deadline for Block A and Block B licensees was extended to December 13, 2016. The 700 MHz Interoperability Order waived the interim construction requirement for certain Block A licensees due to technical issues arising from their proximity to Television Channel 51 stations. Further, the interim construction deadline for Block E was extended to March 7, 2017, and the final Block E construction deadline was moved to March 7, 2021.

b. *700 MHz Interim Reporting Requirement—47 CFR 27.14(l).* Pursuant to 47 CFR 27.14(l), 700 MHz licensees with authorizations in the spectrum blocks identified above (Blocks A, B, E, C, C1 and C2), excluding any licensee that obtained its license pursuant to the procedures set forth in 47 CFR 27.14(j), must file interim reports with the Commission that provide the Commission, at a minimum, with information concerning the status of their efforts to meet the performance requirements applicable to their authorizations in such spectrum blocks and the manner in which that spectrum is being utilized.

Required Information. Licensees must identify the date the license term commenced, and provide a description of the steps the licensee has taken toward meeting its construction obligations in a timely manner, including the technology or technologies and service(s) being provided, as well as the areas within

their license areas in which those services are available.

Deadlines. Pursuant to 47 CFR 27.14(l), licensees were required to file their first interim report with the Commission *no later than June 12, 2011 and no sooner than 30 days prior to this date*. Licensees that meet their interim construction benchmarks must file a second interim report with the Commission *no later than June 12, 2016, and no sooner than 30 days prior to this date*. Licensees that do not meet their interim construction benchmarks must file their second interim report *no later than on June 12, 2015, and no sooner than 30 days prior to this date*.

However, the 700 MHz Interoperability Order waived the second interim report requirement for Lower 700 MHz band A and B Block licensees subject to the extended interim construction benchmark deadline. The 700 MHz Interoperability Order did not waive the reporting requirement for Lower 700 MHz band A Block licensees subject to a waiver of the interim construction benchmark deadline because of Channel 51 interference protection requirements. That order also extended the deadline until March 7, 2019, for Lower 700 MHz band E Block licensees to file a second status report regarding the licensees’ efforts to meet their performance requirements.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1239; FRS 16930]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of

information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before September 21, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1239.

Title: Section 97.303(g)(2), Notification Requirement.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or Households.

Number of Respondents and Responses: 1,000 respondents; 1,000 responses.

Estimated Time per Response: 10 minutes (0.167 hours).

Frequency of Response: Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 154(i), 161, 301, 302, 303(e), 303(f), 303(r), 304, 307 and 332(b).

Total Annual Burden: 167 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact.

Nature and Extent of Confidentiality: No information is requested that would require assurance of confidentiality.

Needs and Uses: The Commission will submit this information collection to OMB as an extension of a currently approved collection after this 60-day comment period to obtain the full three-year clearance from them.

The Commission will ensure the compatibility of amateur radio operations and Power Line Carrier (PLC) systems that operate in these bands, and will promote the shared use of these bands. As background, in the larger 9-490 kHz band, electric utilities operate Power Line Carrier (PLC) systems on power transmission lines for communications important to the reliability and security of electric service to the public. The Commission found that the identification of transmission lines are not always readily identifiable and that amateur operators may not be able to determine whether PLC systems operate in the relevant bands on the subject transmission lines. For these reasons, the Commission adopted a notification process to ensure that amateur stations seeking to operate in these bands are located outside of a minimum separation distance.

Specifically, paragraph (g)(1) of Section 97.303 states that amateur stations may operate in the 135.7-137.8 kHz band or in the 472-479 kHz band only at fixed locations that are not within a horizontal distance of one kilometer from a transmission line that conducts a power line carrier (PLC) signal within these bands. Horizontal distance is measured from the station's antenna to the closest point on the transmission line. In paragraph (g)(2) of Section 97.303 states that, prior to commencement of operations in these bands, amateur operators must notify the Utilities Telecom Council (UTC) of their intent by submitting their call signs, intended band or bands of operation, and the coordinates of their antenna's fixed location. Amateur stations will be permitted to commence operations after a 30-day period unless UTC notifies the applicant that its requested location is located within one kilometer of PLC systems operating in the same or overlapping frequencies.

Wireless Telecommunications Bureau Denies PSSI Global Services, LLC Request for Stay of 3.7 GHz Report and Order

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Federal Communications Commission (Commission) denies the Petition for Stay of Report and Order and Order of Proposed Modification Pending Judicial Review of PSSI Global Services, LLC.

DATES: The Order Denying Stay Petition (DA 20-720) was released on July 8, 2020.

ADDRESSES: Federal Communications Commission, 445 12th Street SW, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT:

Anna Gentry of the Wireless Telecommunications Bureau, Mobility Division, at (202) 418-7769 or Anna.Gentry@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Order Denying Stay Petition (DA 20-720) released on July, 2020. The complete text of the Order is available for viewing via the Commission's ECFS website by entering the docket number, GN Docket No. 18-122. The complete text of the Order is also available for public inspection and copying from 8:00 a.m. to 4:30 p.m. Eastern Time (ET) Monday through Thursday or from 8:00 a.m. to 11:30 a.m. ET on Fridays in the FCC Reference Information Center, 445 12th Street SW, Room CY-B402, Washington, DC 20554, telephone 202-488-5300, fax 202-488-5563, or you may contact BCPI at its website: <http://www.BCPIWEB.com>. When ordering documents from BCPI, please provide the appropriate FCC document number, for example, DA 20-720.

Synopsis

On June 17, 2020, PSSI Global Services, LLC (PSSI) filed a Request for Stay Pending Judicial Review of the Commission's Report and Order and Order of Proposed Modification in the above-captioned proceeding. PSSI asked the Commission to stay the C-band auction and transition process while its challenges to the 3.7 GHz Report and Order are pending before the United States Court of Appeals for the District of Columbia. In its Stay Request, PSSI argues that the 3.7 GHz Report and
