SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in the PRA and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, ACL is publishing a notice

of the proposed collection of information set forth in this document.

With respect to the following collection of information, ACL invites comments on our burden estimates or any other aspect of this collection of information, including:

- (1) Whether the proposed collection of information is necessary for the proper performance of ACL's functions, including whether the information will have practical utility;
 - (2) the accuracy of ACL's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used to determine burden estimates;
 - (3) ways to enhance the quality, utility, and clarity of the information to be collected; and
 - (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques when appropriate, and other forms of information technology.
- The Title III Supplemental Form to the Financial Status Report (SF-425) is

used by ACL/AoA for all grantees to obtain a more detailed understanding of how projects funded under Title III of the Older Americans Act (OAA) of 1965, as amended, are being administered, and to ensure compliance with legislative requirements, pertinent Federal regulations and other applicable instructions and guidelines issued by the ACL. The level of data detail necessary is not available through the SF-425 form. The Supplemental Form provides necessary details on non-federal required match, administration expenditures, and Long Term Care Ombudsman expenditures. The proposed data collection tools are on the ACL website for review and public comment, please visit <https://www.acl.gov/about-acl/public-input>.

Estimated Program Burden: ACL estimates the burden associated with this collection of information as follows: 56 State Units on Aging (SUA) respond semi-annually which have an average estimated burden of 2 hours per grantee for a total of 224 hours annually.

Respondent/data collection activity	Number of respondents	Responses per respondent	Hours per response	Annual burden hours
Title III Supplemental Form to the Financial Status Report	56	2	2	224
Total	56	2	2	224

Dated: August 13, 2020.

Food and Drug Administration

[Docket No. FDA–2020–N–0025]

Availability of FDA Statement Added to the Docket for Public Meeting Related to Cosmetic Products Containing Talc

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA or we) is announcing the availability of a statement added to the docket for the public meeting entitled “Testing Methods for Asbestos in Talc and Cosmetic Products Containing Talc” to address information provided in connection with the public meeting. FDA held the public meeting on February 4, 2020, to discuss and obtain scientific data and information on topics related to cosmetic products with talc as an ingredient, specifically, testing methodologies, terminology, and criteria that could be applied to characterize and measure asbestos and other potentially harmful elongate mineral particles (EMPs) that may be present as contaminants in such products. The meeting included presentations by members of an interagency working

group (the Interagency Working Group on Asbestos in Consumer Products or IWGACP).

FOR FURTHER INFORMATION CONTACT: Deborah Smegal, Office of Cosmetics and Colors, Center for Food Safety and Applied Nutrition, Food and Drug Administration, 5100 Campus Dr., College Park, MD 20740, 240–402–1130.

SUPPLEMENTARY INFORMATION:

I. Background

We opened a public docket and held a public meeting on February 4, 2020, to discuss and obtain scientific data and information on topics related to cosmetic products with talc as an ingredient, specifically, testing methodologies, terminology, and criteria that could be applied to characterize and measure asbestos and other potentially harmful EMPs that may be present as contaminants in such products. The meeting included presentations by members of an interagency working group (IWGACP).

As part of the meeting materials, FDA made available an Executive Summary titled “Preliminary Recommendations on Testing Methods for Asbestos in Talc and Consumer Products Containing Talc” by the IWGACP. Neither the Executive Summary nor any of the presentations at the public meeting by members of the IWGACP represent proposed or preliminary recommendations or policies of FDA or any other Federal Agency.

Recently, we have been made aware of concerns that some external parties may consider the Executive Summary to be FDA recommendations. As a result, we are announcing the availability of a

statement in the public docket to address information provided in connection with the public meeting. We have also added corresponding content on FDA’s web page for cosmetics and talc (<https://www.fda.gov/cosmetics/cosmetic-ingredients/talc>).

These updates are intended to clarify that the Executive Summary and related presentations at the public meeting were meant solely to solicit scientific feedback on the issues raised and should not be used for any other purpose. FDA and members of the IWGACP continue to evaluate the scientific literature and public feedback to the docket. FDA does not have any recommendations at this time. Should FDA decide to develop recommendations with respect to standards or testing methods for asbestos in talc, as a result of the information it received as part of the public meeting and comments to the public docket or otherwise, it would issue draft guidance for public comment. Likewise, FDA would propose any related regulations through a public notice and comment process.

II. Electronic Access

Persons with access to the internet may obtain an electronic version of the document at either <https://www.fda.gov/cosmetics/cosmetic-ingredients/talc> or <https://www.regulations.gov>.

Dated: August 14, 2020.

Lauren K. Roth,
Associate Commissioner for Policy.
