

Congress renewed program funding for an additional \$99,000,000 in awards.

The Indian Housing Block Grant Competitive (IHBG Competitive) program gives priority to projects that spur housing construction and rehabilitation from NAHASDA-eligible recipients while considering need and administrative capacity. Additionally, applicants could have applied for other eligible activities under Section 202 of NAHASDA. HUD's Office of Native American Programs (ONAP) is responsible for managing the IHBG Competitive program.

ONAP made IHBG Competitive funds available under a Notice of Funding Availability (NOFA) and awarded the funds to the applicants with the highest

rated applications, particularly those with the greatest housing need and administrative capacity. On December 10, 2019, ONAP announced that 54 tribes and tribally designated housing entities would receive nearly \$200,000,000 in IHBG Competitive funds.

IHBG Competitive grantees must submit an IHBG Competitive Annual Performance Report (APR) (HUD-52737) that contains all the reporting requirements codified in the NOFA. Grantees must also submit narrative with the APR that address specific performance measures identified in the NOFA. IHBG Competitive APRs are due to HUD within 90 days of end of the

grantee's program year and at the end of the period of performance identified in the grant agreement.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service, announce

receipt of an application from SeaGlades at St. Andrew Bay (applicant) for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) The applicant requests the ITP to take the federally listed Alabama beach mouse (*Peromyscus polionotus ammobates*) incidental to the construction of 27 single-family homes and amenities (project) in Baldwin County, Alabama. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP) and the Service's preliminary determination that this HCP qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4231 *et seq.*) To make this determination, we used our and low-effect screening form, which is also available for public review.

Project

The applicant requests a 50-year ITP to take Alabama beach mice through the conversion of approximately 2.58 acres of occupied Alabama beach mouse habitat incidental to the construction of 27 single-family homes with amenities located on a 10.53-acre parcel in Baldwin County, Alabama. The applicant proposes to minimize and mitigate for take of the Alabama beach mouse through standard minimization, mitigation measures and monitoring onsite population of the species with fall and spring trapping surveys (twice a year) for the next 50 years. Standard mitigation and minimization measures are a reduced footprint of 0.10 acres or less for each lot (27 lots) within the 10.53-acre parcel, creation of an on-site Alabama beach mouse conservation area and a \$37,000 monitoring and dune management fund. The applicant also will install fully shielded exterior lighting, tinted windows, native vegetation for landscaping, and driveway materials that will not disperse in a storm surge. There will be refuse control, restoration of habitat after tropical storms, and prohibitions on the use of exterior rodenticides and cats roaming free within the property. The Service would require that the applicant ensure that all funding for the HCP is available upfront and prior to its engaging in activities associated with the project.
