

I agree with the Chief ALJ that “[c]onsiderations of specific and general deterrence militate in favor of revocation.” *Id.* Failing to sanction Respondent in this case would send a message to Respondent and others in the registrant community that Respondent is vindicated, and that his false answer to Liability Question No. 3 is the “benchmark of exactly how candid . . . [one] ever needs to be in providing information to DEA.” *Id.* at 19–20. I decline to create a “perverse incentive on registrants and applicants to withhold requested application information any time where the withheld information may lead to an adverse decision on a DEA registration or renewal application.” *Id.* at 20.

I agree with the former Acting Assistant Administrator of the Diversion Control Division, that Respondent’s proposed Corrective Action Plan provides no basis for me to discontinue or defer this proceeding. Its insufficiencies include Respondent’s failure to accept responsibility, to institute remedial measures, and to convince me to entrust him with a registration. 21 U.S.C. 824(c)(3).

Accordingly, I shall order the sanctions the Government requested, as contained in the Order below.

Order

Pursuant to 28 CFR 0.100(b) and the authority vested in me by 21 U.S.C. 824(a), I hereby revoke DEA Certificates of Registration BS5000411 issued to Frank Joseph Stirlacci, M.D. Pursuant to 28 CFR 0.100(b) and the authority vested in me by 21 U.S.C. 823(f), I further hereby deny any pending application of Frank Joseph Stirlacci, M.D., to renew or modify this registration, as well as any other pending application of Frank Joseph Stirlacci, M.D. for registration in Indiana. This Order is effective August 26, 2020.

Timothy J. Shea,

Acting Administrator.

BILLING CODE 4410–09–P

DEPARTMENT OF JUSTICE

[OMB Number 1110–0057]

Agency Information Collection Activities; Proposed eCollection eComments Requested; Extension of a Currently Approved Collection; Uniform Crime Reporting Data Collection Instrument Pretesting and Burden Estimation Generic Clearance

AGENCY: Federal Bureau of Investigation, Department of Justice.

ACTION: 60-day notice.

SUMMARY: The Department of Justice (DOJ), Federal Bureau of Investigation (FBI), Criminal Justice Information Services (CJIS) Division, will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. **DATES:** Comments are encouraged and will be accepted for 60 days until September 25, 2020.

FOR FURTHER INFORMATION CONTACT:

All comments, suggestions, or questions regarding additional information, to include obtaining a copy of the proposed information collection instrument with instructions, should be directed to Mrs. Amy C. Blasher, Unit Chief, Federal Bureau of Investigation, CJIS Division, Module E–3, 1000 Custer Hollow Road, Clarksburg, West Virginia 26306; telephone number (304) 625–3566.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

—Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Federal Bureau of Investigation, including whether the information will have practical utility;

—Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

—Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and

—Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submission of responses.

Overview of this information collection:

1. *Type of Information Collection:* Extension of a currently approved collection.

2. *The Title of the Form/Collection:* UCR Data Collection Instrument Pretesting and Burden Estimation Generic Clearance

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number is 1110–0057. The applicable component within the DOJ is the CJIS Division, in the FBI.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:*

5. *Primary:* Federal, state, county, local, and tribal law enforcement agencies

Abstract: This clearance provides the UCR Program the ability to conduct pretests which evaluate the validity and reliability of information collection instruments and determine the level of burden state and local agencies have in reporting crime data to the FBI. The Paperwork Reduction Act only allows for nine or fewer respondents in the collection of information, such as pretesting activities. This clearance request expands the pretesting sample to 350 people for each of the twelve information collections administered by the UCR Program. Further, the clearance will allow for a brief 5-minute cost and burden assessment for the 18,000 law enforcement agencies participating in the UCR Program.

An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: UCR Participation Burden Estimation: There are approximately 18,000 law enforcement respondents; calculated estimates indicate five minutes per submission. UCR Form Pretesting: There are approximately 350 respondents; calculated estimates indicate one hour per pretest.

6. *An estimate of the total public burden (in hours) associated with the collection:* There are approximately 1,850 hours, annual burden, associated with this information collection.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: July 22, 2020.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410-02-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219-0142]

Proposed Extension of Information Collection; Sealing of Abandoned Areas

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Sealing of Abandoned Areas.

DATES: All comments must be received on or before September 25, 2020.

ADDRESSES: You may submit comment as follows. Please note that late, untimely filed comments will not be considered.

Electronic Submissions: Submit electronic comments in the following way:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments for docket number MSHA-2020-0023. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket, with no changes. Because your comment will be made public, you are responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as your or anyone else's Social Security number or confidential business information.

- If you want to submit a comment with confidential information that you

do not wish to be made available to the public, submit the comment as a written/paper submission.

Written/Paper Submissions: Submit written/paper submissions in the following way:

- *Mail/Hand Delivery:* Mail or visit DOL-MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202-5452.

- MSHA will post your comment as well as any attachments, except for information submitted and marked as confidential, in the docket at <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Roslyn B. Fontaine, Deputy Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); (202) 693-9440 (voice); or (202) 693-9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal or other mines.

MSHA's standards for sealing abandoned areas in underground coal mines include requirements addressing the design and construction of new seals and the examination, maintenance, and repair of all seals.

Section 75.335(b) sets forth procedures for the approval of seal design applications.

Section 75.335(c) requires the submission and certification of information for seal installation.

Section 75.336(a)(2) requires the mine operator to evaluate the atmosphere in the sealed area to determine whether sampling through the sampling pipes in seals provides appropriate sampling locations of the sealed area. The mine operator will make an evaluation for each area that has seals.

Section 75.336(c) requires that when a sample is taken from the sealed atmosphere with seals of less than 120 psi and the sample indicates that the oxygen concentration is 10 percent or greater and methane is between 4.5 percent and 17 percent, the mine operator must immediately take an additional sample and then immediately notify the District Manager.

Section 75.336(e) requires a certified person to record each sampling result, including the location of the sampling points and the oxygen and methane concentrations. Also, any hazardous conditions found must be corrected and recorded in accordance with existing section 75.363.

Section 75.337(c)(1)–(c)(5) requires a certified person to perform several tasks during seal construction and repair and certify that the tasks were done in accordance with the approved ventilation plan. In addition, a mine foreman or equivalent mine official must countersign the record.

Section 75.337(d) requires a senior mine management official, such as a mine manager or superintendent, to certify that the construction, installation, and materials used were in accordance with the approved ventilation plan.

Section 75.337(e) requires the mine operator to notify MSHA of certain activities concerning the construction of seals.

Section 75.337(e)(1) requires the mine operator to notify the District Manager between 2 and 14 days prior to commencement of seal construction.

Section 75.337(e)(2) requires the mine operator to notify the District Manager, in writing, within 5 days of completion of a set of seals and provide a copy of the certifications required in section 75.337(d).

Section 75.337(e)(3) requires the mine operator to submit a copy of the quality control test results for seal material properties specified by section 75.335 within 30 days of completion of such tests.

Section 75.337(g)(3) requires the mine operator to label sampling pipes to indicate the location of the sampling point when the mine operator installs more than one sampling pipe through a seal.

Section 75.338(a) requires mine operators to certify that persons conducting sampling were trained in the use of appropriate sampling equipment, techniques, the location of sampling points, the frequency of sampling, the size and condition of sealed areas, and the use of continuous monitoring systems, if applicable, before they conduct sampling, and annually thereafter.

Section 75.338(b) requires mine operators to certify that miners constructing or repairing seals, designated certified persons, and senior mine management officials were trained prior to constructing or repairing a seal and annually thereafter.
