

time, necessitating some level of consistency between surveys. Further, against the backdrop of these sometimes competing interests, NTIA must also be mindful of the burden on respondents and the potential that an excessively long or complex survey could lead to reductions on response rates. With those constraints in mind, NTIA last redesigned the survey instrument in collaboration with our Census Bureau partners prior to the 2015 edition of the survey, implemented additional improvements for the 2017 survey, and redeployed that same questionnaire for the most recent survey in 2019. In an effort to explore further refinements to the survey instrument ahead of future data collections, NTIA is contracting with the Census Bureau to conduct cognitive testing of current and proposed questions beginning late 2020. Prior to implementing any substantive changes to the survey questions, Census Bureau staff test the draft survey instrument with members of the public, and use the results to recommend changes that improve the performance of individual questions and the survey instrument overall.

Before submitting a draft survey instrument for testing, NTIA is soliciting feedback from the public as to how it might further improve the questions asked in the survey—including, but not limited to, anyone who has used the survey data or is interested in doing so. NTIA intends to build on previous work by adding, deleting, or modifying questions asked in the 2019 NTIA internet Use Survey, preserving where possible the ability to track changes over time while also improving the efficacy and utility of the survey instrument. Interested parties can find the most recent survey instrument at [https://www.ntia.gov/files/ntia/blogimages/november\\_2019\\_cps\\_supplement\\_-\\_final.pdf](https://www.ntia.gov/files/ntia/blogimages/november_2019_cps_supplement_-_final.pdf), and previous versions of the questionnaire can be found in the technical documentation accompanying each public use dataset, available from <https://www.ntia.gov/page/download-digital-nation-datasets>.

NTIA invites all suggestions of possible survey instrument changes to submit for cognitive testing. The following questions serve as a non-exhaustive guide to some of the survey design issues commenters may wish to address:

1. Should NTIA be aware of any past or future planned uses of data from the NTIA internet Use Survey? If so, which survey questions or topics were or would be most important to accomplishing this work?

2. What questions, if any, should NTIA propose adding to the NTIA

internet Use Survey? New questions could either expand on an existing topic, e.g., an additional type of computing device or online activity not currently tracked, or address an entirely new topic in computer or internet use. Commenters may wish to discuss the desired response format (yes or no, multiple choice, etc.), unit of measurement (individuals, households, or a subset of either), and other details of the data to be collected. Further, parties proposing new questions may consider commenting on how NTIA should address any resulting increase in respondent burden, including time needed to administer the survey.

3. Which existing questions, if any, should NTIA consider modifying for future editions of the NTIA internet Use Survey? NTIA may modify the text of an existing survey question in a range of situations, including when recent developments suggest a need for new terminology or answer choices, or when a different question structure may reduce respondent burden or improve the resulting data. Commenters may suggest changes in general terms or by proposing specific question text. If desired, parties may also comment on any potential impacts to time-series comparisons.

4. Which existing questions, if any, should NTIA consider removing from the NTIA internet Use Survey? Reasons NTIA may consider removing a question include, but are not limited to, lack of practical utility (or lesser utility compared with potential new questions), challenges to collecting accurate data through a household survey, or events obviating the continued need for a previously important question. Please comment on any challenges that may result from question removal, including the loss of time-series comparisons.

5. In addition to questions discussed above, are there any questions or general issues related to the NTIA internet Use Survey that should be of particular focus during the cognitive testing process? The Census Bureau will test the entire draft survey instrument, creating an opportunity to assess the performance of all questions individually and collectively.

*Instructions for Commenters:*

Commenters are encouraged to address any or all of the questions in this Notice and Request for Public Comments. Comments that contain references to studies, research, and other empirical data that are not widely published should include copies of the referenced materials with the submitted comments. Comments submitted by email should be machine-readable and should not be

copy-protected. Commenters should include the name of the person or organization filing the comment, as well as a page number on each page of their submissions. All personal identifying information (for example, name, address) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

Dated: August 13, 2020.

## COMMODITY FUTURES TRADING COMMISSION

### Agency Information Collection Activities: Notice of Intent To Extend Collection 3038-0059: Part 41, Relating to Security Futures Products

**AGENCY:** Commodity Futures Trading Commission.

**ACTION:** Notice.

---

**SUMMARY:** The Commodity Futures Trading Commission (“Commission” or “CFTC”) is announcing an opportunity for public comment on the extension of a proposed collection of certain information by the agency. In compliance with the Paperwork Reduction Act of 1995, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments, as described below, on the proposed Information Collection Request (“ICR”) titled: Part 41, Relating to Security Futures Products; OMB Control Number 3038-0059.

