

takes a respondent no more than two minutes per customer. Because the Commission estimates that a quarter of customers who are required to receive the Rule 15g-2 disclosure document will request that their broker-dealer provide them with the additional microcap and penny stock information posted on the Commission's website, the Commission therefore estimates that each broker-dealer respondent processes approximately 39 requests for paper copies of this information per year or an aggregate total of 78 minutes per respondent, which amounts to an annual burden of 14,196 minutes, or 237 hours.

The Commission does not maintain the risk disclosure document. Instead, it must be retained by the broker-dealer for at least three years following the date on which the risk disclosure document was provided to the customer, the first two years in an accessible place. The collection of information required by the rule is mandatory. The risk disclosure document is otherwise governed by the internal policies of the broker-dealer regarding confidentiality, etc.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-89530; File No. SR-MIAX-2020-26]

Self-Regulatory Organizations; Miami International Securities Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

August 12, 2020.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 31, 2020, Miami International Securities Exchange LLC ("MIAX Options" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Options Fee Schedule (the "Fee Schedule").

The text of the proposed rule change is available on the Exchange's website at <http://www.miaxoptions.com/rule-filings>, at MIAX's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Fee Schedule to extend the cap waiver of 1,000 contracts per leg for complex

PRIME ("cPRIME")³ Agency Order rebates for all tiers under the Priority Customer Rebate Program ("PCRP")⁴ until August 31, 2020. The Exchange also proposes to amend the list of MIAX Select Symbols⁵ contained in the PCRP⁶ of the Exchange's Fee Schedule to delete the Select Symbol "JCP," associated with J. C. Penney Company, Inc. ("J. C. Penney"), from the Select Symbols list.

Background

Exchange Rule 518(b)(7) defines a cPRIME Order as a type of complex order⁷ that is submitted for

³ "cPRIME" is the process by which a Member may electronically submit a "cPRIME Order" (as defined in Rule 518(b)(7)) it represents as agent (a "cPRIME Agency Order") against principal or solicited interest for execution (a "cPRIME Auction"), subject to the restrictions set forth in Exchange Rule 515A, Interpretation and Policy .12. See Exchange Rule 515A.

⁴ Under the PCRP, MIAX credits each Member the per contract amount resulting from each Priority Customer order transmitted by that Member which is executed electronically on the Exchange in all multiply-listed option classes (excluding, in simple or complex as applicable, QCC and cQCC Orders, mini-options, Priority Customer-to-Priority Customer Orders, C2C and cC2C Orders, PRIME and cPRIME AOC Responses, PRIME and cPRIME Contra-side Orders, PRIME and cPRIME Orders for which both the Agency and Contra-side Order are Priority Customers, and executions related to contracts that are routed to one or more exchanges in connection with the Options Order Protection and Locked/Crossed Market Plan referenced in Exchange Rule 1400), provided the Member meets certain percentage thresholds in a month as described in the PCRP table. See Fee Schedule, Section 1a)iii. "Priority Customer" means a person or entity that (i) is not a broker or dealer in securities, and (ii) does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial accounts(s). A "Priority Customer Order" means an order for the account of a Priority Customer. See Exchange Rule 100.

⁵ The term "MIAX Select Symbols" means options overlying AAL, AAPL, AIG, AMAT, AMD, AMZN, BA, BABA, BB, BIDU, BP, C, CAT, CLF, CVX, DAL, EBAY, EEM, FB, FCX, GE, GILD, GLD, GM, GOOGL, GPRO, HAL, INTC, IWM, JCP, JNJ, JPM, KMI, KO, MO, MRK, NFLX, NOK, ORCL, PBR, PFE, PG, QCOM, QQQ, RIG, SPY, T, TSLA, USO, VALE, WBA, WFC, WMB, X, XHB, XLE, XLF, XLP, XOM and XOP.

⁶ See section 1a)iii) of the Fee Schedule for a complete description of the PCRP.

