

- Background and experiences that would contribute to the diversity of scientific viewpoints on the committee, including professional experiences in government, labor, public health, public interest, animal protection, industry, and other groups, as the EPA Administrator determines to be advisable (*e.g.*, geographical location; social and cultural backgrounds; and professional affiliations);

- Skills and experience working on committees and advisory panels including demonstrated ability to work constructively and effectively in a committee setting;

- Absence of financial conflicts of interest or the appearance of a loss of impartiality;

- Willingness to commit adequate time for the thorough review of materials provided to the committee; and

- Availability to participate in committee meetings.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2017-0628, EPA-HQ-OPP-2015-0715, EPA-HQ-OPP-2017-0440, EPA-HQ-OPP-2017-0687, EPA-HQ-OPP-2017-0619, EPA-HQ-OPP-2016-0108, and EPA-HQ-OPP-2016-0630; FRL-10010-29]

### Agency Information Collection Activities; Proposed Renewal of Seven Existing Information Collection Requests (ICRs) Undergoing Consolidation; Comment Request

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (PRA), this document announces that EPA is planning to submit renewal requests for seven currently approved Information Collection Requests (ICRs) to the Office of Management and Budget (OMB). The seven renewal ICRs, which are identified in Unit IV, by their corresponding titles, EPA ICR numbers, OMB Control numbers, and related docket identification (ID) numbers, are being consolidated under a separate but parallel effort. To ensure continuity of the approved collection activities, EPA did not make any changes to the

currently approved ICRs for the purpose of these renewals. As required by the PRA, before submitting these ICRs to OMB for review and approval, EPA is soliciting comments on specific aspects of the information collection activities that are summarized in this document. The ICRs and accompanying material are available for public review and comment in the relevant dockets identified in this document for each ICR.

**DATES:** Comments must be received on or before October 16, 2020.

**ADDRESSES:** Submit your comments, identified by the docket identification (ID) number for the corresponding ICR as identified in Unit IV, of this document, using the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit <https://www.epa.gov/dockets>.

**FOR FURTHER INFORMATION CONTACT:** Carolyn Siu, Field and External Affairs Division, 7650P, Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (703) 347-0159; email address: [siu.carolyn@epa.gov](mailto:siu.carolyn@epa.gov).

### SUPPLEMENTARY INFORMATION:

#### I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

#### II. What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Submit your comments by the deadline identified under **DATES**.

6. In the subject line on the first page of your response, identify the docket ID number that is assigned to the ICR action. You may also provide the ICR title and related EPA and OMB numbers. For the ICRs that are the subject of this notice, please refer to the information in Unit IV.

#### III. What do I need to know about the PRA?

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information subject to PRA approval unless it displays a currently valid OMB control number. The OMB control numbers for the EPA regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the preamble of the final rule, are further displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instruments or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in a list at 40 CFR 9.1.

As used in the PRA context, burden is defined in 5 CFR 1320.3(b).

#### IV. Which ICRs are being renewed?

EPA is planning to submit the seven ICR renewal requests to OMB for review and approval under PRA that are identified in this unit, which provides

the ICR titles and corresponding ICR, OMB and docket ID numbers. This unit also provides a brief summary of the information collection activity and the Agency's estimated burden and costs. The Supporting Statement for each ICR, a copy of which is available in the corresponding docket, provides a more detailed explanation of the collection activities and the Agency's estimates.

Please note that EPA intends to request the renewal of the ICRs without any substantive changes to what is currently approved because these seven ICRs are being consolidated in a separate effort. Ensuring the continuity of the existing approvals during the consolidation these ICRs is an administrative action that is intended to focus EPA and the public on the consolidation. EPA will announce and seek comment on the consolidated ICR later this summer.

*A. Docket ID Number EPA-HQ-OPP-2017-0628*

*Title:* Experimental Use Permits (EUPs) for Pesticides.

*ICR number:* EPA ICR No. 0276.17.

*OMB control number:* OMB Control No. 2070-0040.

*ICR status:* The approval for this ICR is scheduled to expire on February 28, 2021.