**DATES:** Comments must be submitted on or before October 19, 2020.

**ADDRESSES:** You may submit comments, identified by OMB Control No. 3038-0059, by any of the following methods:

- The Agency’s website, at <http://comments.cftc.gov/>. Follow the instructions for submitting comments through the website.

- *Mail:* Christopher Kirkpatrick, Secretary of the Commission, Commodity Futures Trading Commission, 1155 21st Street NW, Washington, DC 20581.

- *Hand delivery/Courier:* Same as Mail above.

Please submit your comments using only one method. All comments must be

submitted in English, or if not, accompanied by an English translation. Comments will be posted as received to <http://www.cftc.gov>.

**FOR FURTHER INFORMATION CONTACT:**

David Steinberg, Associate Director, Division of Market Oversight, Commodity Futures Trading Commission, (202) 418-5102; email: [dsteinberg@cftc.gov](mailto:dsteinberg@cftc.gov).

**SUPPLEMENTARY INFORMATION:** Under the PRA, 44 U.S.C. 3501 *et seq.*, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of Information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3 and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the CFTC is publishing notice of the proposed collection of information listed below. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.<sup>1</sup>

*Title:* Part 41, Relating to Security Futures Products (OMB Control No. 3038-0059). This is a request for extension of a currently approved information collection.

*Abstract:* Section 4d(c) of the Commodity Exchange Act (“CEA”), 7 U.S.C. 6d(c), requires the CFTC to consult with the Securities and Exchange Commission (“SEC”) and issue such rules, regulations, or orders as are necessary to avoid duplicative or conflicting regulations applicable to firms that are fully registered with the SEC as brokers or dealers and the CFTC as futures commission merchants involving provisions of the CEA that pertain to the treatment of customer funds. The CFTC, jointly with the SEC, issued regulations requiring such dually-registered firms to make choices as to how its customers’ transactions in security futures products will be treated, either as securities transactions held in a securities account or as futures transactions held in a futures account.

How an account is treated is important in the unlikely event of the insolvency of the firm. Securities accounts receive insurance protection under provisions of the Securities Investor Protection Act. By contrast, futures accounts are subject to the protections provided by the segregation requirements of the CEA.

With respect to the collection of information, the Commission invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate electronic, or other forms of information technology, *e.g.*, permitting electronic submission of responses.

You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission’s regulations.<sup>2</sup>

The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from <https://www.cftc.gov> that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the ICR will be retained in the public comment file and will be considered as required under the Administrative Procedure Act and other applicable laws, and may be accessible under the Freedom of Information Act.

*Burden Statement:* The respondent burden for this collection is estimated to average 1.05 hours per response. This estimate includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information and disclosing and providing information; adjust the existing ways to

comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; and transmit or otherwise disclose the information.

*Affected Entities:* Entities potentially affected by this action are businesses and other for-profit institutions.

*Respondents/Affected Entities:* 34.  
*Estimated number of responses:* 506.  
*Estimated total annual burden on respondents:* 529 hours.

*Frequency of collection:* On occasion. There are no capital costs or operating and maintenance costs associated with this collection.

(Authority: 44 U.S.C. 3501 *et seq.*)

Dated: August 13, 2020.

**Robert Sdman,**

*Deputy Secretary of the Commission.*

## CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

### Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; VISTA Project Implementation Evaluation Sponsor Survey

**AGENCY:** Corporation for National and Community Service.

**ACTION:** Notice.

**SUMMARY:** The Corporation for National and Community Service (CNCS) has submitted a public information collection request (ICR) entitled Volunteers in Service to America (VISTA) Project Implementation Evaluation Sponsor Survey for review and approval in accordance with the Paperwork Reduction Act.

**DATES:** Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by September 17, 2020.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Copies of this ICR, with applicable supporting documentation, may be obtained by calling the Corporation for National and Community Service, Kelly Daly at 202-606-6849 or by email to [kdaly@cns.gov](mailto:kdaly@cns.gov).

<sup>1</sup> The OMB control numbers for the CFTC regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981).
