

Coalition withdrew its request for review within the 90-day deadline. Because Commerce received no other requests for review, we are rescinding the administrative review of the order on biodiesel from Indonesia covering the April 1, 2019 through March 31, 2020 POR, in its entirety, in accordance with 19 CFR 351.213(d)(1).

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries of biodiesel from Argentina. Antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption in accordance with 19 CFR

351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP 15 days after the date of publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as the only reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to all parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.213(d)(4).

Dated: September 15, 2020.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION: The Council and the Commission are developing a joint action to consider adjusting the allocations of the black sea bass commercial quota among states. These allocations were loosely based on landings data from 1980-2001. They were first implemented in 2003 and have not been modified since that time. They are currently included only in the Commission's fishery management plan and are not jointly managed with the Council. This joint action will consider whether modifications to these allocations should be made to account for changes in black sea bass distribution and abundance over time, as well as other considerations. It will also consider whether the allocations should be added to the Council's Fishery Management Plan.

Additional information on this action is available at: <http://www.mafmc.org/actions/bsb-commercial-allocation>.
