Background: In his letter, the USTR stated that the President, on June 24, 2020, issued a Memorandum on Protecting the United States Lobster

Industry (Memorandum). He indicated that the Memorandum states, in part, that U.S. exports of lobster to the European Union (EU) appear to have been significantly and negatively affected by the recent implementation of the Comprehensive Economic and Trade Agreement (CETA) between Canada and the European Union. The Memorandum directed the USTR to request that the Commission provide a report that details any negative effects of the CETA on the United States lobster industry. The Memorandum requires the USTR to submit the report to the President, and, in consultation with the Secretary of Agriculture and Secretary of Commerce, recommend appropriate actions that may be taken to minimize or eliminate any negative effects identified in the Commission's report.

Accordingly, the USTR, under authority delegated by the President and pursuant to section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)), requested that the Commission conduct an investigation and prepare a report that details any negative effects of the CETA on the United States lobster industry.

More specifically, the USTR asked that the Commission's report contain:

- An overview of the U.S. and Canadian lobster industries, including information on production/catch levels, employment, processing capacity, supply chains, prices, domestic consumption, and key factors that affect industry competitiveness;
- A description of trends in lobster exports from the U.S. and Canada to the EU and the United Kingdom (UK), as well as other major destination markets, including but not limited to China, over the last five years, covering the period before and after implementation of the CETA;
- Information on the tariff treatment of U.S. and Canadian exports of lobster to the EU, the UK, and other major destination markets, including China, since the implementation of the CETA; and
- A quantitative assessment of the economic effects of the CETA on the volume of U.S. exports of lobster to the EU and the UK.

The USTR asked that the Commission transmit its report not later than six months after receipt of the request, and the Commission will transmit its report by January 29, 2021. The USTR also stated that he intends to make the Commission's report available to the public in its entirety and asked that the report not include any confidential business information.

be held via an online videoconferencing platform, beginning at 9:30 a.m. on October 1, 2020. However, all information, including confidential business information, submitted in this investigation may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel for cybersecurity purposes. The Commission will not otherwise disclose any confidential business information in a manner that would reveal the operations of the firm supplying the information.

Summaries of Written Submissions: The Commission intends to publish summaries of the positions of interested persons in an appendix to the report. Persons wishing to have a summary of their position included in the report should include a summary with their written submission, titled "Public Summary," and should mark the summary as having been provided for that purpose. The summary may not exceed 500 words, should be in a format that can be easily converted to MS Word, and should not include any confidential business information.
