I. Obtaining Information and Submitting Comments

A. Obtaining Information

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2015-0225.

- *NRC's Agencywide Documents Access Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov.

- *Attention:* The PDR, where you may examine and order copies of public documents is currently closed. You may submit your request to the PDR via email at pdr.resource@nrc.gov or call 1-800-397-4209 between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

B. Submitting Comments

Please include Docket ID NRC-2015-0225 in your comment submission. The

NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS.

The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

On June 24, 2020, the NRC received three emails (ADAMS Accession Numbers ML20177A319, ML20177A320, and ML20177A318) requesting the comment period for the proposed rule be extended by an additional 6 months. Two requestors state that due to the complexity of the rulemaking and the number of related documents that need to be reviewed, additional time is needed to submit comments. The third requestor states that due to the COVID-19 public health emergency, this is not the time to ask communities, emergency response leaders, and disaster readiness personnel to be commenting on a proposed rule.

The NRC seeks to ensure the public and other stakeholders have a reasonable opportunity to provide the NRC with comments on this proposed action. The NRC acknowledges that the rulemaking documents contain a significant amount of information. Accordingly, the NRC has decided to extend the comment period for the proposed rule for an additional 60 days. A 60-day extension provides a reasonable opportunity for all stakeholders to review these documents and to develop informed comments on these documents.

The NRC is extending the public comment period for the proposed rule until September 25, 2020, to allow more time for members of the public and

other stakeholders to submit their comments.

Dated July 16, 2020.

For the Nuclear Regulatory Commission.

Annette L. Vietti-Cook,

Secretary to the Commission.

SUPPLEMENTARY INFORMATION: On June 5, 2020, DOE published a RFI in the **Federal Register** soliciting public comment on its test procedures for commercial prerinse spray valves. 85 FR 34541. Comments were originally due on July 6, 2020. On June 25, 2020, DOE received a comment from Plumbing Manufacturers International (“PMI”) requesting extension of the comment period by 30 days due to the need for more detailed feedback from its members to inform PMI’s comments.¹ PMI stated that feedback has been difficult to obtain due to the current pandemic and related business impacts and priorities. DOE has reviewed the request and considered the benefit to stakeholders in providing additional time to review the RFI and gather information/data that DOE is seeking. Accordingly, DOE has determined that a re-opening of the comment period is appropriate, and will accept comments until August 20, 2020. DOE will consider any comments received from July 6, 2020 through the end of the comment period to be timely submitted. DOE feels that the additional time provided is adequate for stakeholders to respond to the RFI.
