Through this information collection, students provide profile information such as demographics, educational background, military service or professional background, and emergency contact information. The information is critical to university operations as it is used to fulfill mandatory reporting requirements and for the safety of our students. The information is collected from students electronically, via a web-based form that contains a combination of selected-response (radio buttons, drop-down menus) and open-response items. The National Defense University Student Profile (NSP) is completed by all students, and is administered using a Drupal-based survey platform provided by USA Learning.

The data are downloaded, processed, and transferred to the USMS by NDU's Office of Institutional Research.
