However, because the petitioner did not indicate whether it accounts for substantially all of the domestic production of solar products, we are not combining this notice of initiation with a preliminary determination, pursuant to 19 CFR 351.221(c)(3)(ii), but will provide interested parties with an opportunity to address the issue of domestic industry support with respect to this requested partial revocation of the *Orders*, as explained below. After examining comments, if any, concerning domestic industry support, we will issue the preliminary results of these CCRs.

Public Comment

Interested parties are invited to provide comments and/or factual information regarding these CCRs, including comments on industry support and the proposed partial revocation language. Comments and factual information may be submitted to Commerce no later than ten days after the date of publication of this notice. Rebuttal comments and rebuttal factual information may be filed with Commerce no later than seven days after the comments and/or factual information are filed.⁸ Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice.⁹ All submissions must be filed electronically using Enforcement and Compliance's AD and CVD Centralized Electronic Service System (ACCESS).¹⁰ An electronically filed document must be received successfully in its entirety by ACCESS, by 5 p.m. Eastern Time on the due dates set forth in this notice.

Preliminary and Final Results of the Review

Commerce intends to publish in the *Federal Register* a notice of the preliminary results of these AD and CVD CCRs in accordance with 19 CFR 351.221(b)(4) and (c)(3)(i), which will set forth Commerce's preliminary factual and legal conclusions. Commerce will issue its final results of these CCRs in accordance with the time limits set forth in 19 CFR 351.216(e).

⁸ Submissions of rebuttal factual information must comply with 19 CFR 351.301(b)(2); see also *Temporary Rule Modifying AD/CVD Service Requirements Due to COVID-19; Extension of Effective Period*, 85 FR 41363 (July 10, 2020) (*Temporary Rule*).

Scope of the Order

The products covered by this order are magnesia carbon bricks from China. For a full description of the scope, see the Preliminary Decision Memorandum.⁵

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213.

Preliminary Determination of No Shipments

Based on the available record information, Commerce preliminarily determines that Fedmet had no shipments during the POR. For additional information regarding this determination, see the Preliminary Decision Memorandum. Consistent with our assessment practice in non-market economy (NME) administrative reviews, Commerce is not rescinding this review for Fedmet, but intends to complete the review and issue appropriate instructions to CBP based on the final results of the review.⁶

Separate Rates

Because no other company under review submitted an SRA or SRC, Commerce preliminarily determines that these companies have not demonstrated their eligibility for a separate rate. For additional information, see the Preliminary Decision Memorandum.

China-Wide Entity

Commerce's policy regarding conditional review of the China-wide entity applies to this administrative review.⁷ Under this policy, the China-wide entity will not be under review unless a party specifically requests, or Commerce self-initiates, a review of the entity. Because no party requested a review of the China-wide entity, and we did not self-initiate a review, the China-wide entity rate (*i.e.*, 236.00 percent) is not subject to change as a result of this review.⁸ Aside from Fedmet, Commerce considers all other companies for which

Public Comment

In accordance with 19 CFR 351.309(c), case briefs or other written comments may be submitted to the Assistant Secretary for Enforcement and Compliance no later than 30 days after the date of publication of these preliminary results, unless the Secretary alters the time limit. Rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than seven days after the deadline date for case briefs.¹⁰ Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this review are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities. Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice.¹¹

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party's name, address, and telephone number, the number of participants, whether any participant is a foreign national, and a list of the issues to be discussed. Hearing requests should contain the following information: (1) The party's name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. Oral presentations at the hearing will be limited to issues raised in the briefs. If a request for a hearing is made, Commerce intends to hold the hearing at a date and time to be determined.¹²

Assessment Rates

Upon issuance of the final results of this review, Commerce will determine, and CBP shall assess, antidumping duties on all appropriate entries of subject merchandise covered by this review.¹³ We intend to instruct CBP to

liquidate entries containing subject merchandise exported by the companies under review that we determine in the final results to be part of the China-wide entity at the China-wide rate of 236.00 percent. Commerce intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of this review in the **Federal Register**.¹⁴

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this review for shipments of subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by sections 751(a)(2)(C) of the Act: (1) For previously-investigated or reviewed Chinese and non-Chinese exporters not listed above that received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the existing exporter-specific rate; (2) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be that for the China-wide entity (*i.e.*, 236.00 percent); and (3) for all non-Chinese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a reminder to importers of their responsibility under 19 CFR 315.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these preliminary results in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.213(h) and 351.221(b)(4).

Endangered and Threatened Wildlife and Plants; Notice of 12-Month Finding on a Petition To List the Dwarf Seahorse as Threatened or Endangered Under the Endangered Species Act

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of 12-month finding and availability of status review document.

SUMMARY: We, NMFS, announce a 12-month finding and listing determination on a petition to list the dwarf seahorse (*Hippocampus zosterae*) as threatened or endangered under the Endangered Species Act (ESA). We have completed a status review of the dwarf seahorse in

response to a petition submitted by the Center for Biological Diversity. After reviewing the best scientific and commercial data available, including the Status Review Report, we have determined the species does not warrant listing at this time. While the species has declined in abundance, it still occupies its historical range, and population trends indicate subpopulations are stable or increasing in most locations. We conclude that the dwarf seahorse is not currently in danger of extinction throughout all or a significant portion of its range and is not likely to become so within the foreseeable future.

DATES: This finding was made on July 28, 2020.

ADDRESSES: The dwarf seahorse Status Review Report associated with this determination and its references are available upon request from the Species Conservation Branch Chief, Protected Resources Division, NMFS Southeast Regional Office, 263 13th Avenue South, St. Petersburg, FL 33701, Attn: Dwarf Seahorse 12-month Finding. The report and references are also available electronically at: https://www.cio.noaa.gov/services_programs/prplans/ID411.html.

FOR FURTHER INFORMATION CONTACT: Adam Brame, NMFS Southeast Regional Office, (727) 209-5958; or Celeste Stout, NMFS Office of Protected Resources, 301-427-8436.

SUPPLEMENTARY INFORMATION:

Background

On April 6, 2011, we received a petition from the Center for Biological Diversity to list the dwarf seahorse as threatened or endangered under the ESA. The petition asserted that (1) the present or threatened destruction, modification, or curtailment of habitat or range; (2) overutilization for commercial, recreational, scientific, or educational purposes; (3) inadequacy of existing regulatory mechanisms; and (4) other natural or manmade factors are affecting its continued existence and contributing to the dwarf seahorse's imperiled status. The petitioner also requested that critical habitat be designated for this species concurrent with listing under the ESA.

On May 4, 2012, NMFS published a 90-day finding for dwarf seahorse with our determination that the petition presented substantial scientific and commercial information indicating that the petitioned action may be warranted (77 FR 26478). We also requested scientific and commercial information from the public to inform a status review of the species, as required by
