

EPA has invited the ACHP, FDEP, the State Historic Preservation Officer (SHPO), and Indian tribes with interests in the State of Florida to participate as consulting parties.

The State's administration of the Section 404 program and its issuance of permits over time has the potential to affect historic properties, including cultural resources or historic properties of religious and cultural significance. FDEP and the SHPO have entered into an Operating Agreement which sets forth a process to identify historic properties that may be impacted by Florida's issuance of Section 404 permits, and to develop recommendations for resolving adverse effects. As discussed in the State's Operating Agreement, such effects could potentially include, but are not limited to, the following:

i. Physical destruction of or damage to all or part of the property, including inundation;

ii. Alteration of a property, including restoration, rehabilitation, repair, maintenance, stabilization, hazardous material remediation, and provision of handicapped access;

iii. Change of the character of the property's use or of physical features within the property's setting, or impacts to the landscape that contribute to its historic significance;

iv. Introduction of visual, atmospheric or audible elements that diminish the integrity of the property's significant historic features; and

v. Neglect of a property which causes its deterioration, except where such neglect and deterioration are recognized qualities of a property of religious and cultural significance to an Indian Tribe.

Pursuant to the Operating Agreement, if the parties cannot reach agreement on the determination or resolution of effects, they may forward any outstanding issues to EPA for decision-making consistent with EPA's permitting review authorities under 40 CFR 233.50. The Operating Agreement provides comprehensive procedures for assessing the effects of Florida's 404 program on historic properties and therefore will considerably inform EPA's Section 106 consultation.

EPA solicits comments on this undertaking and any potential effects on historic properties at the Federal eRulemaking Portal, Docket No. EPA-HQ-OW-2018-0640. The comment period closes November 2, 2020.

C. Endangered Species Act Consultation

The Endangered Species Act (ESA) Section 7 directs each federal agency to ensure, in consultation with the USFWS and NMFS, that "any action authorized,

funded, or carried out by such agency . . . is not likely to jeopardize the continued existence of" listed species or result in the destruction or adverse modification of designated critical habitat. 16 U.S.C. 1536(a)(2). EPA views consultation under ESA Section 7 to be required if a decision to approve a state or tribal CWA Section 404 program may affect ESA-listed species or designated critical habitat. EPA's position is set forth in a memorandum issued by David P. Ross, Assistant Administrator for the Office of Water, dated August 27, 2020, following the consideration of comments received during a public participation process that is outside of the scope of this notice. Accordingly, EPA is conducting ESA Section 7 consultation during the Agency's review of the State of Florida's request to assume administration of a CWA Section 404 program because EPA has determined that the Agency's potential approval of the program may affect ESA-listed species or designated critical habitat. See <https://www.epa.gov/cwa404g/consultation-cwa-section-404-program-requests-endangered-species-act-and-national-historic> for more information regarding EPA's position on ESA Section 7 consultation under CWA Section 404(g).

Respondents are manufacturers, distributors, and importers of architectural coatings. Responses to the collection are mandatory under 40 CFR part 59, subpart D—National Volatile Organic Compound Emission Standards for Architectural Coatings. All information submitted to the EPA for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR part 2, subpart B—Confidentiality of Business Information.