*Abstract:* The information collection provides EPA with the data necessary to determine whether to issue an experimental use permit (EUP) under section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). FIFRA requires that before a pesticide product may be distributed or sold in the U.S., it must be registered by EPA. However, FIFRA section 5 authorizes EPA to issue an EUP to allow pesticide companies to temporarily ship pesticide products for experimental use for the purpose of gathering data necessary to support the application for registration of a pesticide product. In general, EUPs are issued either for a pesticide not registered with the Agency or for a new use of a registered pesticide.

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 32.8–147 hours per response. The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

*Respondents/Affected entities:*

Entities potentially affected by this ICR include Pesticide and other Agricultural Chemical Manufacturing.

*Estimated total number of potential respondents:* 31.

*Frequency of response:* On occasion.  
*Estimated total annual burden hours:* 567 hours.

*Estimated total annual costs:* \$37,497. This includes an estimated burden cost of \$37,497 and an estimated cost of \$0 for non-burden hour paperwork costs, e.g., investment or maintenance and operational costs.

*Changes in the estimates from the last approval:* There are no changes in the estimates.

*B. Docket ID Number EPA-HQ-OPP-2015-0715*

*Title:* Tolerance Petitions for Pesticides on Food or Feed Crops and New Food Use Inert Ingredients.

*ICR number:* EPA ICR No. 0597.13.

*OMB control number:* OMB Control No. 2070-0024.

*ICR status:* The approval for this ICR is scheduled to expire on April 30, 2022.

*Abstract:* The use of pesticides to increase crop production often results in pesticide residues in or on the crop. To protect public health from unsafe pesticide residues, EPA sets limits on the nature and level of residues permitted pursuant to section 408 of the Federal Food, Drug and Cosmetic Act (FFDCA). A pesticide may not be used on food or feed crops unless the Agency has established a tolerance (maximum residue limit) for the pesticide residues on that crop or established an exemption from the requirement to have a tolerance.

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 1,726–1,739 hours per response. The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

*Respondents/Affected entities:*

Entities potentially affected by this ICR include individuals or entities engaged in activities related to the registration of a pesticide product and establishments primarily engaged in administrative management and general management consulting services.

*Estimated total number of potential respondents:* 165.

*Frequency of response:* On occasion.

*Estimated total annual burden hours:* 285,128 hours.

*Estimated total annual costs:* \$27,475,223. This includes an estimated burden cost of \$27,475,223 and an estimated cost of \$0 for non-burden hour paperwork costs, e.g., investment or maintenance and operational costs.

*Changes in the estimates from the last approval:* There are no changes in the estimates.

*C. Docket ID Number EPA-HQ-OPP-2017-0440*

*Title:* Plant-Incorporated Protectants; CBI Substantiation and Adverse Effects Reporting.

*ICR number:* EPA ICR No. 1693.10.

*OMB control number:* OMB Control No. 2070-0142.

*ICR status:* The approval for this ICR is scheduled to expire on February 28, 2021.

*Abstract:* EPA is responsible for the regulation of pesticides as authorized by FIFRA. Prior to EPA granting a registration, the manufacturer of the pesticide must demonstrate to the Agency that the use of the pesticide product will not result in any unreasonable adverse effects to humans or the environment. EPA is also responsible under FFDCA for establishing a tolerance or exemption from the requirement of a tolerance for pesticide residues on food or feed.

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 7.0–21.5 hours per response. The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

*Respondents/Affected entities:*

Entities potentially affected by this ICR include pesticides and other agricultural chemical manufacturing, research and development in the physical, engineering, and life sciences, biological products (except diagnostic) manufacturing, colleges, universities, and professional schools, farm supplies wholesalers, flower, nursery stock, and florists' supplies (wholesalers).

*Estimated total number of potential respondents:* 25.

*Frequency of response:* On occasion.

*Estimated total annual burden hours:* 518 hours.

*Estimated total annual costs:* \$41,892. This includes an estimated burden cost of \$41,892 and an estimated cost of \$0 for non-burden hour paperwork costs, e.g., investment or maintenance and operational costs.

*Changes in the estimates from the last approval:* There are no changes in the estimates.

*D. Docket ID Number EPA-HQ-OPP-2017-0687*

*Title:* Submission of Unreasonable Adverse Effects Information under FIFRA Section 6(a)(2).

*ICR number:* EPA ICR No. 1204.14.

*OMB control number:* OMB Control No. 2070-0039.

*ICR status:* The approval for this ICR is scheduled to expire on February 28, 2021.

