Agricultural Marketing Service

Title: Generic Information Collection and Clearance of Qualitative Feedback on Agency Service Delivery.

OMB Control Number: 0581–0269.

Summary of Collection: Executive Order 12862 directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. Improving Agricultural Marketing Service (AMS) programs requires ongoing assessment of service delivery, by which we mean systematic review of the operation of a program compared to a set of explicit or implicit standards, as a means of contributing to the continuous improvement of the program.

Need and Use of the Information: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between AMS and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design

(including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Description of Respondents: Farms; Business or other for-profit; Not-for-profit Institutions and State, Local or Tribal Government.

Number of Respondents: 100,000.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 50,000.

Agricultural Marketing Service

Title: USDA Web Based Supply Chain Management System (WBSCM).

OMB Control Number: 0581–0273.

Summary of Collection: Section 32 of the Act of August 24, 1935, as amended (Section 32 Pub. L. 74–320; 7 U.S.C. 612(c); Sections 6(a) and (e), 13, and 17 of the National School Lunch Act, as amended, (42 U.S.C. 1751, 1761, and 1766) in addition to several other acts authorize the Agricultural Marketing Service (AMS) Procurement Branches to prepare and issue announcements for the purchase and sale of perishable agricultural commodities. AMS purchases agricultural commodities for the Section 32 and 6a & e National School Lunch Program/Child & Adult Care Food Program; Nutrition Service Incentive Program; Food Distribution Program on Indian Reservations; Commodity Supplemental Food Program; The Emergency Food Assistance Program and Disaster Feeding in addition to providing support for commodity markets with surplus inventory.

Need and Use of the Information: AMS issues solicitation for offers in order to solicit bids for commodities for delivery to domestic nutrition assistance programs. Vendors respond by making electronic offers using the secure Web Based Supply Chain Management System (WBSCM). Vendors must be registered, and have an ID and password, in order to submit bids electronically through WBSCM via the internet. The information will change in response to the needs of the domestic feeding programs and each solicitation. Information collected has been consolidated into three processes—a New Vendor Application, Bid Solicitation, and Contract Delivery,

Invoice Submission and Inspection Results. The data collected from vendors assists AMS with making a determination whether a business is viable and capable of supplying product to the Federal government.

Description of Respondents: Business or other for profit; Farms.

Number of Respondents: 330.

Frequency of Responses: Reporting: On occasion; Weekly; Monthly; Quarterly.

Total Burden Hours: 48,376.

Agency Information Collection Activities: National Study of State Adoption and Use of Pandemic-Electronic Benefit Transfer During Covid–19

AGENCY: Food and Nutrition Service (FNS), USDA.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on this proposed information collection. This collection is a new collection to collect information on the operational aspects of the Pandemic Electronic Benefit Transfer program (P–EBT).

DATES: Written comments must be received on or before October 27, 2020.

ADDRESSES: Comments may be sent to: Edward Harper, Food and Nutrition Service, U.S. Department of Agriculture, 1320 Braddock Place, Alexandria, VA 22314. Comments may also be submitted via fax to the attention of Edward Harper at 703–305–2340 or via email to edward.harper@usda.gov. Comments will also be accepted through the Federal eRulemaking Portal. Go to <http://www.regulations.gov>, and follow the online instructions for submitting comments electronically.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will be a matter of public record.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of this information collection should be directed to Edward Harper at 703–305–2340.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Title: National Study of State Adoption and Use of Pandemic-Electronic Benefit Transfer during Covid-19.

Form Number: Not applicable.

OMB Number: Not Yet Assigned.

Expiration Date: Not Yet Assigned.

Type of Request: New collection.

Abstract: The Families First Coronavirus Response Act of 2020 provides the Secretary of Agriculture

authority to approve State agency plans for temporary emergency benefits under the Food and Nutrition Act of 2008. Children who would receive free or reduced-price meals under the Richard B. Russell National School Lunch Act, if not for the school closures, are eligible under this provision.

This collection seeks to gather information on operational issues and challenges encountered by Child Nutrition (CN) and Supplemental Nutrition Assistance Program (SNAP) State agencies while implementing the PEBT program. The study will collect information on State systems, including student information and direct certification systems and the records contained in those systems, school meal application data, information on the efficacy of the PEBT program, costs of operating the program, and organizational and operational challenges. This study will also seek to collect administrative data on per recipient benefits at the school district level.

Affected Public: Respondent groups include: (1) All CN State agencies administering the NSLP and SBP; (2) All SNAP State agencies administering the SNAP program.

Estimated Number of Respondents: The total estimated number of respondents is 150. This includes 75 CN State agency respondents and 75 SNAP State agency respondents. In some States, more than one State agency administers the school meal programs. There are 59 State agencies that administer the school meal programs. The additional respondents included in the estimate account for time spent consulting with staff actively involved in the P-EBT operations.

Estimated Number of Responses per Respondent: The CN and SNAP State agencies will be asked to complete one survey and provide requested administrative data for the period P-EBT was operational. There will be one response per respondent.

Estimated Total Annual Responses: $150 \times 1 = 150$.

Estimated Time per Response: The response time is estimated to be about 3 hours for each CN and SNAP State agency to complete.

Estimated Total Annual Burden on Respondents: 450 hours. See the table below for estimated total annual burden for each State agency director.

Respondent	Estimated number respondent	Responses annually per respondent	Total annual responses	Estimated avg. number of hours per response	Estimated total hours
Reporting Burden					
Child Nutrition State agencies	75	1	75.00	3	225
SNAP State agencies	75	1	75.00	3	225
