Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before September 21, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

Needs and Uses: On February 24, 2017, the Commission released the *Part 32 Order*, WC Docket No. 14–130, CC Docket No. 80–286, FCC 17–15, which minimized the compliance burdens imposed by the Uniform System of Accounts (USOA) on price cap and rate-of-return telephone companies, while ensuring that the Commission retains access to the information it needs to fulfill its regulatory duties. The Commission consolidated Class A and Class B accounts by eliminating the current classification of carriers, which divides incumbent LECS into two classes for accounting purposes based on annual revenues. Carriers subject to Part 32's USOA are now only required to keep Class B accounts.

Pursuant to the *Part 32 Order*, price cap carriers may elect to use generally accepted accounting principles (GAAP) for all regulatory accounting purposes if they: (1) Establish an "Implementation Rate Difference" (IRD) which is the difference between pole attachment rates calculated under Part 32 and under GAAP as of the last full year preceding the carrier's initial opting out of Part 32 accounting requirements; and (2) adjust their annually-computed GAAP-based pole attachment rates by the IRD for a period of 12 years after the election. Alternatively, price cap carriers may
