[Docket No. FAA-2020-0654; Airspace Docket No. 20-ASO-17]

RIN 2120-AA66

Proposed Amendment of V-53, V-115, V-140, V-339, T-215, and T-323, and Revocation of V-339 in the Vicinity of Hazard, KY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend three VHF Omnidirectional Range (VOR) Federal airways, V-53, V-115, and V-140; amend two Area Navigation (RNAV) T-routes, T-215 and T-323; and remove one VOR Federal airway, V-339, in the vicinity of Hazard, KY. The Air Traffic Service (ATS) route modifications are necessary due to the planned decommissioning of the VOR portion of the Hazard, KY, VOR/Distance Measuring Equipment (VOR/DME) navigation aid (NAVAID) which provides navigation guidance for portions of the affected ATS routes. The Hazard VOR is being decommissioned as part of the FAA's VOR Minimum Operational Network (MON) program.

SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the route structure as necessary to preserve the safe and efficient flow of air traffic within the National Airspace System (NAS).

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019. FAA Order 7400.11D is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11D lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

The FAA is planning decommissioning activities for the VOR portion of the Hazard, KY, VOR/DME in February, 2021. The Hazard VOR is a candidate VOR identified for discontinuance by the FAA's VOR MON program and listed in the final policy statement notice, "Provision of Navigation Services for the Next Generation Air Transportation System (NextGen) Transition to Performance-Based Navigation (PBN) (Plan for Establishing a VOR Minimum Operational Network)," published in the **Federal Register** of July 26, 2016 (81 FR 48694), Docket No. FAA-2011-1082.

Although the VOR portion of the Hazard, KY, VOR/DME is planned for decommissioning, the co-located DME portion of the NAVAID is being retained to support Next Generation Air Transportation System (NextGen) PBN flight procedure requirements.

The ATS route dependencies to the Hazard VOR/DME are VOR Federal airways V-53, V-115, V-140, and V-339. With the planned decommissioning of the VOR portion of the Hazard VOR/DME, the remaining ground-based NAVAID coverage in the areas is insufficient to enable the continuity of the affected VOR Federal airways. As such, proposed modifications to the affected VOR Federal airways would result in gaps in those airways. To overcome the airway gaps, instrument flight rules (IFR) traffic could use adjacent ATS routes, including V-35, V-97, V-178, V-310, and V-493, or receive air traffic control (ATC) radar vectors to fly through or circumnavigate the affected area. IFR pilots equipped with RNAV PBN capabilities could also navigate point to point using the existing fixes that will remain in place to support continued operations through the affected area. Visual flight rules (VFR) pilots who elect to navigate via the airways through the affected area could also take advantage of the air traffic services previously listed.

Additionally, the FAA proposes to extend RNAV routes T-215 and T-323 through the affected area to continue supporting enroute airspace users, as well as ongoing FAA NextGen efforts to transition the NAS to performance-based navigation. Minor editorial amendments to the existing T-215 and T-323 descriptions would also be made, but would not change the existing routes' structure, operational use, or charted depiction.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying VOR Federal airways V-53, V-115, and V-140; modifying RNAV routes T-215 and T-323; and removing VOR Federal airway V-339. The planned decommissioning of the VOR portion of the Hazard, KY, VOR/DME NAVAID has made this action necessary. The proposed VOR Federal airway changes are outlined below.

V-53: V-53 currently extends between the Charleston, SC, VOR/Tactical Air Navigation (VORTAC) and the Brickyard, IN, VOR/DME. The airspace within R-3401B is excluded. The FAA proposes to remove the airway segment overlying the Hazard, KY, VOR/DME between the Holston

Mountain, TN, VORTAC and the Lexington, KY, VOR/DME. The unaffected portions of the existing airway would remain as charted.

V-115: V-115 currently extends between the Crestview, FL, VORTAC and the Parkersburg, WV, VORTAC. The FAA proposes to remove the airway segment overlying the Hazard, KY, VOR/DME between the Volunteer, TN, VORTAC and the Charleston, WV, VORTAC. The unaffected portions of the existing airway would remain as charted.

V-140: V-140 currently extends between the Panhandle, TX, VORTAC and the Casanova, VA, VORTAC. The FAA proposes to remove the airway segment overlying the Hazard, KY, VOR/DME between the London, KY, VOR/DME and the Bluefield, WV, VOR/DME. The unaffected portions of the existing airway would remain as charted.

V-339: V-339 currently extends between the Hazard, KY, VOR/DME and the Falmouth, KY, VOR/DME. The FAA proposes to remove the airway in its entirety.

The proposed RNAV T-route changes are outlined below.

T-215: T-215 currently extends between the Lexington, KY, VOR/DME and the GAMKE, IN, waypoint (WP). The FAA proposes to extend the route southeastward from the Lexington, KY, VOR/DME to the Holston Mountain, TN, VORTAC. Additionally, the type of facility for Lexington, KY, is corrected from "VORTAC" to "VOR/DME" and the geographic coordinates of each route point are updated to be expressed in degrees, minutes, seconds, and hundredths of a second.

T-323: T-323 currently extends between the CROCS, GA, WP and the HIGGI, NC, WP. The FAA proposes to extend the route northward from the HIGGI, NC, WP to the Hazard, KY, DME. Additionally, the geographic coordinates of each route point are updated to be expressed in degrees, minutes, seconds, and hundredths of a second.

All NAVAID radials in the VOR Federal airway descriptions below are unchanged and stated in True degrees.

VOR Federal airways are published in paragraph 6010(a) and RNAV T-routes are published in paragraph 6011 of FAA Order 7400.11D, dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in 14 CFR 71.1. The ATS routes listed in this document would be subsequently published in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is

published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