*Abstract:* FIFRA section 6(a)(2) requires pesticide registrants to submit information to the Agency which may be relevant to the balancing of the risks and benefits of a pesticide product. The statute requires the registrant to submit any factual information that it acquires regarding adverse effects associated with its pesticidal products, and it is up to the Agency to determine whether or not that factual information constitutes an unreasonable adverse effect. In order to limit the amount of less meaningful information that might be submitted to the Agency, the EPA has limited the scope of factual information that the registrant must submit. The Agency's regulations at 40 CFR part 159 provide a detailed description of the reporting obligations of registrants under FIFRA section 6(a)(2).

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2.37–3.00 hours per response. The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

*Respondents/Affected entities:* Entities potentially affected by this ICR include those in pesticide and other agricultural chemical manufacturing.

*Estimated total number of potential respondents:* 1,452.

*Frequency of response:* On occasion.

*Estimated total annual burden hours:* 301,118 hours.

*Estimated total annual costs:* \$ 19,999,815. This includes an estimated burden cost of \$19,999,815 and an estimated cost of \$0 for non-burden hour paperwork costs, e.g., investment or maintenance and operational costs.

*Changes in the estimates from the last approval:* There are no changes in the estimates.

*E. Docket ID Number EPA-HQ-OPP-2017-0619*

*Title:* Pesticide Program Public Sector Collections (FIFRA Sections 18 & 24(c)).

*ICR number:* EPA ICR No. 2311.04.

*OMB control number:* OMB Control No. 2070-0182.

*ICR status:* The approval for this ICR is scheduled to expire on February 28, 2021.

*Abstract:* This ICR covers the paperwork burden under the PRA that is associated with two types of pesticide registration requests made by States, U.S. Territories, or Federal agencies. Specifically, this ICR covers emergency exemption requests, which allow for an unregistered use of a pesticide, and State registrations of a pesticide use to meet a special local need (SLN). FIFRA section 18 authorizes EPA to grant

emergency exemptions to States, U.S. Territories, and Federal agencies to allow an unregistered use of a pesticide for a limited time if EPA determines that emergency conditions exist. FIFRA Section 18 requests include unregistered pesticide use exemptions for specific agricultural, public health, quarantine and crisis purposes. FIFRA Section 24(c) authorizes any particular State to register additional uses of a federally registered pesticide for distribution and use within that state to meet a SLN.

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 39–99 hours per response. The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

*Respondents/Affected entities:* Entities potentially affected by this ICR include States and Federal government agencies and pesticide, fertilizer, and other agricultural chemical manufacturing.

*Estimated total number of potential respondents:* 283.

*Frequency of response:* On occasion.

*Estimated total annual burden hours:* 25,753 hours.

*Estimated total annual costs:* \$1,829,103. This includes an estimated burden cost of \$1,829,103 and an estimated cost of \$0 for non-burden hour paperwork costs, e.g., investment or maintenance and operational costs.

*Changes in the estimates from the last approval:* There are no changes in the estimates.

*F. Docket ID Number EPA-HQ-OPP-2016-0108*

*Title:* Notice of Supplemental Distribution of a Registered Pesticide Product.

*ICR number:* EPA ICR No. 0278.13.

*OMB control number:* OMB Control No. 2070-0044.

*ICR status:* The approval for this ICR is scheduled to expire on October 31, 2021.

*Abstract:* This information collection activity notifies the EPA of supplemental distribution of registered pesticide products. As mandated by FIFRA, as amended, EPA is responsible for the regulation of pesticides. FIFRA section 3(e) (7 U.S.C. 136a(e)) allows pesticide products with the same formulation, label claims, and manufacturer as a registered product to be distributed under the same registration as the basic product. Pesticide registrants may distribute or sell registered pesticides under a different product name in addition to the registered name, or under a different

entity's name and address. Such distribution and sale is termed "supplemental distribution" and the product is termed a "distributor product." EPA requires pesticide registrants who enter into supplemental distribution agreements with other companies to submit EPA Form 8570-5, Notice of Supplemental Distribution of a Registered Pesticide Product. Supplemental registrations are only an extension of a currently federally registered pesticide product.

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.32 hours per response. The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

*Respondents/Affected entities:* Entities potentially affected by this ICR include those in pesticide and other agricultural chemical manufacturing.

