

without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include docket number P-2829-012. Comments emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* The City of Loveland has requested to amend its license to allow the following activities: restoration of the river channel and floodplain in the area formerly impacted by Idylwilde Dam and reservoir and; reconstruction of the parking lot along the Big Thompson River, formerly known as Idylwilde Recreation Area.

l. *Locations of the Application:* This filing may also be viewed on the Commission's website at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. Agencies may obtain copies of the application directly from the applicant.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Documents:* Any filing must (1) bear in all capital letters the title COMMENTS, PROTEST, or MOTION TO INTERVENE as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis. Any filing made by an intervenor must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 385.2010.

Dated: August 11, 2020.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2020-0135; FRL-10013-62]

TSCA Science Advisory Committee on Chemicals; Request for Nominations; Extension of Nomination and Public Comment Periods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; extension of nomination and public comment periods.

SUMMARY: On March 20, 2020, the Environmental Protection Agency (EPA) invited the public to nominate scientific experts from a diverse range of disciplines to be considered for appointment to the Toxic Substances Control Act (TSCA), Science Advisory Committee on Chemicals (SACC). On

April 15, 2020, a federal district court vacated the grants policy articulated in EPA's 2017 federal advisory committee membership directive. In light of that intervening decision, EPA is extending the nomination and public comment periods to receive additional nominees and input on prospective candidates for the SACC. Please note that all prior nominations and comments will be considered by EPA and do not need to be resubmitted.

DATES:

Nominations: To be considered for appointment to the SACC nominations must be received on or before September 1, 2020. Late nominations will not be considered.

Comments: Public comments on prospective candidates for membership on the SACC must be received within 30 days of EPA posting of an updated List of Candidates. The availability of the list and the due date for public comments will be announced through the Office of Chemical Safety and Pollution Prevention (OCSP)P's listservs.

ADDRESSES:

Nominations: Submit your nominations, identified by docket identification (ID) number EPA-HQ-OPPT-2020-0135, by email to knott.steven@epa.gov.

Comments: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2020-0135, to the Federal eRulemaking Portal: <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Steven M. Knott, MS, Designated Federal Officer (DFO), Office of Science Coordination and Policy (7201M), Environmental Protection Agency, 1200 Pennsylvania Avenue NW, Washington, DC 20460; telephone number: (202) 564-0103; email address: knott.steven@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

EPA is extending the nomination and public comment periods to receive additional nominees and input on prospective candidates to be considered for appointment to the SACC. The purpose of the SACC is to provide independent advice and expert

consultation, at the request of the EPA Administrator, with respect to the scientific and technical aspects of issues relating to implementation of TSCA. EPA anticipates appointing multiple SACC members over the next year. Sources in addition to this solicitation may be utilized to solicit nominations and identify candidates. Current members of the SACC are eligible for reappointment during this period. Therefore, the appointments completed over the next year may include a mix of newly appointed and reappointed members. As additional background, the biographies of current SACC members are available on the TSCA SACC website at <https://www.epa.gov/tsc-peer-review/members-science-advisory-committee-chemicals>.

EPA previously solicited nominations for the SACC in the **Federal Register** of March 20, 2020 (85 FR 16095; FRL-10006-50), requesting such nominations be submitted such that they were received on or before April 20, 2020. On April 15, 2020, the U.S. District Court for the Southern District of New York (SDNY) vacated Section 1 of EPA's 2017 federal advisory committee membership directive (2017 Directive), which announced "a requirement that no member of an EPA federal advisory committee be currently in receipt of EPA grants." As a result of the vacatur, Section 1 is no longer in effect and EPA is following the relevant policies as they existed before the 2017 Directive. However, because EPA was still seeking nominations when the SDNY vacated Section 1, EPA is reopening the SACC's membership solicitations and accepting further nominations and public comments.

II. Background

The SACC is a federal advisory committee, established in December 2016 pursuant to TSCA section 2625(o), and chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C. Appendix 2. EPA established the SACC to provide independent advice and recommendations to the EPA Administrator on the scientific basis for risk assessments, methodologies, and approaches relating to implementation of TSCA. The SACC members serve as Special Government Employees (SGEs) or Regular Government Employees (RGEs). The SACC expects to meet approximately 4 to 6 times per year, or as needed and approved by the DFO. Meetings may be virtual (*e.g.*, held via telephone and webcast) or they may be held in the Washington, DC, metropolitan area.

In January 2017, the EPA Administrator appointed 18 members to

the SACC. After further consideration of the objectives and scope of SACC activities, EPA decided to increase the membership of the SACC, and in March 2018, completed additional appointments resulting in a total of 26 members. Subsequently, some SACC members either resigned or declined to serve extended appointments. Currently, there are 19 SACC members, all with membership terms that will expire over the next year.

To date, SACC members and ad hoc reviewers have provided their expertise and knowledge on the first draft chemical risk evaluations. These individuals have dedicated an incredible amount of time to provide EPA with thoughtful and important recommendations for improving the risk evaluations. At times, SACC members were working on multiple chemical evaluations while also preparing for and participating in peer review meetings and writing reports. EPA greatly appreciates the dedication and commitment to service of the SACC members.

Given the foundation provided by the SACC recommendations from peer reviews of the first 10 chemical risk evaluations, EPA is exploring different ways to use the SACC's expertise for providing independent advice and expert consultation. The Agency is considering requesting that the SACC review significant, cross-cutting science issues on exposure, risk, and modeling, similar to how the Agency uses the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), Scientific Advisory Panel (SAP) for health and safety issues related to pesticides. Therefore, EPA may not ask the SACC to peer review every single draft risk evaluation for the next 20 high priority chemicals. With this prospective change in the scope of SACC activities, EPA anticipates appointing approximately 15 members to the SACC by March 2021.

