

modified certain of its requirements for serving documents containing business proprietary information, until further notice.¹⁶

Pursuant to 19 CFR 351.310(c), any interested party may request a hearing within 30 days of the publication of this notice in the **Federal Register**. If a hearing is requested, Commerce will notify interested parties of the hearing date and time to be determined.

Interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Enforcement and Compliance, filed electronically via ACCESS within 30 days after the date of publication of this notice. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of hearing participants; and (3) a list of the issues to be discussed in the hearing. Issues raised in the hearing will be limited to those raised in the respective case and rebuttal briefs.

We intend to issue the final results of this administrative review, including the results of our analysis of issues raised by the parties in the written comments, within 120 days of publication of these preliminary results in the **Federal Register**, unless otherwise extended.¹⁷

Assessment Rates

Upon issuance of the final results, Commerce will determine, and CBP shall assess, antidumping duties on all appropriate entries in accordance with 19 CFR 351.212(b)(1). We will calculate importer-specific assessment rates equal to the ratio of the total amount of dumping calculated for examined U.S. sales of merchandise imported by a particular importer to the total entered value of the reported U.S. sales in accordance with 19 CFR 351.212(b)(1).¹⁸ Where the respondent's weighted-average dumping margin is zero or *de minimis*, or an importer-specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.¹⁹ The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise under review

¹⁶ See *Temporary Rule*.

¹⁷ See section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(1).

¹⁸ In these preliminary results, Commerce applied the assessment rate calculation method adopted in *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Duty Proceedings; Final Modification*, 77 FR 8101 (February 14, 2012) (*Final Modification for Reviews*).

¹⁹ See *Final Modification for Reviews*, 77 FR at 8103; see also 19 CFR 351.106(c)(2).

and for future cash deposits of estimated antidumping duties, where applicable.²⁰

For entries of subject merchandise during the POR produced by the respondent for which it did not know that its merchandise was destined for the United States, we will instruct CBP to liquidate such entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

We intend to issue liquidation instructions to CBP 15 days after the date of publication of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of LWRPT from Turkey entered, or withdrawn from warehouse, for consumption on or after the date of publication of the notice of the final results of this administrative review, as provided for by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for Noksel will be equal to the weighted-average dumping margin established in the final results of this review (except, if the rate is zero or *de minimis*, then no cash deposit will be required); (2) for merchandise exported by a producer or exporter not covered in this review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the producer or exporter was included; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation, but the producer is, the cash deposit rate will be the rate established in the most recently completed segment of the proceeding for the producer of the merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 27.04 percent *ad valorem*, the all-others rate established in the less-than-fair-value investigation.²¹ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with

²⁰ See section 751(a)(2)(C) of the Act.

²¹ See *Notice of Final Determination of Sales at Less Than Fair Value: Light-Walled Rectangular Pipe and Tube from Turkey*, 73 FR 19814 (April 11, 2008).

this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

These preliminary results of administrative review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(h)(1).

Dated: July 20, 2020.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

Appendix—List of Topics Discussed in the Preliminary Decision Memorandum

- I. Summary
- II. Background
- III. Scope of the Order
- IV. Partial Rescission of Review
- V. Preliminary Determination of No Shipments
- VI. Discussion of the Methodology
- VI. Recommendation

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Evaluation of National Estuarine Research Reserve

AGENCY: Office for Coastal Management (OCM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of public meeting and opportunity to comment.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA), Office for Coastal Management will hold a public meeting to solicit comments on the performance evaluation of the Lake Superior National Estuarine Research Reserve.

DATES: NOAA will consider all written comments received by September 18, 2020. The virtual public meeting will be held on Wednesday September 9, 2020 at 4:00 p.m. CDT.

ADDRESSES: You may submit comments on the coastal management program and national estuarine research reserve NOAA intends to evaluate by emailing Ralph Cantral, Senior Advisor, NOAA Office for Coastal Management at Ralph.Cantral@noaa.gov. Comments that the Office for Coastal Management receives are considered part of the public record and may be publicly

accessible. Any personal identifying information (*e.g.*, name, address) submitted voluntarily by the sender may also be publicly accessible. NOAA will accept anonymous comments. To participate in the public meeting Wednesday, September 9, 2020 at 4:00 p.m. CDT, registration is required two hours in advance by 2:00 p.m. CDT.

Registration: http://noaaacsc.adobeconnect.com/lsnerrpublicmeeting/event/event_info.html. You may participate online or by phone. If you would like to provide comment during the public meeting, please select “yes” during the online registration. The line-up of speakers will be based on your date and time of registration.

