SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of information” is defined in the PRA and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. The PRA requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, ACL is publishing a notice of the proposed collection of information set forth in this document. the methodology and assumptions used to determine burden estimates; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques when appropriate, and other forms of information technology.

The purpose of this data collection is to collect sub-award data from grantees, including agency name, address, and annual federal funds received. This is a new data collection requiring State SHIP grantees to provide the amount of federal funds provided annually to each sub-contractor and sub-grantee that are delivering SHIP services. The data collected will be will be electronically posted on the ACL website to educate the network on who the SHIP state sub-recipients are and how much money they are receiving.

SHIP grantees are located in each of the 50 states, the District of Columbia, Puerto Rico, Guam and the U.S. Virgin Islands. The respondents for this data collection are grantees who meet with Medicare beneficiaries and older adults’ in-group settings and in one-on-one sessions to educate them on Medicare.

The proposed data collection tools may be found on the ACL website for review at <https://www.acl.gov/about-acl/public-input>.
