

recordkeeping requirements for persons who manufacture or process chemical substances as nanoscale materials. Under the Toxic Substances Control Act (TSCA) section 8(a), EPA requires reporting and recordkeeping for certain chemical substances as nanoscale materials. EPA requires that persons who manufacture or process these nanoscale materials notify EPA of certain information which includes production volume, methods of manufacture and processing, exposure and release information, and available health and safety information. The reporting of these activities will provide EPA with an opportunity to evaluate the information and consider appropriate action under TSCA to reduce any risk to human health or the environment. The information will also inform EPA's assessments of new chemical nanoscale materials submitted to EPA under TSCA section 5.

EPA's Office of Pollution Prevention and Toxics (OPPT), other EPA Offices and/or other Federal agencies will generally be the primary groups for which information will be collected. However, to the extent that reported information is not considered to be confidential business information (CBI), environmental groups, environmental justice advocates, state and local government entities and other members of the public will have access to this information for their own use.

Form Numbers: 9600-07.

Respondents/affected Entities:

Entities potentially affected by this ICR are nanomaterial manufacturers and nanomaterial processors.

Respondent's obligation to respond: Mandatory (40 CFR 704).

Estimated number of respondents: 285 per year.

Frequency of response: On occasion.

Total estimated burden: 40,089 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,067,546 (per year), includes \$0 annualized capital or operation and maintenance costs.

Changes in the estimates: There is a decrease of 106,766 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease reflects EPA's expectation of decreased submissions. In the previous ICR period, the rule required an initial one-time reporting on current nanomaterials, while the reporting covered in this period only requires the reporting of new nanomaterials. Furthermore, burden estimates assume that the same manufacturers will report each year and, therefore, will have already undertaken rule familiarization in the previous ICR

period. This change is an adjustment to the estimates.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collections Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written comments should be submitted on or before October 26, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection

of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

As part of its continuing effort to reduce paperwork burdens, and as required by the PRA of 1995 (44 U.S.C. 3501-3520), the FCC invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

OMB Control Number: 3060-0489.

Title: Section 73.37, Applications for Broadcast Facilities, Showing Required.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 365 respondents; 365 responses.

Estimated Hours per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 Section 154(i) of the Communications Act of 1934, as amended.

Total Annual Burden: 365 hours.

Total Annual Cost: \$1,331,250.

Privacy Impact Assessment(s): No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality and respondents are not being asked to submit confidential information to the Commission.

Needs and Uses: The information collection requirements contained in this collection are found under 47 CFR 73.37(d) which require an applicant for a new AM broadcast station, or for a

major change in an authorized AM broadcast station, to make a satisfactory showing that objectionable interference will not result to an authorized AM station as a condition for its acceptance if new or modified nighttime operation by a Class B station is proposed. The information collection requirements under 47 CFR 73.37(f) require applicants seeking facilities modification that would result in spacing that fail to meet any of the separation requirements to include a showing that an adjustment has been made to the radiated signal which effectively results in a site-to-site radiation that is equivalent to the radiation of a station with standard Model I facilities. FCC staff use the data to ensure that objectionable interference will not be caused to other authorized AM stations.

OMB Control Number: 3060–0320.

Title: Section 73.1350, Transmission System Operation.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions.

Number of Respondents and Responses: 505 respondents; 505 responses.

Estimated Hours per Response: 0.5 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in 154(i) of the Communications Act of 1934, as amended.

Total Annual Burden: 253 hours.

Total Annual Cost: None.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: The information collection requirements contained under 47 CFR 73.1350(g) require licensees to submit a “letter of notification” to the FCC in Washington, DC, Attention: Audio Division (radio) or Video Division (television), Media Bureau, whenever a transmission system control point is established at a location other than at the main studio or transmitter within three days of the initial use of that point. The letter should include a list of all control points in use for clarity. This notification is not required if responsible station personnel can be contacted at the transmitter or studio site during hours of operation.

OMB Control Number: 3060–0634.

Title: Section 73.691, Visual Modulation Monitoring.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions.

Number of Respondents and Responses: 50 respondents; 106 responses.

Estimated Hours per Response: One hour.

Frequency of Response: Recordkeeping requirement; On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in Section 154(i) of the Communications Act of 1934, as amended.

Total Annual Burden: 106 hours.

Total Annual Cost: None.

Privacy Impact Assessment(s): No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: The information collection requirements contained under 47 CFR 73.691(b) require TV stations to enter into the station log the date and time of the initial technical problems that make it impossible to operate a TV station in accordance with the timing and carrier level tolerance requirements. If this operation at variance is expected to exceed 10 consecutive days, a notification must be sent to the FCC. The licensee must also notify the FCC upon restoration of normal operations. Furthermore, a licensee must send a written request to the FCC if causes beyond the control of the licensee prevent restoration of normal operations within 30 days. The FCC staff use the data to maintain accurate and complete technical information about a station’s operation. In the event that a complaint is received from the public regarding a station’s operation, this information is necessary to provide an accurate response.

Federal Communications Commission.

Marlene Dortch,

Secretary.