⁷ A "complex order" is any order involving the concurrent purchase and/or sale of two or more different options in the same underlying security (the "legs" or "components" of the complex order), for the same account, in a ratio that is equal to or greater than one-to-three (.333) and less than or equal to three-to-one (3.00) and for the purposes of executing a particular investment strategy. A complex order can also be a "stock-option" order, which is an order to buy or sell a stated number of units of an underlying security coupled with the purchase or sale of options contract(s) on the opposite side of the market, subject to certain contingencies set forth in the proposed rules governing complex orders. For a complete definition of a "complex order," see Exchange Rule 518(a)(5). See also Securities Exchange Act Release No. 78620 (August 18, 2016), 81 FR 58770 (August 25, 2016) (SR-MIAX-2016-26).

participation in a cPRIME Auction and trading of cPRIME Orders is governed by Rule 515A, Interpretations and Policies .12.⁸ cPRIME Orders are processed and executed in the Exchange's PRIME mechanism, the same mechanism that the Exchange uses to process and execute simple PRIME orders, pursuant to Exchange Rule 515A.⁹ PRIME is a process by which a Member may electronically submit for execution an order it represents as agent (an "Agency Order") against principal interest and/or solicited interest. The Member that submits the Agency Order ("Initiating Member") agrees to guarantee the execution of the Agency Order by submitting a contra-side order representing principal interest or solicited interest ("Contra-Side Order"). When the Exchange receives a properly designated Agency Order for Auction processing, a request for response ("RFR") detailing the option, side, size and initiating price is broadcasted to MIA X Options participants up to an optional designated limit price. Members may submit responses to the RFR, which can be either an Auction or Cancel ("AOC") order or an AOC eQuote. A cPRIME Auction is the price-improvement mechanism of the Exchange's System pursuant to which an Initiating Member electronically submits a complex Agency Order into a cPRIME Auction. The Initiating Member, in submitting an Agency Order, must be willing to either (i) cross the Agency Order at a single price against principal or solicited interest, or (ii) automatically match against principal or solicited interest, the price and size of a RFR that is broadcast to MIA X Options participants up to an optional designated limit price. Such responses are defined as cPRIME AOC Responses or cPRIME eQuotes. The PRIME mechanism is used for orders on the Exchange's Simple Order Book.¹⁰ The cPRIME mechanism is used for Complex Orders¹¹ on the Exchange's

Strategy Book,¹² with the cPRIME mechanism operates in the same manner for processing and execution of cPRIME Orders that is used for PRIME Orders on the Simple Order Book.

Extension of Waiver of the Contracts Cap for cPRIME Agency Order Rebates

First, the Exchange proposes to amend footnote "*" in Section 1(a)iii) of the Fee Schedule to extend the waiver of the contracts cap per leg for cPRIME Agency Order rebates for all tiers under the PCR P until August 31, 2020. Prior to a rule filing by the Exchange (described below), the Exchange limited the cPRIME Agency Order Credit to be payable only to the first 1,000 contracts per leg for each cPRIME Agency Order in all tiers under the PCR P. On February 28, 2020, the Exchange filed, and the Commission approved, the Exchange's proposal to waive the 1,000 contracts cap per leg for cPRIME Agency Order rebates for all tiers under the PCR P from March 1, 2020 until May 31, 2020.¹³

On May 29, 2020, the Exchange filed, and the Commission approved, the Exchange's proposal to extend the waiver of the 1,000 contracts cap per leg for cPRIME Agency Order rebates for all tiers under the PCR P from June 1, 2020 until July 31, 2020.¹⁴

The Exchange now proposes to extend the cap waiver of 1,000 contracts per leg for cPRIME Agency Order rebates for all tiers under the PCR P until August 31, 2020. The purpose of this proposed change is for business and competitive reasons and to continue to entice market participants to submit larger-sized cPRIME Agency Orders.

Select Symbols List Update

Next, the Exchange proposes to amend Section 1(a)iii) of the Fee Schedule to update the list of MIA X Select Symbols contained in the PCR P to delete the Select Symbol "JCP," associated with J.C. Penney, from the Select Symbols list.

