[Docket Number FRA-2020-0065]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on August 3, 2020, BNSF Railway Company (BNSF) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 218, Railroad Operating Practices. FRA assigned the petition Docket Number FRA-2020-0065.

Specifically, BNSF requests relief from certain blue signal protection requirements, 49 CFR 218.25, *Workers on a Main Track*, for workers engaged in fueling, performing locomotive daily inspections, and other routine operations on head-end locomotives at fuel pads situated on main lines. BNSF explains that blue signal protection would still be required at the rear end of a train if performing fueling, locomotive daily inspections, and work on locomotives in the distributed power remote consist.

BNSF states that adequate safety will be maintained by placing a blue signal

at the head end of the consist in a location readily visible to the locomotive engineer or whomever may be occupying the controlling locomotive. Protection at the rear end of the train will be supplied by railroad signals, which BNSF states will be sufficient, as there will be no railroad employees performing any inspections on the rolling equipment beyond the lead locomotive consist to the rear of the train.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.