FOR FURTHER INFORMATION CONTACT: Ralph Cantral, Evaluator, NOAA Office for Coastal Management by phone at (301) 233-2998 or email Ralph.Cantral@noaa.gov. Copies of the previous evaluation findings and reserve’s management plan and site profile may be viewed and downloaded on the internet at <http://coast.noaa.gov/czm/evaluations>. A copy of the evaluation notification letter and most recent progress reports may be obtained upon request by contacting Ralph Cantral.

SUPPLEMENTARY INFORMATION: Section 312 of the Coastal Zone Management Act (CZMA) requires NOAA to conduct periodic evaluations of federally approved state coastal programs and national estuarine research reserves. The process includes one or more public meetings, consideration of written public comments, and consultations with interested Federal, state, and local agencies and members of the public. For the evaluation of the Lake Superior National Estuarine Research Reserve, NOAA will consider the extent to which the state has met the national objectives, adhered to its management plan approved by the Secretary of Commerce, and adhered to the terms of financial assistance under the Coastal Zone Management Act.

When the evaluation is completed, NOAA’s Office for Coastal Management will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings.

Keelin Kuipers,

Deputy Director, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Upcoming Changes to the National Spatial Reference System (NSRS)

AGENCY: The Office of the National Geodetic Survey (NGS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of upcoming changes.

SUMMARY: The National Geodetic Survey (NGS) is in the process of modernizing the National Spatial Reference System (NSRS) and plans to replace all three North American Datum of 1983 (NAD 83) frames and all vertical datums, including the North American Vertical Datum of 1988 (NAVD 88), with four new terrestrial reference frames and one new geopotential datum to which all geodetic coordinates and derived coordinates within the NSRS will be referenced. The new reference frames will rely primarily on Global Navigation Satellite Systems (GNSS), such as the Global Positioning System (GPS), as well as on a gravimetric geoid model resulting from the Gravity for the Redefinition of the American Vertical Datum (GRAV-D) Project. The modernized NSRS will be easier to access and maintain than the existing NSRS, which relies on physical survey marks that deteriorate over time and will result in new, more accurate, time-tagged geodetic coordinates (*i.e.*, latitude, longitude, ellipsoid height, orthometric height, acceleration of gravity, deflections of the vertical, and others) at all geodetic control points within the NSRS. Additionally, coordinates will be estimated within these frames and datum at five-year reference epochs from the time-tagged coordinates, beginning with 2020.00. Initial completion and rollout of the NSRS modernization is expected to occur between 2022 and 2025, with additional support tools and services rolled out in subsequent years.

DATES: The modernization of the NSRS will occur between 2022 and 2025, with the release of additional tools and services occurring between 3 and 5 years later.

ADDRESSES: National Geodetic Survey, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Dr. Dru Smith, NSRS Modernization Manager, by email at dru.smith@noaa.gov, phone at (240) 533-9654, or mail at NOAA/NOS/NGS 1315 East-

West Highway, Silver Spring, MD 20910.

SUPPLEMENTARY INFORMATION: The modernization of the NSRS is designed to improve the accuracy of federal geodetic control. For over 200 years, NGS and its predecessor agencies, dating back to the founding of the Survey of the Coast in 1807, have been the stewards of the geodetic infrastructure—the NSRS—of the United States. As technology and scientific knowledge advance, NGS occasionally modernizes the NSRS. This announcement reflects part of the latest modernization effort.

The last significant modernization of the NSRS resulted in the creation of the original North American Datum of 1983 (54 FR 25318) and the North American Vertical Datum of 1988 (58 FR 34245). These datums were defined before the widespread use of GPS and GNSS and were determined using classical geodetic measurement techniques. Over the years, minor corrections to and expansion of the NSRS occurred; however, no significant update was possible until now. Through modern geodetic surveying technology, extensive data collection initiatives, and advances in scientific knowledge, a more accurate, modern NSRS is possible. The new frames and datum shall be known as the “North American Terrestrial Reference Frame of 2022,” the “Pacific Terrestrial Reference Frame of 2022,” the “Caribbean Terrestrial Reference Frame of 2022,” the “Mariana Terrestrial Reference Frame of 2022,” and the “North American-Pacific Geopotential Datum of 2022,” and may be referred to as “NATRF2022,” “PATRF2022,” “CATRF2022,” “MATRF2022,” and “NAPGD2022,” respectively. In order to accustom users to a time-dependent NSRS, NGS will also be estimating, and providing to the public, coordinates on geodetic control points at five-year reference epochs.

Additional information regarding the modernization of the NSRS may be found at <https://geodesy.noaa.gov/datums/newdatums/index.shtml>.

Authority: Coast and Geodetic Survey Act of 1947, 33 U.S.C. 883a *et seq.*

Juliana P. Blackwell,

Director, National Geodetic Survey, National Ocean Service, National Oceanic and Atmospheric Administration.