The Exchange initially created the list of MIA X Select Symbols on March 1,

options may only be part of a complex order that includes other mini-options. Only those complex orders in the classes designated by the Exchange and communicated to Members via Regulatory Circular with no more than the applicable number of legs, as determined by the Exchange on a class-by-class basis and communicated to Members via Regulatory Circular, are eligible for processing. See Exchange Rule 518(a)(5).

¹² The "Strategy Book" is the Exchange's electronic book of complex orders and complex quotes. See Exchange Rule 518(a)(17).

¹³ See Securities Exchange Act Release No. 88349 (March 10, 2020), 85 FR 14995 (March 15, 2020) (SR-MIA X-2020-05).

2014,¹⁵ and has added and removed option classes from that list since that time.¹⁶ Select Symbols are rebated slightly higher in certain PCR P tiers than non-Select Symbols. The Exchange notes that on April 30, 2020, the Exchange issued an alert that it would delist J.C. Penney options from trading on the Exchange, effective May 1, 2020.¹⁷ Options on J.C. Penney were authorized to be listed for trading on the Exchange pursuant to Rule 402, but are no longer listed for trading for business reasons.

Accordingly, the Exchange proposes to amend the Fee Schedule to delete the symbol "JCP" from the list of MIA X Select Symbols contained in the PCR P. This amendment is intended to eliminate any potential confusion and to make it clear to market participants that "JCP" will not be a MIA X Select Symbol contained in the PCR P as "JCP" options are no longer listed on the Exchange.

The Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, the Commission highlighted the importance of market forces in determining prices and self-regulatory organization ("SRO") revenues and, also, recognized that current regulation of the market system "has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies."¹⁸ There are currently 16 registered options exchanges competing for order flow. Based on publicly-available

⁹ *Id.*

¹⁰ The "Simple Order Book" is the Exchange's regular electronic book of orders and quotes. See Exchange Rule 518(a)(15).

¹¹ A "complex order" is any order involving the concurrent purchase and/or sale of two or more different options in the same underlying security (the "legs" or "components" of the complex order), for the same account, in a ratio that is equal to or greater than one-to-three (.333) and less than or equal to three-to-one (3.00) and for the purposes of executing a particular investment strategy. Mini-

information, and excluding index-based options, no single exchange had more than approximately 14% of the market share of executed volume of multiply-listed equity and exchange-traded fund (“ETF”) options trades for the month of June 2020.¹⁹ Therefore, no exchange possesses significant pricing power in the execution of multiply-listed equity and ETF options order flow. More specifically, for the month of June 2020, the Exchange had a total market share of 5.05% of all equity options volume.²⁰

The Exchange believes that the ever-shifting market shares among the exchanges from month to month demonstrates that market participants can shift order flow (as further described below), or discontinue or reduce use of certain categories of products, in response to transaction and non-transaction fee changes. For example, on March 1, 2019, the Exchange filed with the Commission an immediately effective filing to decrease certain credits assessable to Members pursuant to the PCRCP.²¹ The Exchange experienced a decrease in total market share between the months of February and March of 2019. Accordingly, the Exchange believes that the March 1, 2019 fee change may have contributed to the decrease in the Exchange’s market share and, as such, the Exchange believes competitive forces constrain options exchange transaction and non-transaction fees.

2. Statutory Basis

The Exchange believes that its proposal to amend its Fee Schedule is consistent with Section 6(b) of the Act²² in general, and furthers the objectives of Section 6(b)(4) of the Act²³ in particular, in that it is an equitable allocation of reasonable fees and other charges among its members and issuers and other persons using its facilities. The Exchange also believes the proposal furthers the objectives of Section 6(b)(5) of the Act in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest and is not designed to permit unfair

discrimination between customers, issuers, brokers and dealers.