*Estimated total number of potential respondents:* 1,885.

*Frequency of response:* On occasion.

*Estimated total annual burden hours:* 603 hours.

*Estimated total annual costs:* \$54,463. This includes an estimated burden cost of \$54,463 and an estimated cost of \$0 for non-burden hour paperwork costs, e.g., investment or maintenance and operational costs.

*Changes in the estimates from the last approval:* There are no changes in the estimates.

*G. Docket ID Number EPA-HQ-OPP-2016-0630*

*Title:* Compliance Requirement for Child-Resistant Packaging.

*ICR number:* EPA ICR No. 0616.13.

*OMB control number:* OMB Control No. 2070-0052.

*ICR status:* The approval for this ICR is scheduled to expire on November 30, 2021.

*Abstract:* This information collection program is designed to provide EPA with assurances that the packaging of pesticide products sold and distributed to the general public in the United States meets standards set forth by the Agency pursuant to FIFRA. Registrants must certify to the Agency that the pesticide packaging or device regulated by this Act meets these standards.

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 3,535 hours per response. The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

*Respondents/Affected entities:* Entities potentially affected by this ICR include pesticide and other agricultural chemical manufacturing, other chemical and allied products merchant wholesalers, exterminating and pest control services.

*Estimated total number of potential respondents:* 31.

*Frequency of response:* On occasion.

*Estimated total annual burden hours:* 3,535 hours.

*Estimated total annual costs:* \$249,292. This includes an estimated burden cost of \$249,292 and an estimated cost of \$0 for non-burden hour paperwork costs, e.g., investment or maintenance and operational costs.

*Changes in the estimates from the last approval:* There are no changes in the estimates.

#### V. What is the next step in the process for these ICRs?

EPA will consider the comments received and amend the individual ICRs as appropriate before submitting the final ICR packages to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of these ICRs to OMB and the opportunity for the public to submit additional comments for OMB consideration. If you have any questions about any of these ICRs or the approval process in general, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

**Authority:** 44 U.S.C. 3501 *et seq.*

Dated: July 31, 2020.

**Alexandra Dapolito Dunn,**

*Assistant Administrator, Office of Chemical Safety and Pollution Prevention.*

#### ENVIRONMENTAL PROTECTION AGENCY

[FRL-10013-58-OMS]

#### Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of Kansas

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces the Environmental Protection Agency's (EPA) approval of the State of Kansas's request to revise/modify certain of its EPA-authorized programs to allow electronic reporting.

**DATES:** EPA approves the authorized program revisions/modifications as of August 17, 2020.

**FOR FURTHER INFORMATION CONTACT:** Shirley M. Miller, U.S. Environmental Protection Agency, Office of Information Management, Mail Stop 2824T, 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 566-2908, [miller.shirley@epa.gov](mailto:miller.shirley@epa.gov).

**SUPPLEMENTARY INFORMATION:** On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On December 3, 2019, the Kansas Department of Health and Environment (KDHE) submitted an application titled KEIMS (Kansas Environmental Information Management System) for revisions/modifications to its EPA-approved programs under title 40 CFR to allow new electronic reporting. EPA reviewed KDHE's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this

notice of EPA's decision to approve Kansas's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR parts 122, 125, 240-249, 260-270, 272-279, 280, and EPCRA Sections 302-304, 311-313 is being published in the **Federal Register**:

*Part 123:* EPA-Administered Permit Programs: the National Pollutant Discharge Elimination System (NPDES) Reporting under CFR 122 & 125

*Part 239:* Requirements for State Permit Program Determination of Adequacy (RCRA Subtitle C) Reporting under CFR 240-259

*Part 271:* Requirements for Authorization of State Hazardous Waste Programs (RCRA Subtitle C) Reporting under CFR 260-270, 272-279

*Part 281:* Technical Standards and Corrective Action Requirements for Owners and Operators of Underground Storage Tanks (UST) Reporting under CFR 280

Emergency Planning and Community Right-to-Know Act (SARA Title 111/ CRTK) Reporting under EPCRA Sections 302-304, 311-313

KDHE was notified of EPA's determination to approve its application with respect to the authorized programs listed above.

Dated: August 10, 2020.

**Jennifer Campbell,**

*Acting Director, Office of Information Management.*
