Proposed American Burying Beetle Habitat Conservation Plan and Low- Effect Screening Form; NS-374 Bridge Over Leader Creek, Hughes County, OK

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of availability; request
for comments.

SUMMARY: We, the U.S. Fish and
Wildlife Service, announce the
availability of several documents related
to an incidental take permit (ITP)
application under the Endangered
Species Act of 1973, as amended.
Circuit Engineering District #4 applied
for the requested ITP, which would be
in effect for a 3-year period in Hughes
County, Oklahoma. If granted, the
permit would authorize American
burying beetle incidental take resulting
from construction of a bridge and off-set
alignment of the road over Leader Creek.
The documents available for comment
include the low-effect screening form
that supports a categorical exclusion
under the National Environmental
Policy Act of 1969, a draft low-effect
habitat conservation plan, and the ITP
application.

DATES: To ensure consideration, written
comments must be received or
postmarked on or before 11:59 p.m.
eastern time on September 28, 2020. We
may not consider any comments we
receive after the closing date in the final
decision on this action.

SUPPLEMENTARY INFORMATION: Section 9
of the ESA (16 U.S.C. 1531 *et seq.*) and
its implementing regulations prohibit
the “take” of animal species listed as
endangered or threatened. Take is
defined under the ESA as to “harass,
harm, pursue, hunt, shoot, wound, kill,
trap, capture, or collect listed animal
species, or to attempt to engage in such
conduct” (16 U.S.C. 1538). However,
under section 10(a) of the ESA, we may
issue permits to authorize incidental
take/the enhancement of survival of
listed/candidate species. “Incidental
take” is defined by the ESA as take that
is incidental to, and not the purpose of,
carrying out an otherwise lawful
activity. Regulations governing such
take of endangered and threatened/
candidate species, respectively, are
found in the Code of Federal
Regulations at 50 CFR 17.22 and 50 CFR
17.32.

Background

Circuit Engineering District #4 has
applied to the U.S. Fish and Wildlife
Service (Service) for an ITP under
section 10(a)(1)(B) of the Endangered
Species Act of 1973, as amended (ESA;
16 U.S.C. 1531 *et seq.*). The requested
ITP, which would be in effect for a
period of 3 years, if granted, would
authorize incidental take of the

American burying beetle. The proposed
incidental take would result from
activities associated with otherwise
lawful activities, including building a
new bridge and off-set road alignment of
the road across Leader Creek.

We have determined the proposed
action qualifies as a low-effect habitat
conservation plan (HCP) and is
categorically excluded from the NEPA
process. The proposed incidental take
would occur along 1.88 acres (ac) where
County Road NS-374 crosses Leader
Creek near the town of Atwood in
Hughes County, Oklahoma, as a result of
activities associated with the applicant’s
construction activities. Such actions
may require disturbance within
potential American burying beetle
habitat. Circuit Engineering District #4
has proposed to mitigate the impacts to
0.75 ac of suitable American burying
beetle habitat, including 0.5 ac of
permanent cover change impacts and
0.25 ac of permanent change. These
habitat acres will be mitigated in
perpetuity according to Service
approved mitigation ratios through
purchasing credits at an approved
conservation bank. Avoidance and
minimization measures to reduce
impacts to the American burying beetle
include reducing motor vehicle,
machinery, and heavy equipment use
areas, reducing soil erosion, increasing
soil stability, providing education to on-
site personnel, limiting the use of
artificial lighting, and preventing
invasive species establishment.

Next Steps

We will evaluate the HCP and
comments we receive to determine
whether the ITP application meets the
requirements of section 10(a) of the ESA
(16 U.S.C. 1531 *et seq.*). We will also
evaluate whether issuance of a section
10(a)(1)(B) permit would comply with
section 7 of the ESA by conducting an
intra-Service section 7 consultation. We
will use the results of this consultation,
in combination with the above findings,
in our final analysis to determine
whether to issue an ITP. If all necessary
requirements are met, we will issue the
ITP to the applicant.

Public Availability of Comments

Written comments we receive become
part of the public record associated with
this action. Before including your
address, phone number, email address,
or other personal identifying
information in your comment, you
should be aware that your entire
comment—including your personal
identifying information—may be made
publicly available at any time. While
you can request in your comment that

we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

We provide this notice under the authority of section 10(c) of the ESA and its implementing regulations (50 CFR 17.22 and 17.32) and NEPA (42 U.S.C 4371 *et seq.*) and its implementing regulations (40 CFR 1506.6).

Geological Survey

Draft National Spatial Data Infrastructure Strategic Plan; Comment Request

AGENCY: Geological Survey, Interior.

ACTION: Request for public comment.

SUMMARY: The Federal Geographic Data Committee (FGDC) is soliciting public comments on the draft strategic plan for the National Spatial Data Infrastructure (NSDI). The draft strategic plan, along with instructions for submitting comments, is posted at: www.fgdc.gov/nsdi-plan.

The FGDC is the interagency committee that serves as the lead entity in the executive branch for the development, implementation, and review of policies, practices, and standards relating to geospatial data. The FGDC operates under the authority of the Geospatial Data Act of 2018 (GDA) and Office of Management and Budget (OMB) Circular A-16. One of the FGDC's responsibilities under the GDA is to "prepare and maintain a strategic plan for the development and implementation of the National Spatial Data Infrastructure in a manner consistent with national security, national defense, and emergency preparedness program policies regarding data accessibility." The GDA describes the NSDI as "the technology, policies, criteria, standards, and employees necessary to promote geospatial data sharing throughout the Federal Government, State, tribal, and local governments, and the private

sector (including nonprofit organizations and institutions of higher education)."

DATES: Interested persons are invited to submit comments on or before September 17, 2020.

ADDRESSES: You may provide comments by either of the following methods:

- Submit comments electronically to: nsdicomments@fgdc.gov.

- Submit comments by mail to: Federal Geographic Data Committee, 12201 Sunrise Valley Drive, Mail Stop 590, Reston, VA 20192.

Instructions for submitting comments are posted at: www.fgdc.gov/nsdi-plan.

FOR FURTHER INFORMATION CONTACT: John Mahoney, U.S. Geological Survey (206-220-4621).

SUPPLEMENTARY INFORMATION: The draft NSDI strategic plan has been developed with inputs from a variety of sources, including FGDC member agencies, the National Geospatial Advisory Committee, and geospatial partner organizations. The plan describes a broad national vision for the NSDI and includes goals and objectives for the sustainable development of the NSDI. Following the public comment period, a revised draft of the plan will be prepared for final review and adoption by the FGDC Steering Committee. Following adoption of the strategic plan, the FGDC will develop more detailed project plans for the goals and objectives in the strategic plan.

Additional information about the FGDC is available at www.fgdc.gov. Additional information about the NSDI strategic plan is available at: www.fgdc.gov/nsdi-plan.

Kenneth M. Shaffer,

Deputy Executive Director, Federal Geographic Data Committee, U.S. Geological Survey.