The Exchange believes its proposal to extend the waiver of the cap of 1,000 contracts per leg for cPRIME Agency Order rebates for all tiers under the PCRCP until August 31, 2020 provides for the equitable allocation of reasonable dues and fees and is not unfairly discriminatory for the following reasons. The Exchange operates in a highly competitive market. The Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”²⁴ There are currently 16 registered options exchanges competing for order flow. Based on publicly-available information, and excluding index-based options, no single exchange had more than approximately 14% of the market share of executed volume of multiply-listed equity and ETF options trades for the month of June 2020.²⁵ Therefore, no exchange possesses significant pricing power in the execution of multiply-listed equity and ETF options order flow. More specifically, for the month of June 2020, the Exchange had a total market share of 5.05% of all equity options volume.²⁶

The Exchange believes that the ever-shifting market shares among the exchanges from month to month demonstrates that market participants can shift order flow, or discontinue or reduce use of certain categories of products, in response to transaction and/or non-transaction fee changes. For example, on March 1, 2019, the Exchange filed with the Commission an immediately effective filing to decrease certain credits assessable to Members pursuant to the PCRCP.²⁷ The Exchange experienced a decrease in total market share between the months of February and March of 2019. Accordingly, the Exchange believes that the March 1, 2019 fee change may have contributed to the decrease in the Exchange’s market share and, as such, the Exchange believes competitive forces constrain

options exchange transaction and non-transaction fees and market participants can shift order flow based on fee changes instituted by the exchanges.

The Exchange believes that its proposal to continue to waive the 1,000 contracts cap per leg for cPRIME Agency Order rebates for all tiers in the PCRCP until August 31, 2020 is reasonable, equitably allocated and not unfairly discriminatory because this change is for business and competitive reasons and available equally to all market participants. The Exchange cannot predict with certainty whether any market participant would submit additional cPRIME Agency Orders in excess of 1,000 contracts per leg in light of the proposal to continue to waive the cap of 1,000 contracts per leg for cPRIME Agency Order rebates for all tiers under the PCRCP, but believes that market participants would continue to be encouraged to submit larger orders to obtain the additional credits. The Exchange believes that this proposed change would encourage increased cPRIME Agency Order flow, which will bring greater volume and liquidity to the Exchange, which benefits all market participants by providing more trading opportunities and tighter spreads.

The Exchange believes that its proposal to delete the symbol “JCP” from the list of MIAAX Select Symbols contained in the PCRCP is consistent with Section 6(b)(4) of the Act because the proposed change will allow for the continued benefit to investors by providing them an updated list of MIAAX Select Symbols contained in the PCRCP on the Exchange’s Fee Schedule.

The Exchange believes that the proposal to amend an option class that qualifies for the credit for transactions in MIAAX Select Symbols is fair, equitable and not unreasonably discriminatory. The Exchange believes that the PCRCP itself is reasonably designed because it incentivizes providers of Priority Customer²⁸ order flow to send that Priority Customer order flow to the Exchange in order to receive a credit in a manner that enables the Exchange to improve its overall competitiveness and strengthen its market quality for all market participants. The PCRCP, which provides increased incentives in certain tiers in high volume select symbols, is also reasonably designed to increase the competitiveness of the Exchange with other options exchanges that also offer

increased incentives to higher volume symbols.

The Exchange also believes that its proposal to delete the symbol “JCP” from the list of MIA Select Symbols contained in the PCRP is consistent with Section 6(b)(5) of the Act because it will apply equally to all Priority Customer orders in MIA Select Symbols in the Program. All similarly situated Priority Customer orders in MIA Select Symbols are subject to the same rebate schedule, and access to the Exchange is offered on terms that are not unfairly discriminatory.

B. Self-Regulatory Organization’s Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,²⁹ the Exchange believes that the proposed rule changes would not impose any burden on competition that are not necessary or appropriate in furtherance of the purposes of the Act. Instead, as discussed above, the Exchange believes that the proposed change would continue to encourage the submission of additional liquidity to a public exchange, thereby promoting market depth, price discovery and transparency and enhancing order execution opportunities for all market participants. As a result, the Exchange believes that the proposed change furthers the Commission’s goal in adopting Regulation NMS of fostering integrated competition among orders.

