

the Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays and facility closures due to COVID 19. We recommend that you telephone David Ogulei, Environmental Engineer, at (312) 353-0987 before visiting the Region 5 office.

II. What is the background information?

The 1990 amendments to the CAA established a comprehensive air quality permit program under the authority of Title V of the CAA. Title V requires certain facilities that emit large amounts of air pollution, or that meet other specified criteria, to obtain an operating permit, known as a Title V permit, after the source has begun to operate. This permit is an enforceable compilation of all enforceable terms, conditions and limitations that are applicable to the source and is designed to improve compliance by clarifying what facilities must do to control air pollution. EPA regulations implementing Title V are codified at 40 CFR part 71 for permits issued by EPA or its delegates and at 40 CFR part 70 for permits issued by states and local agencies pursuant to approved programs. A Title V permit is valid for no more than five years and may be renewed in five-year term increments.

EPA issued the initial Title V permit to Veolia on September 12, 2008 pursuant to 40 CFR part 71. Veolia operates a hazardous waste treatment, storage and disposal facility in Sauget, Illinois. At the facility, containers and bulk shipments of hazardous and solid wastes are received, analyzed and transferred to temporary storage facilities, processed and incinerated in one of three combustion units.

On June 17, 2019, EPA renewed Veolia's Title V permit for a new five-year term. *See* Title V Permit to Operate No. V-IL-1716300103-2014-10, Docket ID. EPAR05OAR2014-0280 to Veolia on June 17, 2019 under 40 CFR part 71. By its own terms, and consistent with 40 CFR 71.11(i)(2), most provisions of the renewal permit became effective on July 18, 2019.

On July 17, 2019, the American Bottom Conservancy petitioned the EPA's Environmental Appeals Board (EAB) to review certain terms and conditions of the June 2019 Title V permit. Consequently, consistent with 40 CFR 71.11(i)(2)(ii), the effective date of the contested terms and conditions of the permit was delayed. On July 21, 2020, the EAB denied the petition for

review. *See In re Veolia ES Technical Solutions, L.L.C.*, CAA Appeal No. 19-01 (EAB, July 21, 2020), 18 E.A.D. (Order Denying Review).

Following the EAB's action, pursuant to 40 CFR 71.11(i)(5)(i), EPA issued a final permit decision as to the contested portions of the permit on August 10, 2020. All contested conditions of Title V Permit No. V-IL-1716300103-2014-10, as issued by EPA on June 17, 2019, were therefore final and effective as of August 10, 2020. Except as provided in the permit, the final Title V permit will expire on July 18, 2024.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: August 24, 2020.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-10013-97-Region 4]

Public Water System Supervision Program Revision for the Commonwealth of Kentucky

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of intended approval.

SUMMARY: Notice is hereby given that the Commonwealth of Kentucky is revising its approved Public Water System Supervision Program. Kentucky has adopted drinking water regulations for the Interim Enhanced Surface Water Treatment Rule, Lead and Copper Rule Minor Revisions, Filter Backwash Recycling Rule, and Revised Total Coliform Rule. The Environmental Protection Agency (EPA) has determined that Kentucky's regulations are no less stringent than these federal rules and the revisions otherwise meet applicable Safe Drinking Water Act requirements. Therefore, the EPA intends to approve these revisions to the Commonwealth of Kentucky's Public Water System Supervision Program.

DATES: Any interested person may request a public hearing. A request for a public hearing must be submitted by September 28, 2020, to the Regional Administrator at the following address: U.S. Environmental Protection Agency, Region 4, Atlanta Federal Center, 61 Forsyth Street SW, Atlanta, Georgia 30303. The Regional Administrator may deny frivolous or insubstantial requests for a hearing. However, if a substantial request for a public hearing is made by September 28, 2020, a public hearing will be held. If no timely and

appropriate request for a hearing is received and the Regional Administrator does not elect to hold a hearing on her own motion, this determination shall become final and effective on September 28, 2020. Any request for a public hearing shall include the following information: The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; a brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement of the information that the requesting person intends to submit at such hearing; and the signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

ADDRESSES: Documents relating to this determination are available for inspection between the hours of 9:00 a.m. and 4:00 p.m., Monday through Friday (excluding legal holidays), at the following location: The main lobby of the Kentucky Energy and Environment Cabinet (KEEC), 300 Sower Boulevard, Frankfort, Kentucky 40601. Due to COVID-19, those intending to view documents at this location should contact Ms. Alicia Jacobs, KEEC, by telephone at (502) 782-6987 at least 30 minutes prior to arriving at KEEC to coordinate viewing. Documents relating to the determination are also available online at <https://eec.ky.gov/Environmental-Protection/Water/Pages/Water-Public-Notices-and-Hearings.aspx> for inspection.