III. Nominations

EPA values and welcomes diversity and encourages nominations of women and men of all racial and ethnic groups. Any interested person or organization may nominate qualified persons to be considered for appointment to this advisory committee. Individuals also may self-nominate. Nominations should be submitted in accordance with the instructions under **ADDRESSES**.

Nominations should include candidates who have demonstrated high levels of competence, knowledge, and expertise in scientific/technical fields relevant to chemical safety and risk assessment. In particular, the nominees should include representation of the

following disciplines, including, but not limited to: Human health and ecological risk assessment, biostatistics, epidemiology, pediatrics, physiologically-based pharmacokinetics (PBPK), toxicology and pathology (including neurotoxicology, developmental/reproductive toxicology, and carcinogenesis), and the relationship of chemical exposures to women, children, and other potentially exposed or susceptible subpopulations.

EPA requests that nominations include the following information: Current contact information for the nominee (including the nominee's name, organization, current business address, email address, and daytime telephone number); the disciplinary and specific areas of expertise of the nominee; the nominee's curriculum vitae; and a biographical sketch of the nominee developed using the template available at <https://www.epa.gov/tsc-peer-review/science-advisory-committee-chemicals-basic-information>. Persons having questions about the nomination process should contact the DFO listed under **FOR FURTHER INFORMATION CONTACT**.

The names and biographical sketches of all interested and available candidates will be added to an updated List of Candidates that will be posted in the docket at <http://www.regulations.gov> and a link to this document will be provided on the SACC website at <http://www.epa.gov/tsc-peer-review>. Please note that no interested and available candidates will be excluded from the list based on prescreening using the selection criteria described in the next section. The availability of the list will be announced through the Office of Chemical Safety and Pollution Prevention (OCSPP)'s listservs. You may subscribe to these listservs at the following website: https://public.govdelivery.com/accounts/USAEPAOPPT/subscriber/new?topic_id=USAEPAOPPT_101. Public comments on the List of Candidates will be accepted for 30 days from the date the updated list is posted. Public comments should be submitted in accordance with the instructions under **ADDRESSES**. The public will be requested to provide relevant information or other documentation on nominees that the EPA should consider in evaluating candidates.

IV. Selection Criteria

In addition to scientific expertise, in selecting members, EPA will consider the differing perspectives and the breadth of collective experience needed to address EPA's charge to the SACC, as well as the following:

- Background and experiences that would contribute to the diversity of scientific viewpoints on the committee, including professional experiences in government, labor, public health, public interest, animal protection, industry, and other groups, as the EPA Administrator determines to be advisable (*e.g.*, geographical location; social and cultural backgrounds; and professional affiliations);

- Skills and experience working on committees and advisory panels including demonstrated ability to work constructively and effectively in a committee setting;

- Absence of financial conflicts of interest or the appearance of a loss of impartiality;

- Willingness to commit adequate time for the thorough review of materials provided to the committee; and

- Availability to participate in committee meetings.

Authority: 15 U.S.C. 2625 *et seq.*; 5 U.S.C. Appendix 2 *et seq.*

Dated: August 10, 2020.

Hayley Hughes,

Director, Office of Science Coordination and Policy.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2017-0628, EPA-HQ-OPP-2015-0715, EPA-HQ-OPP-2017-0440, EPA-HQ-OPP-2017-0687, EPA-HQ-OPP-2017-0619, EPA-HQ-OPP-2016-0108, and EPA-HQ-OPP-2016-0630; FRL-10010-29]

Agency Information Collection Activities; Proposed Renewal of Seven Existing Information Collection Requests (ICRs) Undergoing Consolidation; Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this document announces that EPA is planning to submit renewal requests for seven currently approved Information Collection Requests (ICRs) to the Office of Management and Budget (OMB). The seven renewal ICRs, which are identified in Unit IV, by their corresponding titles, EPA ICR numbers, OMB Control numbers, and related docket identification (ID) numbers, are being consolidated under a separate but parallel effort. To ensure continuity of the approved collection activities, EPA did not make any changes to the

currently approved ICRs for the purpose of these renewals. As required by the PRA, before submitting these ICRs to OMB for review and approval, EPA is soliciting comments on specific aspects of the information collection activities that are summarized in this document. The ICRs and accompanying material are available for public review and comment in the relevant dockets identified in this document for each ICR.

DATES: Comments must be received on or before October 16, 2020.

ADDRESSES: Submit your comments, identified by the docket identification (ID) number for the corresponding ICR as identified in Unit IV, of this document, using the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Carolyn Siu, Field and External Affairs Division, 7650P, Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (703) 347-0159; email address: siu.carolyn@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Submit your comments by the deadline identified under **DATES**.

6. In the subject line on the first page of your response, identify the docket ID number that is assigned to the ICR action. You may also provide the ICR title and related EPA and OMB numbers. For the ICRs that are the subject of this notice, please refer to the information in Unit IV.

III. What do I need to know about the PRA?

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information subject to PRA approval unless it displays a currently valid OMB control number. The OMB control numbers for the EPA regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the preamble of the final rule, are further displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instruments or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in a list at 40 CFR 9.1.

As used in the PRA context, burden is defined in 5 CFR 1320.3(b).

IV. Which ICRs are being renewed?

EPA is planning to submit the seven ICR renewal requests to OMB for review and approval under PRA that are identified in this unit, which provides