The Exchange does not believe that other market participants at the Exchange would be placed at a relative disadvantage by the proposed change to continue to waive the cap of 1,000 contracts per leg for cPRIME Agency Order rebates for all tiers under the PCRP until August 31, 2020. The proposed change is designed to attract additional order flow to the Exchange. The Exchange believes that this proposal will continue to encourage Members to submit Priority Customer cPRIME Agency Orders, which will increase liquidity and benefit all market participants by providing more trading opportunities and tighter spreads. Accordingly, the Exchange believes that the proposed change will not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act because it will continue to encourage order flow, which provides greater volume and liquidity, benefiting all market participants by providing more trading opportunities and tighter spreads.

The Exchange operates in a highly competitive market in which market participants can readily favor competing

venues if they deem fee levels at a particular venue to be excessive. There are currently 16 registered options exchanges competing for order flow. Based on publicly-available information, and excluding index-based options, no single exchange has more than approximately 14% of the market share of executed volume of multiply-listed equity and ETF options trades for the month of June 2020.³⁰ Therefore, no exchange possesses significant pricing power in the execution of multiply-listed equity and ETF options order flow. More specifically, for the month of June 2020, the Exchange had a total market share of 5.05% of all equity options volume.³¹ In such an environment, the Exchange must continually adjust its transaction and non-transaction fees to remain competitive with other exchanges and to attract order flow. The Exchange believes that the proposed rule change reflects this competitive environment because it continues to encourage market participants to provide and send order flow to the Exchange. To the extent this is achieved, all the Exchange’s market participants should benefit from the improved market quality.

Further, the Exchange does not believe that its proposal to delete the symbol “JCP” from the list of MIA Select Symbols contained in the PCRP will result in any burden on intra-market or inter-market competition that is not necessary or appropriate in furtherance of the purposes of the Act. This proposed change is a not a competitive proposal but rather is designed to update the list of MIA Select Symbols contained in the PCRP in order to avoid potential confusion on the part of market participants and other competing options exchanges.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act,³² and Rule 19b-4(f)(2)³³ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission

summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission’s internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-MIA-2020-26 on the subject line.

On January 30, 2020, New York Stock Exchange LLC, NYSE Chicago, Inc., NYSE American LLC, NYSE Arca, Inc., and NYSE National, Inc. (collectively, the “Exchanges”) each filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) ¹ and Rule 19b–4 thereunder,² a proposed rule change to establish a schedule of Wireless Connectivity Fees and Charges with wireless connections between the Mahwah, New Jersey data center and other data centers. The proposed rule changes were published for comment in the **Federal Register** on February 18, 2020.³ On April 1, 2020, pursuant to

Section 19(b)(2) of the Act,⁴ the Commission designated a longer period within which to either approve the proposed rule changes, disapprove the proposed rule changes, or institute proceedings to determine whether to approve or disapprove the proposed rule changes.⁵ On May 18, 2020, the Commission instituted proceedings to determine whether to approve or disapprove the proposed rule changes.⁶ On July 27, 2020, the Exchanges each filed Amendment No. 1 to the proposed rule changes. Notice of Amendment No. 1 to the proposed rule changes was published for comment in the **Federal Register** on August 7, 2020.⁷ The Commission has received comment letters on the proposed rule changes, as modified by Amendment No. 1.⁸

Section 19(b)(2) of the Act⁹ provides that, after initiating proceedings, the Commission shall issue an order approving or disapproving the proposed rule change not later than 180 days after the date of publication of notice of filing of the proposed rule change. The Commission may extend the period for issuing an order approving or disapproving the proposed rule change, however, by not more than 60 days if the Commission determines that a longer period is appropriate and publishes the reasons for such determination. The proposed rule changes were published for notice and comment in the **Federal Register** on February 18, 2020.¹⁰ August 16, 2020 is 180 days from that date, and October 15, 2020 is 240 days from that date.

The Commission finds it appropriate to designate a longer period within which to issue an order approving or disapproving the proposed rule changes, as modified by Amendment No. 1, so that it has sufficient time to consider the