FOR FURTHER INFORMATION CONTACT: Dale Froneberger, EPA Region 4, Safe Drinking Water Branch, by mail at the Atlanta street address given above, by telephone at (404) 562-9446, or by email at froneberger.dale@epa.gov.

SUPPLEMENTARY INFORMATION: The Commonwealth of Kentucky has submitted requests that the EPA approve revisions to the Commonwealth's Safe Drinking Water Act Public Water System Supervision Program to include the authority to implement and enforce the Interim Enhanced Surface Water Treatment Rule, Lead and Copper Rule Minor Revisions, Filter Backwash Recycling Rule, and Revised Total Coliform Rule. For the requests to be approved, the EPA must find the commonwealth regulations codified at Title 401 KAR chapter 8 to be no less stringent than the federal rules codified at 40 CFR part 141. The EPA reviewed Kentucky's applications using the federal statutory provisions (Section 1413 of the Safe Drinking Water Act), federal regulations

(at 40 CFR parts 141 and 142), commonwealth regulations, commonwealth policies and procedures for implementing the rules, regulatory crosswalks, and the EPA regulatory guidance to determine whether the requests for revision are approvable. The EPA determined that the Kentucky regulations are no less stringent than the corresponding federal rules and the revisions otherwise meet applicable Safe Drinking Water Act requirements. Therefore, the EPA intends to approve these revisions. If the EPA does not receive a timely and appropriate request for a hearing and the Regional Administrator does not elect to hold a hearing on her own motion, this approval shall become final and effective on September 28, 2020.

Authority: Section 1413 of the Safe Drinking Water Act, as amended (1996), and 40 CFR part 142.

Dated: August 21, 2020.

Mary Walker,

Regional Administrator, Region 4.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2019-0581; FRL-10011-03-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Standards for Pesticide Containers and Containment (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR) “Standards for Pesticide Containers and Containment” (EPA ICR Number 1632.06 and OMB Control Number 2070-0133) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). This is a proposed extension of the ICR, which is currently approved through October 31, 2020. Public comments were previously requested via the **Federal Register** on December 3, 2019 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it

displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before September 28, 2020.

ADDRESSES: Submit your comments to EPA referencing Docket ID No. HQ-OPP-2019-0581, online using <http://www.regulations.gov> (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Carolyn Siu, Field External Affairs Division (7506P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: Insert (703) 347-0159; email address: siu.carolyn@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR covers the information collection activities associated with the pesticide container design and residue removal requirements and containment structure requirements. With respect to the container design and residue removal requirements, the information collection activities are associated with the requirement that businesses subject to the container regulations (pesticide registrants) and repackaging regulations (pesticide registrants and refillers)

maintain records of test data, cleaning procedures, certain data when a container is refilled, and other supporting information. These records are subject to both call-in by EPA and on-site inspection by EPA and its representatives. EPA has not established a regular schedule for the collection of these records, and there is no reporting. With respect to the containment structure requirements, the information collection activities are associated with the requirement that businesses subject to the containment structure regulations maintain records of the: (1) Monthly inspection and maintenance of each containment structure and all stationary bulk containers; (2) Duration over which non-stationary bulk containers holding pesticide and not protected by a secondary containment unit remain at the same location; and (3) Construction date of the containment structure. The businesses subject to the containment structure regulations include agrichemical retailers and refilling establishments, custom blenders and commercial applicators of agricultural pesticides. The records have to be maintained by the owners and operators of such businesses and made available to inspectors to ensure that businesses are in compliance with containment requirements. These inspections are generally conducted by the states, which enforce FIFRA regulations through cooperative agreements with EPA.

Form Numbers: None.

Respondents/Affected Entities: Pesticide registrants and businesses who formulate pesticide products or pesticide formulation intermediates (NAICS code 325320), farm supply wholesalers (NAICS code 422910), swimming pool applicators (NAICS code 561790, 453998 and 235990), and agricultural (aerial and ground) commercial applicators (NAICS code 115112).

Respondent’s obligation to respond: Mandatory under sections 3, 8, 19, 25 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136f, 136q, and 136w).

Estimated number of respondents: 23,586 (total).

Frequency of response: On occasion.

Total estimated burden: 180,763 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated costs: \$ 9,033,656 (per year), includes \$335,900 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase of 11,103 hours in the total estimated respondent burden compared with that identified in the ICR currently
